Hair Beauty

Thick, Gleamy Hair—Full of Life

The constant curling and waving demanded by modern style in hair dress, slowly burns the color, lustre and very life from the hair, leaving it dry, faded, brittle, streaked with gray, and the hair roots shrink and the hair falls out fast.

A 35-cent bottle of refreshing, fragrant "Danderine" will do wonders for any girl's hair. This vitalizing beauty-cream acts on the hair like fresh showers of rain and sunshine act on vegetation. It goes right to the roots, invigorates, nourishes and strengthens them, helping the hair to grow thick, healthy and luxuriant.

Try this for one week! While combing and dressing your hair, moisten your hair brush with a little "Danderine" and brush it through your hair—the effect is startling! Your hair immediately takes on new life and that healthy, youthful lustre, becomes incomparably soft, wavy and appears twice as thick and abundant.—Advertisement.

his father. I finally had to have my husband tell Mrs. Prescott that she could not stay here if she did not stop it. Of course, she was awfully hurt and insulted and after she had given me a terrible tongue-lashing, she resorted to her usual tactics of kicking out of the room like a tragic queen.

I wonder, Little Marquise, if after I grow old I will think that mere years give me a superiority over all young people. I am sure that Jack's mother has never had the experience in life that I have and yet she will not for one moment give me the benefit of a doubt when it comes to something to be decided between her judgment and mine.

Only to you, Little Marquise, will I make the terrible confession that I wish John were an orphan. You know that he and I have had so many little disagreements and now too bad to have an old woman like his mother make us all this trouble. I expect, however, that all mortals have to have something to worry them on this earth. If not, they would be too happy and never reach for heaven.

which means to millions New health—new vim

Medical science has made a new discovery which nearly everybody needs. Physicians are prescribing it to millions. The results it brings are regarded among the marvels of modern medicine.

It is a liver gland secretion which really stimulates the liver. We used to think cathartics did that, but modern science proves they don't. They merely irritate the intestines. The only way to really stir the liver is the new way, stirring it with bile. That does more than flood and clear the bowels. It corrects bowel indigestion due to lack of bile.

But bile, above all, is nature's antiseptic. It combats intestinal germs. They breed by millions when the bile is scant. And they feed the blood a constant load of poisons.

Most people suffer from those poisons, suffer in a large way. So this new discovery is bringing tremendous help in countless ill conditions.

This liver secretion is embodied in tablets called Dioxol. Each tablet represents ten drops, purified and concentrated. Send the coupon for some samples and our book. Learn how much Dioxol means to you and yours. Note how quick its results, how far-reaching. You owe that to yourself. Clip coupon now.

APPETITE REGAINED

SKIN CLEARED UP

The usefulness of Thedford's Black-Draught has long been known by Mrs. A. B. Leach, of Yale, Okla., who says that she has been using this well known vegetable liver medicine for 28 years.

"I was in very poor health," says Mrs. Leach, telling of her condition at the time she first began to take Thedford's Black-Draught.

"I would eat, but it didn't seem to satisfy or do me any good. I was bloated, felt oppression at the stomach. The fullness in the right side was awful."

"I did not feel like doing a thing. Eating even made me tired. I sat around, feeling so miserable. One day I looked in the glass and my complexion scared me—no color in my face. My ears looked wax; skin flabby, pale. I was in a bad fix."

"I had been taking medicine, as I was told that it was inactivity of my liver that was causing this trouble. About this time—nothing having done me any good—I began to look for relief."

"I read of Thedford's Black-Draught, and my husband went to the druggist for it. I began its use, and myself how I began to improve. My appetite became more normal. Gradually the bloating disappeared and my skin cleared up. I began to see marked improvement and, from then till now, I have praised Black-Draught as the best liver medicine made."

"I keep Black-Draught in the house and have used it ever since. I regard Black-Draught as my family medicine and expect to keep it for years to come."

Thedford's Black-Draught is made from selected medicinal roots and herbs and contains no dangerous or harmful mineral drugs. It has been in use for 80 years and has been found to relieve constipation, indigestion and biliousness, when due to a torpid liver.

A NUMBER OF CHARMS MAKE UP PERSONALITY

What is woman's greatest asset? Is it refinement, education, culture? Is it wittiness, prettiness, whimsicality? They should go like handmaidens to attend a woman's personality, and give her that composite thing, womanliness.

Martha Lee Says

The refined, cultured quiet woman can not understand why the flaming, naughty, pretty saucy child of fortune can capture the finest men. And the naughty, flaunting, pretty child of fortune depending on her prettiness, for conquest, can not understand why she can not hold the love of such men after she has won it. The answer is simple. Neither has tried to combine in her personality those attributes which constitute true womanliness. The one is like an unworned, dark, deep, quiet river.

The other is like a bed of riotous flowers, beneath which is a shallow stagnant pool.

The Dark, Deep River

Mrs. Martha Lee is an educated, refined and intelligent girl of 18, and yet it seems to me I don't know nearly as much about her as I do about the beautiful, flaming, naughty, pretty saucy child of fortune. Why is it that some girls can see terrible toward a fellow, become her own mistress, and yet have him running after her and adoring her? I can't understand it. Although I am not popular, I have met and admired many girls who are just like Mrs. Martha Lee. I have met and admired many girls who are just like Mrs. Martha Lee. I have met and admired many girls who are just like Mrs. Martha Lee.

No, I don't think you are silly to want to be admired. It's a woman's instinct to want to be admired. She would be going against her own womanhood if she denied this. It is perfectly natural. The reason the men seem to prefer the brainless little creatures, is because it's an extra amount of exertion to entertain an intelligent woman, and most of the men of today either aren't equal to it, or are too tired to exert themselves to entertain a girl whose intellect is as keen or more so than their own. Moreover, the utter femininity of the pretty girl who adorns herself with prettiness is appealing to some types of men and they, the men, seem to be unable to distinguish the brass from the gold, although the letters I receive from them would bear out the impression that they want your type of girl.

You will have to learn to combine your refinement, education and culture with wittiness, prettiness and whimsicality, rolling these all into those intangible things called charm and personality.

NIGHT MAN TAKES CASH

The night man at the Sterling Cafeteria, Eleventh and Illinois Sts., left the place and took the contents of the cash register, amount not exactly known, according to Mrs. Rosalee McGinn, proprietress, who asked police to find and arrest him.

Mrs. Clara Hammersley, 125 Downey Ave., told police she dropped two \$5 bills on the floor of an E. Washington St. car and a man across the aisle picked them up and ran.

Police watched for a new poolroom to be started. Ed Sharpe, 745 N. Noble St., said one ivory and four bone balls was taken from a set of one of his pool tables.
