

## DRY AGENTS TO GET AX MONDAY?

### Changes in Personnel of Federal Agents Expected.

Long anticipated change in the personnel of the Indiana Federal Prohibition department is expected Monday, it was learned today.

A. F. Harris, new deputy administrator, has already announced that agents who have not received their new appointments will be automatically dropped next Thursday.

Harris said that recommendations for appointments in this district will be made by E. C. Yellowly, district administrator, Saturday. They will be forwarded to Washington for approval and will be announced here the first of next week.

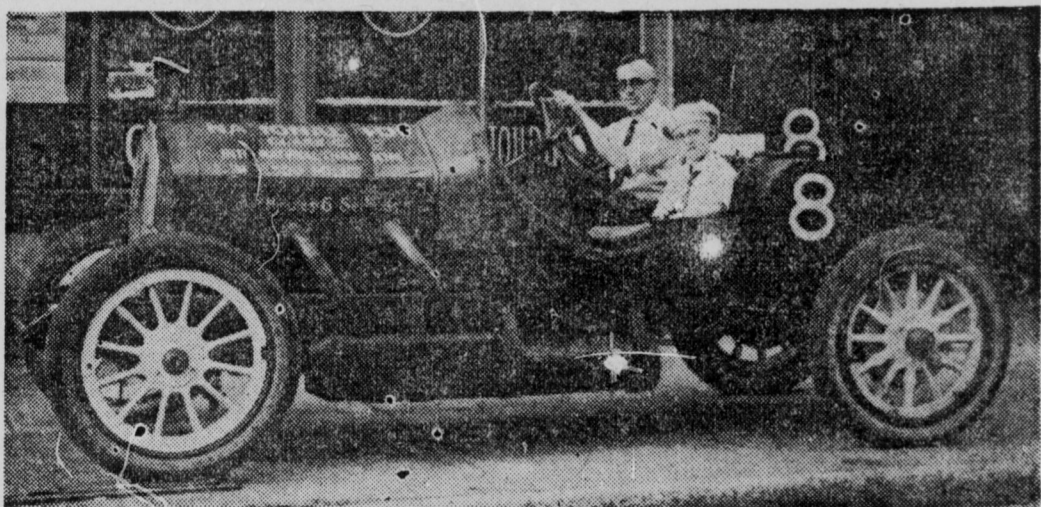

### WAR VET CROSSES SEA

**LIVERPOOL, Oct. 9.**—An American "Old Man of the Sea" is visiting in England today. He is Patrick Ferris, an American Civil War veteran 99 years old, who says he "still feels like a boy."

Ferris served through the Civil War as an artilleryman under General Grant. He was wounded four times. He came to England to visit a sister at Newport, Monmouthshire.

While en route to England he came to be known among the passengers as "The Old Man of the Sea" as he was the oldest man on the ship's records to have made the trans-Atlantic trip.

## Racing Car Recalls Early Days at Speedway

Don Herr and Son in car which won speedway race in 1912.

Auto racing may be an exciting sport, but Don Herr, once a race driver himself, doesn't want his son to follow in his footsteps.

Herr, however, sometimes takes his son riding in the old race car, which he built and which won the 500-Mile Speedway Race in 1912. Herr now keeps the car in his garage in Times Square at 120 Kentucky Ave.

### GEN. SHERWOOD DYING

**TOLEDO, Ohio, Oct. 9.**—The death of General Isaac Sherwood, 80 oldest living former Congressman within the next two or three days "is inevitable," physicians who have maintained a constant vigil at the aged man's bedside, said today.

General Sherwood was recently stricken by anemia.

He was relief driver for Joe Dawson, in 1912, when the car made average speed of 78.72 miles, winning the race.

The car won a 200-mile race at Elgin, Ill., in 1911, making an average of 68 miles on dirt track. Contrasted with modern race cars the old blue National is burdensome. It weighs 2,700 pounds, while newer cars are only 1,200 pounds.

## SUNNYSIDE IS SHOWN BY FILM

### Work Being Done at Sanatorium Displayed.

Many of the foremost clubs of the city are availing themselves of the opportunity to see the Sunnyside Sanatorium motion picture film, which is being shown under the auspices of the Marion County Tuberculosis Association. The film, taken by Harry Colburn, gives a definite picture of the conditions at Sunnyside that only a personal visit could do otherwise. The institution is partly financed by an appropriation from the county taxes, and several

women's clubs are actively engaged in work for the sanatorium.

The patients, now numbering 180 men, women and children, pay according to their means. Tanned little fellows clad only in shorts, are shown in the picture, romping their way to health in the sunshine. An interesting close-up of life in the cheerful wards is given. The sanatorium has added several new buildings, but these are not yet enough to care for the needs of all the patients who wish to enter there.

Dr. H. S. Hatch, superintendent of the sanatorium, is anxious that the picture be shown before clubs and other organizations so that a fuller knowledge of the work of the sanatorium may be given. Bookings for the picture may be had through the Marion County Tuberculosis Association.

sociation, which financed the making of the film through the sale of Red Cross Seals.

### MOTOR SINGS LULL-A-BYE

**LONDON, Oct. 9.**—"Asleep at the wheel" is the cause ascribed to many motor accidents by a writer in the "British Medical Journal."

"An over-tired driver is easily soothed to greater somnolence by the rhythm of the engine" continues the article, "Medical men who drive

their cars must be more liable than most people to the risk of falling asleep since they often have many long days of tiring work.

"Motorists who are very tired should refrain from driving on motorous country roads."

### WHEN JAPS GET MAD

**TOKIO**—Call a man a liar in America and a fight is on. In Japan, however, the people do not seem to care much for such a name. What they dislike here is the name "fool" or "beast."
