

BANDITS LOOT LUNCH STAND

Two Hold Up Barbecue Place at Early Hour.

Two young bandits held up Roy Temple, R. R. H. Box 339, night man at the John Martin Barbecue place, 11, the National Rd. at 3:30 p. m. today.

Reible said one of the men came back to get sandwiches and went back to the parked auto with them. When he called for matches and when Reible walked out with them he found he was facing guns. The men took \$6 from the cash register, and a watch valued at \$17, but overtook \$40.

Dr. J. A. McDonald, 3227 N. Pennsylvania St., away since July 29, found burglars had taken two pistols, a pair of field glasses and a stool valued at \$140.

Robert Stafford, 2213 Pierson St., conductor of Northwestern car, reported tickets valued at \$25 stolen. Mrs. Frank Hoke, 3445 Washington St., reported a watch valued at \$17, but overtook \$40.

DRIVER FINED TWICE

Charged With Driving Through Safety Zone and Striking Auto.

Two fines were given Ben Hiner, E. Tabor St., by City Judge Delbert O. Wilmett today. Hiner was fined \$35 and costs on a charge of driving through a safety zone and \$40 and costs on a charge of battery charge.

Hiner's automobile is alleged to have struck and injured Mrs. Maude Brub, 48, of 735 Park Ave., at Walnut St. and Massachusetts Ave. on Sept. 24.

DR. W. B. CALDWELL AT THE AGE OF 83

Mother! It's Cruel to "Physic" Your Child

"In children's ills, a harsh, sickening 'physic' often makes matters worse by lowering the child's resistance."
—DR. CALDWELL

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated infants and children had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all children's little ills, he did not believe that a sickening "purge" or "physic" every day or two was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which regulates the bowels. A single dose will establish a natural, healthy bowel movement for weeks at a time, even if the child was chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it is often months before another dose is necessary. Besides, it is absolutely harmless, and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

BOND ISSUE OPPOSED

Protest Filed in Clarksville Water Case.

By Times Special
JEFFERSONVILLE, Ind., Oct. 1.—A protest against a proposed \$20,000 bond issue of the town of Clarksville in order to install a water system has been filed in the office of Thomas L. Stoner, county auditor, Jeffersonville.

The reasons given for the protest are that the issue is unwise and unnecessary; that the installation is not necessary, and that the needs of the town do not require the system. Clarksville has suffered from several mysterious fires, one of the latest of which was the burning of the school building.

SEARCH WRIT GAME ENDED

(Continued From Page 1)

he they hadn't obtained the warrant from Spither after all that the mistake was discovered. Capt. William Paulsell, head of the police booze division, perhaps Elsenhut had gotten the warrant from Wulfson. Sometimes they did get them there.

It's Found

And there the warrant was found. The Constitution of the United States declares in the Fourth Amendment:

"The right of the people to be secure in their persons, houses, papers and effects against unreasonable searches and seizures shall not be violated; and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the persons or things to be seized."

The search warrant shall be issued upon oath or affirmation. Lieutenant Elsenhut took the oath in support of the search warrant in question. An oath is presumed to be a serious matter. Men have been sent to jail for swearing falsely.

But He Forgot

But Lieutenant Elsenhut couldn't remember in what court he swore that oath.

Justice Spither couldn't remember—even to save himself a grilling by Judge Collins—that he had had nothing to do with the Meyers' search warrant.

The law says records shall be kept of search warrants issued and returned. But Spither's records didn't help him any. City Attorney William Bosson discovered the other day that Spither kept no docket of the hundreds of search warrants issued by him in the last few months.

Trial to Go On

Now that the warrant has been found, the appeal of Miss Meyers from city court on a blind tiger charge will be tried in Criminal Court as soon as possible. The defense had requested that the warrant be produced and Judge Collins had held up the case until it could be located.

Collins indicated there would be no let-up in the crusade against the illegal searching of homes. He was aroused in the first place because if Spither had issued the warrant for Miss Meyers' home it would have been illegal. Spither's court is in Wayne Township and Miss Meyers' home is in Center Township. Justices can not issue search warrants for territory outside their jurisdiction.

Justice Wulfson has jurisdiction in Center Township, so the warrant can not be attacked upon this score.

Collins said that responsibility for hastily prepared and illegal search warrants rests with Captain Paulsell. The police dry raiders have taken advantage of the justices, he said.

Illegal Raids

Thousands of homes in Indianapolis have been illegally entered by dry raiders, he said.

There has been too much desire to catch little violators instead of running down the source of supply, he charged.

Spither, he said, had no authority to issue warrants for searches outside his township—Wayne.

And city dry officers were scored for making raids on tips received over the telephone from jealous neighbors.

Captain Paulsell conferred with Collins after court had adjourned.

In the meantime Police Chief Herman F. Rikhoff conferred with Captain Paulsell regarding the charges of Judge Collins.

"I have always maintained search-

SENATOR ACTS FOR COMMUNIST

Borah Reads His Appeal to Parliamentary Congress.

By United Press
WASHINGTON, Oct. 1.—The Saklatvala case was placed squarely before the representatives of forty nations at the opening session of the Inter-Parliamentary Congress today.

Barred from this country by order of the State Department, the British communist delegate Shapurji Saklatvala presented through Senator William Borah of the Foreign Relations Committee a letter demanding investigation of the "outrage."

Simultaneously Secretary of State Kellogg in an address to the union warned against encroachments of "class tyranny" upon representative governments.

FLORIDA BOOM'S END IN SIGHT?

(Continued From Page 1)

a slump and only the blind refuse to see it."

Prepare to Unload

Dozens of realtors I have talked with in Tampa, St. Petersburg, Miami, Sarasota, St. Augustine, Daytona, Ocala, Gainesville and many other towns, admitted their fears of a break in the boom and said they were counting on unloading what property they have as soon as the winter season starts. They will then deal only in other people's property, taking their profits in commissions and not speculating on their own account.

Almost the first question on people's tongues is: How long will it last?

You can find plenty of persons to agree with any kind of an answer you give.

Few will admit, however, that there is to be a break in the boom in their town, but each town doubts the other's staying qualities. Tampa says Miami is in the throes of a price inflation frenzy. St. Augustine says Ft. Pierce has nothing permanent to recommend it but the mosquitoes, and Ft. Pierce says St. Augustine stopped with the Spaniards. Palm Beach laughs at the attempts of the rest of the State to establish exclusive society resorts, and St. Petersburg pities the fate of Palm Beach when the "bottom drops out of her boom."

Gambling Spirit

Everywhere the spirit is that of the stock market gambler. The big gamblers will stick to the end, and if they lose on the last play will figure they are ahead on the season.

They tell a stranger that it will last forever, or that the rise has just gained momentum. They advise a friend to unload by January.

The attitude of the average broker was expressed by a man I met who once operated a bucket-shop in Vancouver and then a gambling house in Los Angeles. He left the oil stock game to come to Miami, where he had a concrete block plant,

several apartments and a good brokerage business.

"I don't care how long it lasts," he said. "I'm not fool enough to think it will last forever, but if I see a flop coming, I'll find me a sucker to unload on. I'm a gambler. If a man isn't a good gambler he has no business playing. I don't sympathize with a fellow who gets hurt."

Native Son's View

There is, of course, the extremist in Florida, usually the native son, who believes there is no boom afoot, but that Florida is merely concentrating forty years development in two or three. He is the chap who thinks his state has finally come into its own and nothing can stop it.

But it is beyond reason to believe that such an abnormal condition will continue long. In many localities the peak has been reached. Properties in a dozen places have increased 1,000 per cent in the past two years, according to Carl McCree, vice president of the Florida Development Board. This increase has not only caught up with any delayed natural growth but has surpassed all reasonable expectation.

There are many indications of a break in the boom. An analysis of these will appear in the next article.

Every Woman Deserves a

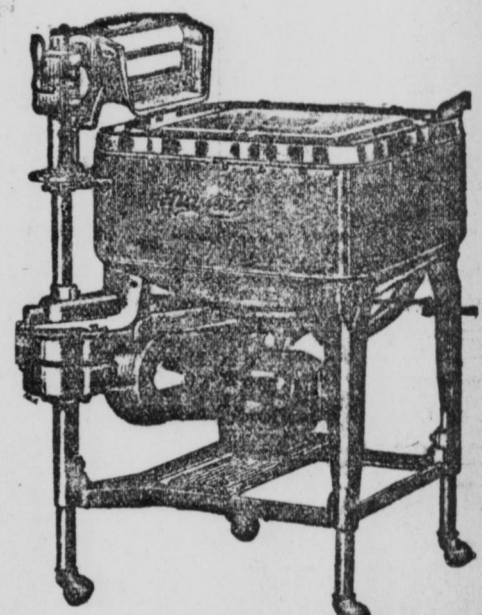

Maytag Washer

IF the statistics in the accompanying article are true, seventy-one out of every one hundred homes in the United States need to be more progressive. And the seventy-one homes are divided into two classes—one spends a great amount of its yearly income to have the laundry done. The other home sentences a loved member to 52 days of hard labor each year over steaming wash tubs.

The MAYTAG WASHER will save money for the one class, and it will save time, labor—and perhaps health for the other. And the Maytag is within reach of every family when bought on Ayres' Deferred Payment Plan.

Call MAin 5200 Today!

We'll gladly send out a regulation Maytag Washer from the store and do a washing for you without the slightest obligation on your part. Just get together all the things you have that are hard to clean—blankets, dirty overalls—anything, and we will get them clean. Remember, you do not have to buy, but after you have seen how swiftly and how surely the Maytag does its work, we feel sure you will not want to be without one.
