

# HOG PRICES TUMBLE OFF 25 CENTS

## STEADINESS IN MONEY RATES BUOYS MARKET

U. S. Steel Common Stocks New High Point Mark.

### Average Stock Prices

Average price of twenty industrial stocks for Friday was 101.64, up 1.14 from 100.50, and average price of twenty rails for Friday was 101.64, up .28.

By United Press. NEW YORK, Oct. 9.—Maintenance of the redoubtable rate of 3 1/2 per cent and a slight improvement in the reserve ratio of the local Federal Reserve bank which advanced to 76 per cent against 75.6 per cent a week ago, furnished the basis for a buoyant opening in the general list.

United States Steel common climbed into new high ground on the current move at 124 1/2, while Chrysler sprang 3 1/2 to the best levels of its history at 196. American Can gained 1 1/2 to 258 1/2 and Baldwin a point to 119 1/2. Stocks continued free from selling pressure around noon and vigorous advances went ahead in special issues. Operations for the rise were particularly aggressive in merchandising issues, following the publication by Don-Jones of an interview with President Parsons of F. W. Woolworth and Company, who says that the retail business this fall will be the largest the country has ever enjoyed.

Gimbel Brothers was the outstanding feature of the group, running up 4 1/2 points to 69. This rapid advance reflected the belief of investors sponsoring the issue that Gimbel has been selling out of line in view of the unprecedented sales volume which assures the highest earnings in the company's history for 1925.

Brooklyn Union Gas advanced fractionally to 89 1/2 on persistent accumulation by interests identified with the management.

### Local Bank Clearings

Indianapolis bank clearings for Friday amounted to \$2,300,000. Bank credits for Friday totaled \$4,000,000.
