

LETTER UPON DRIVING PAST CARS WRITTEN

Mr. Fixit Gets Complaint on
Practice of Many
Motorists.

Do You Know?

There's an ordinance recently adopted prohibiting crying of wares on the streets and sidewalks.

Let Mr. Fixit help you obtain needed improvements. He is The Times representative at the city hall. Write him at The Times.

It may be the snappy weather. At any rate, Mr. Fixit received information from a correspondent today that motorists are speeding past halted street cars.

Ford Runs 57 Miles on Gallon of "Gas"

A new automatic and self-regulating device has been invented by John A. Stransky, K-567 Stransky Building, Pukwana, South Dakota, with which automobiles have made from 35 to 57 miles on a gallon of gasoline. It removes carbon and reduces spark plug trouble and overheating. It can be installed by anyone in five minutes. Mr. Stransky wants distributors and is willing to send a sample at his own risk. Write him today.—Advertisement.

passing a street car after it stops. I ride the E. Washington St. car clear to Irvington and I have noticed it night after night. A lot of people who get off cars seem afraid to do so half of the time. I think if you were to ask any passenger they could tell you about the same thing I'm telling. I had to jump back against the street car Monday evening to keep from getting struck by an automobile.

Another thing, the street at Arlington Ave. and Pleasant Run Blvd. needs a dirt filling very badly. There are large chuckholes and an automobile sounds as if it were going over pieces when it hits this spot.

TIMES READER.
Mr. Fixit also has leaped for life and sympathizes with your grievance. Lieutenant Thomas has promised a police investigation of this practice and Indianapolis Street Railway conductors and motormen also will cooperate in punishing these reckless persons.

The park board has agreed to investigate the complaint of the mountains and valleys in the street.

DEAR MR. FIXIT: For over three years residents on Berwyn St. have been trying to get street lights. Three petitions have been presented to the board of works.

In the parts of the city where they have the new lights, people can read the evening papers on the street. We have two places to cross where they have put sewers in. This is the third time your attention has been called to these lights. So far we the residents of Berwyn St. and Times readers think you are very poor, Mr. Fixit.

TAXPAYERS OF BERWYN ST.
Mr. Fixit explained the difficulty of inducing action from the board of works in Wednesday's column. If there's anything he could do, it would be done. There are 400 petitions for electric lights on file in the city engineer's office.

It's a stone wall.
DEAR MR. FIXIT: I haven't seen any fire alarm box at Meridian and Christian St. yet.

L. G. SMITHEN.
This situation has been taken care of by the board of safety. John Berry, board of safety electrical engineer told Mr. Fixit the box will be installed soon.
