

**LIGHT TURNED
AROUND, SAYS
FIXIT WRITER**

No illumination on Street,
According to
Letter.

Let Mr. Fixit help you present your
case to city officials. He is The Times
representative at the city hall. Write
him at The Times.

Men about town have searched
for the man who turns off the bright
lights, but a correspondent of Mr.
Fixit wants to know who turned
around the light at Pleasant Run
Blvd. and Randolph St.

DEAR MR. FIXIT: While moving
houses to vacate for Pleasant
Run Blvd., they turned the street
light around so that the light doesn't
show on Randolph St. at all. There
are no sidewalks south of Orange St.
and it is very muddy.

JOSEPH M'MANNIS,

1315 E. Tabor St.

That's what might be termed
dirty work at the cross roads.
James H. Hensley, engineer of
street lighting, will investigate.

DEAR MR. FIXIT: I am writing
in regard to the crossing at Tenth
and Bellefontaine Sts.

It is a very dangerous crossing
and much more so now as they have
a vegetable stand in the front yard.
A large canvas covering makes it
impossible to see west from the
north. TIMES READER.

Sergt. Edward F. Moore of the
police accident prevention bureau
has promised Mr. Fixit to take a
look at the condition.

DEAR MR. FIXIT: At the north-
west corner of Meridian and New
York Sts., they placed the timer for
the automatic signal on red pedestal,
the kind they place fire alarm boxes
in the downtown district.

From a distance it looks as if a
fire alarm was on that corner, but
there isn't any. If a fire would break
out near there some one would go
to that corner thinking the timer
was a fire box. The nearest box
is two blocks away, at Meridian and
Vermont Sts.

E. J.

John Berry, board of safety elec-
trical engineer, will investigate.

DEAR MR. FIXIT: We have lived
at 4724 E. Tenth St. just a month.
When we moved out there we found
the garbage man was to come on
Wednesdays and Saturdays and the
trash man on Tuesdays of each
week. The garbage man takes our
garbage on Wednesdays, but deliberately
drives past without taking it
up on Saturdays.

MR. AND MRS. E. A. BUTLER,

4724 E. Tenth St.

Your complaint has been re-
ferred to the board of sanitary
commissioners.

Capt. Fred Drinkut, who has
helped Mr. Fixit solve many tough
problems, comes across with a
tinklish one of his own.

DEAR MR. FIXIT: The condition
of Tibbs Ave., from Washington

to Michigan St. is terrible. It's full
of holes and dangerous to cars. I
understand the State owns most of
the land abutting the street. Also,
there is a bad hole where the street
car company has failed to fill tracks
at E. Michigan St. and Bosart Ave.

FRED DRINKUT

The board of works will tackle
this problem of Tibbs Ave., Mr.
Fixit was informed. Orders al-
ready have been issued to the
Indianapolis Street Railway Com-
pany by the board to repair the
hole at Bosart Ave.

DEAR MR. FIXIT: I would like
to call your attention to the con-
dition of the alley between Tabor
and Kelley St. from 1337 E. Tabor
to Linden St. The mud is very
deep and there are large holes. A
few loads of cinders would do a lot
of good.

TAXPAYER,

1315 E. Tabor St.

Frank Reid, inspector of the
street commissioner's department,
will head his flivver out your way.

he promised Mr. Fixit.

DEAR MR. FIXIT: I was out-of-
town at the primary election and for-
got to register. Have I any chance
to vote?

CITIZEN,

1315 E. Randolph St.

That's what might be termed
dirty work at the cross roads.

James H. Hensley, engineer of
street lighting, will investigate.
