

STIRRIN' the DOPE

By VEDDER GARD

SECRETARY TRESTER of the Indiana High School Athletic Association in an address before a grid clinic at Gary sponsored by the Northern Indiana Athletic Officials Association is quoted in press dispatches as saying pre-season football training for high school players gave those teams which could afford such methods and were in a position to take advantage of the early work an unfair advantage.

There is always a conflict between the smaller and larger schools in the I. H. S. A. A. the same as there is conflict between the powerful and the less great in all other activities in this life. It is part of Trestler's task to reconcile the large and small schools—to strike a happy medium in the carrying out of policies.

It seems that there is no very good reason for not allowing the boys a period at camp. It is surely much better for them than a winter on the basketball floor. But Trestler must endeavor to equalize things. That, no doubt, is his idea.

There is always some jealousy aroused in the smaller institutions if it appears as though the larger schools are "getting away" with anything. It might be a good thing if the larger schools "gave in" gracefully, but it will be hard to convince them why they should. There isn't any real reason as we can see except to keep peace in the big I. H. S. A. A. conference.

The question probably will be put to a vote of the new legislative body some time and then there is no doubt but that the practice will be stopped. The small outnumber the big schools.

An Indianapolis school sent players to Camp Crosey on Lake Webster late this summer for a ten-day period. Shortridge gridder worked out there along with Muncie, Wabash, Noblesville and Goshen. Individual players from other schools were on hand.

The camp was in charge of the Muncie Y. M. C. A. and Director Pettijohn secured some college coaches to instruct the boys. Emerson of Gary went to a camp in Wisconsin.

Looking at the question from the standpoint of some of the coaches concerned, the early training looks like a step forward. This State is singularly backward in the grid sport.

Jack Gilroy, director of physical training in the Gary schools, was quoted as saying in reply to Trestler that high school football would take its rightful place among scholastic sports when football coaches and not basketball coaches handle the grid teams. That's what you call a hot shot that hits the mark in many instances.

It seems a shame to curtail any high school grid activity in Indiana, yet it is one to do Trestler's place? What would you do in the same situation? With more than 700 schools in the State (we do not know how many play football) some seven or eight take advantage of pre-season training. Can you imagine how the others holler?

It all depends on what team you are rooting for just now. You look at the Wednesday postponement in the world series. We doubt very much whether Aldridge would have pitched Wednesday for Pittsburgh.

There is no doubt but that Johnson benefited by the day's rest. It is equally certain that Pittsburgh was helped very much by the downpour. Aldridge was almost certain to go today. He needed that day's rest more than Walter. Today the clubs meet on an even basis again.

ACROSS THE BOARD TODAY:

8:40 going strong. On Wednesday, out of five selections we had three winners, one second and one third. Lord Melie in the first at Latonia paid 8½ to 1. Goldfield and Little Victor were the other winners. Rocky was second and Florence Mills third. The bank roll today is \$248.95.

More mud today at Latonia. There doesn't seem to be much doubt that that part of it because it rained again Wednesday at the Kentucky track.

The selections today will be ETHEL K in the first at Latonia, \$2 win, place and show; ESCARPOLETTE in the third, \$5 win and place; COLONEL WAGNER in the fourth, \$5 win JACK RIEGER in the sixth, \$5 win and place; JOHN PINN in the seventh, \$5 across.

We are passing up Macbeth in the last although he looks like a logical winner. He put us back \$100 one day when we plumped on him. He's liable to cost us again, but we refuse to play him. "Out damned horse, out of the money," as Shakespeare would say.

Indianapolis is to have a chance to "see" many of the big football struggles this fall on the grid-graph at Tomlinson Hall. Notre Dame battles predominate. The schedule is as follows: Oct. 17, Notre Dame vs. Army; Oct. 24, Notre Dame vs. Minnesota; Oct. 31, Notre Dame vs. Georgia Tech; Nov. 7 (3 p. m.) Butler vs. Minnesota; Nov. 14, Ohio vs. Michigan; Nov. 21, Butler vs. Centenary; Nov. 28, Notre Dame vs. Nebraska; Nov. 28, Army vs. Navy.

Mrs. Malaprop said this morning she was sorry to hear Walter Johnson had a "charley horse"; that such an infamous character ought to have enough money to buy an auto. Somebody is very ungrateful, she exclaimed, to keep such a man in want after he had enriched the coffins of the club by his fine efforts.

The heavens in Pittsburgh are shedding tears for the Senators or the Pirates or the home boys? Why not for the opposing club.

ARMY GRIDDERS REPORTED IN SPLENDID SHAPE FOR N. D. TILT

Another Bout Is Carded

Billy Cecil and Joe Scully Matched—Monday Card Interests Fans.

Billy Cecil, one of Louisville's many ready mixers in the glove game, today was matched to battle Joe Scully, Chicago, in one of the round bouts on the Capital City A. C. fight program at Tomlinson Hall Monday night. It is the fourth scrap arranged by Promoter Goldstein.

On Wednesday night articles were signed which will bring together Babe Ruth, Louisville, and Reamer Roberts, Indianapolis, in a six-rounder that promises wild action for the fans. Ruth recently knocked out Brett Waggoner, Petersburg coal miner who "went big" here last Monday in defeating Frankie Smith.

This Ruth person is a game lad and he won over Waggoner by beating the Indiana youth to the punch. The two "heavy" matches on the Monday card have caused local ring fans to perk up. The Schaefer brothers of Chicago, known all over the country, are to appear. Frankie will battle Sidney Glick, Indianapolis, ten rounds and Herbie will tangle with Jackie Dugan, Louisville, over the same distance. The show will be at popular prices.

Sidney Glick is getting plenty of coaching at the Arcade gym as he tunes up for his big test with Frankie Schaefer. Meeting a boxer of Schaefer's caliber is new experience for Glick and he is going to make a tremendous effort to stand the "gaff."

The question probably will be put to a vote of the new legislative body some time and then there is no doubt but that the practice will be stopped. The small outnumber the big schools.

'Oil' Smith—An Interview

By WESTBROOK PEGLER

PITTSBURGH, Oct. 15.—Earl (Oil) Smith, mainstay Pirate catcher, is a blonde Arkansaswar with a jaw that juts out like a cowcatcher. His low-voiced homilies are filtered through a large poutlike of sucking tobacco and the athletes call him Loose Lip for reasons that can't be explained if they aren't obvious.

Believing that the best way to find out what Mr. Smith had been saying to the Washington ball players as he squatted under the plate of their arduous was to ask Mr. Smith, this correspondent did so Wednesday afternoon, as the rain rained and the crowd grew soggy waiting for the umpires to learn that it was raining. "Why I have just been sociable with the Washington boys," Mr. Smith said. "If they seem a little nervous I try to encourage them. I might say, 'well, so you're one of the guys that won the world series last year. Well, get your foot out of that water bucket and get up there. You can't do your hitting from third base, you know. But watch out for this because it's straight at your cap button. Hit it!'"

"A catcher can't really do any work on a hitter in a world series, you know," he said. "If you start talking dirty at them, the umpires toss you around."

But, Mr. Smith said, all his pleasanties have been good, clean fun. "A catcher can't really do any work on a hitter in a world series, you know," he said. "If you start talking dirty at them, the umpires toss you around."

But, Mr. Smith said, all his pleasanties have been good, clean fun. "A catcher can't really do any work on a hitter in a world series, you know," he said. "If you start talking dirty at them, the umpires toss you around."
