

## ALLEYS ARE IN BAD CONDITION, MR. FIXIT TOLD

Street Commissioner's Office Promises to Make Tour of Inspection.

### Do You Know?

The street commissioner's department has begun reductions in its force of workmen because of a depleted treasury.

Let Mr. Fixit present your case to city officials. He is the Times representative at the city hall. Write him at The Times.

The mountains and valleys one finds in Indianapolis alleys are the theme of most complaints in Mr. Fixit's mail today.

W. P. Hargon, clerk of the street commissioner's office, who has returned to the job after a vacation tour, has promised investigations soon of the following complaints:

DEAR MR. FIXIT: Would consider it a very great favor if you can arrange to have the first alley east of Napoleon St. just south of Southern Ave. filled with cinders or gravel. It is impassible. Also repair hole in Napoleon St. at number 2629.

W. A. METZLER.

DEAR MR. FIXIT: The first alley north of Eleventh St. running west off Warman Ave. is in very bad shape. Water stands in the ruts and deep for a square. Some cinders would help this alley wonderfully.

JACOB L. MCCLURE.

DEAR MR. FIXIT: Bertha St., between Harris St. on Hancock Ave., is almost impassible now, but when it freezes or thaws it is impossible to get through with a car. When it rains water stands on the sidewalks in places two or three inches deep.

ELMER WINKLER.

DEAR MR. FIXIT: We have a lot next door to us on Carrollton Ave., north of Forty-Eighth St., which is a detriment to our home. This lot has berry bushes and weeds galore, and the briars are growing over on our lawn. The city would be an impossibility to have even a decent looking lawn with berry bushes growing on it.

MRS. W. G. CASSLER.

The board of health will investigate at once.

### BUILDING LOCATION SET

Construction will begin soon on the new \$90,000 women's dormitory at Indiana Central College, University Heights. It was announced today by

Even his  
Mother-in-law  
wouldn't tell him

HARD to believe, maybe, but here was an actual case where even his mother-in-law wouldn't speak to him about a certain thing.

Both mother-in-law and wife were aware of it. Yet both remained silent.

Frankness on this subject might have benefited him greatly. Still they didn't know what to do about it.

You, yourself, rarely know when you have halitosis (unpleasant breath). That's the insidious thing about it. And even your closest friends won't tell you.

Sometimes, of course, halitosis comes from some deep-seated organic disorder that requires professional advice. But usually—and fortunately—halitosis is only a local condition that yields to the regular use of Listerine as a mouth wash and gargle. It is an interesting thing that this well-known antiseptic that has been in use for years for surgical dressings, possesses these unusual properties as a breath deodorant. It puts you on the safe and polite side.

Listerine halts food fermentation in the mouth and leaves the breath sweet, fresh and clean. Not by substituting some other odor but by really removing the old one. The Listerine odor itself quickly disappears.

This safe and long-trusted antiseptic has dozens of different uses; note the little circular that comes with every bottle. Your druggist sells Listerine in the original brown package only—never in bulk. There are four sizes: 14 ounce, 7 ounce, 3 ounce and 1 1/4 ounce. Buy the large size for economy.—Lambert Pharmaceutical Company, Saint Louis, U.S.A.

A CHALLENGE

We'll make a little wager with you that if you try one tube of Listerine Tooth Paste, you'll come back for more.
