

TIMES TO GIVE POPULAR SONG NIGHT ON AIR

Three Groups of Artists to
Broadcast From Local
Station Friday.

SYNCOPTATORS TO PLAY

Bud Harris Will Sing Latest
Tunes.

Popular song night will be observed on The Indianapolis Times radio program, Friday night, over WFBI, Merchants Heat and Light Company, from The Times studio at the Severin.

There will be three groups of artists on this popular radio program, including the Universal Syncoptators, Miss Lois Lloyd and Miss May Warren, known to vaudeville as Lloyd and Warren and Bud Harris, singer, with Miss Dot Haltgreen, pianist.

This will be the first time that the Universal Syncoptators have appeared before The Times microphone. Mrs. Gertrude Buttz, pianist, connected with the music department of L. S. Ayres & Co., is conductor and manager.

Others to Play
Other syncoptators are Verle Smith, banjo; Carl Boyer, trumpet; Clarence Walden, trombone; Arthur Dorsey, saxophone; Charlie Spoons, clarinet and Claude Buttz, drums.

The Universal Syncoptators will play the following numbers: "Sleepy Time Gal," "Brown Eyes Why Are You Blue," "Prisoner's Song," "Bam Bam Bammy Shore," "Alone At Last," "Sometime," "Twilight Stars and You," "Might Blue" and "Because of You."

Lloyd & Warren, well-known in vaudeville, have arranged three fine novelty groups, including "Hello Everybody," "Kiss of Spring" and "Hate to be as Fat as You," a comedy song. This team comes highly recommended.

Harris to Sing
Bud Harris, representing the Wells Publishing Company, of St. Louis, Mo., and here singing at the new G. C. Murphy store, 41 N. Illinois St., will sing some of the latest sellers in songs. He will be accompanied by Miss Dot Haltgreen.

This team is well-known on the air. Harris will sing "Mammy," "Farewell," "Memories of Virginia," "Everybody Loves the Same Sweetie" and "A Musical Mixture," made up of melodies of well-known hits.

This program has been arranged with the idea of giving an all popular melody program.
A Baldwin Grand piano is used for all numbers.
So tune in over WFBI at 9 p. m., Friday.

What Broadcasters Are Doing

It is interesting to note that few absolutely novel ideas in radio broadcasting are making their appearance nowadays. Rather, the stations are going back over their earlier and more rapid development and doing the old programs in a more finished manner.

A novel method of presenting information of the life and manners of the animals at the National Zoological Park at Washington has been instituted at station WRC by Dr. Wm. M. Mann, superintendent of the Zoo Park. Through the medium of dialogue between himself and the youthful Hugh Clark, questions of particular interest to the younger generation are asked by the boy and answered by Dr. Mann.

Fans throughout the country will be glad to know that Howard Lanin, famous orchestra leader, and his musicians, are on the air again. They will be heard every Monday evening beginning at 10:40 from WLIT.

WIP will broadcast "Fedora" in tabloid form Sunday evening, Nov. 22 at 10:15. The opera "Fedora" was written by Umberto Giordano with the text by V. Sardou.

Three-minute messages from the Civil Service Department are broadcast every Thursday evening at 10 o'clock through the WJW broadcast station.

Novelty Numbers Are Planned

Miss May Warren (above) and Miss Lois Lloyd (below) of Lloyd & Warren will be on The Times radio program Friday. They will sing several new novelty numbers.

RELAYS ARE PRAISED

Benefits of Several Stations Linked
Are Cited by Listeners.
The benefits of several stations broadcasting the same program by remote control is evidenced by a letter to WCCO from B. F. Koperlik, Pueblo (Colo.) attorney. "Last Sunday night I had the pleasure of hearing Mrs. Louise Homer through your relay from WEAF. Whenever the static started to interfere with whichever station I was tuned in on, I would simply switch to one of the rebroadcasts, and thus got all the songs of Mrs. Homer with practically no interruption."

NOON CONCERT HEARD
An unusual record of long-distance reception at high noon was made by KYW when its early afternoon program was heard in Seattle, Wash., 2,000 miles away from Chicago. The program, which was sent from Chicago, was heard in Seattle at exactly noon.

LICENSES GIVEN TO FIVE NEW BROADCASTERS

Twenty-Eight Stations Also
Discontinued Last
Month, Report.

WASHINGTON, Nov. 12.—Licenses have been granted by the Department of Commerce to five new broadcasters, four for Class A and one for Class B stations. One station has also been transferred from Class A to B. The new stations follow:

Station	Location	Class	Power
WJZ	Houston, Texas	Class A	100
WJZ	Houston, Texas	Class A	100
WJZ	Houston, Texas	Class A	100
WJZ	Houston, Texas	Class A	100
WJZ	Houston, Texas	Class A	100

Twenty-eight Class A and two Class B stations were discontinued during October. They follow:

Station	Location	Class	Power
KOP	Hood River, Ore.	Class A	100
KOP	Hood River, Ore.	Class A	100
KOP	Hood River, Ore.	Class A	100
KOP	Hood River, Ore.	Class A	100
KOP	Hood River, Ore.	Class A	100

Here's Explanation of 2XAR

For several days Indianapolis fans have been receiving some wonderful radio programs from a station using the test call of 2XAR. Many listeners have called the Times about it. 2XAR is the test call of station WJZ of New York City and the station heard is the new super-power plant of WJZ located in New Jersey. This station has only recently been completed and is the most powerful in the United States. Its rating is 100,000 watts. Test programs have been going out of the New York studio of WJZ with 10,000 watts behind them.

Bud Harris Likes His Work

When a fellow likes to sing as well as Bud Harris does, it is safe to assume that he makes the world a happier place to live in. Harris will sing on The Times' radio program Friday night.

HOOVER MADE RADIO'S CZAR

Crown Crammed Upon Unwilling Secretary's Head.

By Times Special
WASHINGTON, Nov. 12.—For the first time in the history of American business, a huge industry has voluntarily given to one Government official complete control over its destiny.

The fourth national radio conference Wednesday crowned Secretary of Commerce Herbert Hoover its czar, and delegated to him unprecedented powers of regulation over a business which has an annual turnover amounting to many millions of dollars. Like Julius Caesar, Hoover thrice refused the kingly crown, but the radio industry, disregarding the classical precedent, finally crammed it over his head, deaf to all protests.

Hoover, at the opening of the conference, recommended to the radio representatives that they divide his powers with regional committees. The question was turned over to committees for discussion, and they forced upon him power and authority to regulate the industry in all things.

equipped with a good lightning arrester. In fact, the aerials acts as protection against lightning when properly installed.

ANXIOUS FANS WAIT AND WAIT

But Sets Arrive in Singapore Minus Tubes.

By NEA Service
SINGAPORE, Nov. 12.—The stage was all set to give a rousing wel-

come to a shipment of American radio sets. People had been waiting for days to slip the ear "muffs" over their heads and listen to radio programs. And then the shipment arrived! The long wait was over and soon radio programs would be heard by all. But alas! The sets arrived minus tubes—and no tubes were available in that part of the world. The next radio shipment will be thoroughly investigated before cheers are given.
