

COMPLAINT ON CUT IN STREET MADE TO FIXIT

City Official Promises to See That Damage Is Repaired.

Do You Know? Gradual reduction in the force of city employees is in progress.

Let Mr. Fixit help present your case to city officials. He is the Times representative at the city hall. Write him at the Times.

The Merchants' Heat and Light Company is in no great haste to repair streets' workmen have damaged in installing the new lights, a letter that Mr. Fixit received to day declares.

DEAR MR. FIXIT: At the first alley north of Sixteenth St. on Delaware St., about six weeks ago the Merchants' Heat and Light Company cut the pavement to make connection for their new street lights.

The blocks of asphalt are being forced from the cut by the heavy traffic.

What length of time must elapse before this cut is properly repaired on this most important street?

D. T. DOYLE, Harry Stevens, assistant superintendent of improved streets, promised Mr. Fixit to see that the company repairs the damage.

DEAR MR. FIXIT: Three weeks ago we were up to the city hall and made a request that the sewers be cleaned and a catch basin be placed at Meridian and Arizona Sts. At this point the water comes up over the curbing. Relief was promised us, but so far no action has been taken. Can you help us?

MRS. SAMUEL DAVIS, Chairman Civic Committee Garfield Civic League.

William Schoenroeg, who has charge of sewer repairs in the street commissioner's office, said he regrets the delay, but believes you must have gone to the wrong office. He will repair the sewer at once.

Schoenroeg also will send an inspector in answer to the following complaint:

DEAR MR. FIXIT: On the west side of St. Paul St., between Woodlawn Ave. and Pleasant St., at the alley entrance and where the sidewalk crosses, it's impossible to cross. Loaded automobiles get stalled quite often.

Your subscriber from its infancy. E. S. ALMAFIELD, 2221 Pleasant St.

DEAR MR. FIXIT: At New Jersey and Pearl Sts., a fire alarm should be placed. The nearest alarm is two blocks away. Try and see if you can get them to place one there. They just had a big fire over here that burned several days. The Monon freight house is on Pearl St., another building that would make a big fire. Take this up with Fire Chief O'Brien.

A BUSINESS MAN There's no real need for a box. You have one only a block away, at East and Washington Sts. Besides, you have telephones available during the day.

DEAR MR. FIXIT: In the 2700 block on Stuart St. they came out and put three loads of cinders on our street and quit. Would like to know if we could get some more, or when it rains cinders can't get over it.

A TIMES READER. The supply of cinders is so low that you are really rather fortunate in obtaining the three loads, Mr. Fixit learned today.

REHEARING IS ASKED Attorneys Charge Bus Argument Not Heard.

An attempt will be made to get an argument before the public services commission for a rehearing on the petition of the Peoples' Motor Coach Company to establish a bus route from the center of the city to Guilford Ave. and Forty-Ninth St., bus company attorneys said today.

The commission denied a petition for rehearing Friday and granted the Indianapolis Street Railway Company permission to establish a feeder line for the Forty-Sixth St.-College Ave. route. According to coach company attorneys the rehearing was refused without granting permission to argue its case.

A score card to be used to determine the educational advancement of the county school system or the individual school in order that deficiencies may be corrected was adopted by the State board of education at a meeting late Friday.

Under the grading, a county with all schools each scoring 1,000 points, would be a perfect score.

Requirements for points include religious attendance in churches and Sunday schools by pupils, an American flag on the school house flag pole and artistically arranged shrubs in the school yard.

BLIND TIGERS SET FOR MONDAY

Friday Cases Postponed by Judge Collins.

Nine blind tiger cases set for trial in Criminal Court Friday afternoon were passed until Monday morning, when Judge James A. Collins will hear arguments on what rights an officer has under a search warrant. Judge Collins passed the cases after defense attorneys filed motions to vacate the affidavit for the search warrant and its return and to suppress the evidence.

John Ruckelshaus, Jr., special attorney general, will argue for the State and Henry H. Winkler for the defense. Ruckelshaus will uphold the recent ruling of Arthur L. Gilman, attorney general, who declared a search warrant is valid in any township in the county, regardless of whether it was issued by a justice of peace or city judge. Ruckelshaus also is expected to contend that an officer has right to make an arrest after searching a home.

Winkler will contend that a search warrant is only valid in the township in which it is issued, if issued by a justice of peace.

ROADS OPPOSE MERGER BY LAW

Voluntary Consolidation Is Favored.

CHICAGO, Oct. 24.—Efforts of Congress to force consolidation of railroads into a few large systems will meet with opposition from the railroad companies according to some of the carriers who are meeting here as a committee of the Railroad Executives' Association.

The railroads are not opposed to the general plan of effecting mergers, the executives said, but they feel that congress should not attempt to legislate the combines. They prefer rather to effect their own consolidations as business conditions will permit.
