

## GRANDAD FINED 50 CENTS FOR WIFE-BEATING

Neighbors Unable to Solve  
Conundrum Despite  
Discussion.

VIENNA, Nov. 16.—Johann Wacorsky is a real life conundrum which his neighbors have been unable to solve despite much discussion and debate.

He is seventy years old, is a great-grandfather, is the father of a child only five months old, and is still a wife-beater.

According to his neighbors, a man who has reached the age of seventy and has had such ample opportunity to spank three generations of children, should have lost his interest in such pastimes as wife-beating.

His wife agrees with them, and, although she has aroused his wrath and beating proclivities by coming home drunk late one evening, she carried her bruises and her husband before a local magistrate. Wacorsky was fined the equivalent of fifty cents.

## Says New Method Heals Rupture

## Kansas City Doctor's Dis- covery Makes Truss or Operation Unnecessary

A new discovery which, experts agree, has no equal for healing effects in all rupture cases, is the latest accomplishment of Dr. Andrew Kaiser, the well-known Hernia Specialist of Kansas City, Missouri.

The extraordinary success of this new method proves that it holds and heals a rupture. It weighs only a few ounces. Has no hard gouging pads, no elastic belt, no leg straps, no cruel steel bands and is as comfortable as a light garment. It has enabled hundreds of persons to throw away trusses and declare their rupture absolutely healed. Many of these had serious double ruptures, from which they had suffered for years. It is Dr. Kaiser's ambition to have every ruptured person enjoy the quick relief, comfort and healing power of his discovery, and he will send it on free trial to any one who writes him. He wants one person in each neighborhood to whom he can refer. If you wish to be rid of rupture for good, without an operation, take advantage of the doctor's free offer. Write him today.

## CAR PARTS ARE IN BIG DEMAND

Capitol Auto Co. Offers In-  
ducements.

When the need for replacement of parts on trucks can be met for prices below cost, the average business manager is going to consider himself fortunate to know the place to do it. The Capitol Auto Parts Company, 821 N. Illinois St., actually offers such inducement to its customers.

At present they have a complete line of used parts from nearly every make of motor truck and are able, because of the great amount of business they are doing every day, to offer these used parts at remarkably low prices. Moreover, the owner of a discontinued make of motor truck is not in such bad straits after all, if he will be communicative with Capitol Auto Parts Co., for this company has a wide variety of parts from makes of trucks that are no longer being made, and it would be otherwise very difficult to repair.

Increased efficiency has been the endeavor of this concern from one year to the next and their customers are their best advertisers, they believe, for they allow no customer to leave without making every possible effort to supply his automobile needs.

## PATRONS FAVOR ADDED SERVICE

Roscoe Conkle Ready for  
Emergencies.

With an extra effort to serve his patrons Roscoe Conkle, funeral director, makes a feature of his ambulance service available at any time of day or night.

Emergencies of all sorts are made easier to handle with this service at hand and this establishment has made many friends through their willing rendering of this service. Doctors of Indianapolis make use of it at times when dependability and reliability are of greatest importance. The public may turn to this establishment with gratitude when a quick trip to the hospital is demanded and have greatest confidence in the service.

No better proof of their strenuous effort to serve the Indianapolis public can be given than a trial of this phase of a business whose beginning and end is service.

## DELICIOUS ICES COMPLETE MENU

Jessup and Antrim Com-  
pany Helps Hostess.

With some one else taking care of the dessert, the average hostess is able to prepare the loveliest of dinners or parties with practically no effort at all. And Jessup & Antrim Ice Cream Company, 713 N. Illinois St., invites Indianapolis hostesses to allow them to take over the responsibility of their desserts and refreshments.

The food value in ice cream desserts makes a vast difference in the menu, and with that as a substantial finish to the meal, one can easily handle the main dishes without even the assistance of a maid. Moreover, housewives say that it is easier to keep hired help if a little of the responsibility of cooking is removed from time to time in this way.

And so, as the great American festival, that day of all days, for big and little boys and girls, Thanksgiving day approaches, Jessup & Antrim are preparing themselves for an avalanche of business that comes inevitably. For no truly great celebration is complete without one of their delicious confections, whether it be an ice with the meal, a molded individual ice or ice cream for dessert or a heap of vanilla cream for the pie.

### STILL IN HOUSE EXPLODES

Police today are seeking the owner of a forty gallon still that exploded in a house at 230 Hoefgen St., late Saturday. Firemen discovered the still in operation and also fourteen fifty-gallon barrels of mash and thirty gallons of white mule. Officers said John Sucel occupied the house.

## GREGG RELIEVES CLEANING FEARS

Local Firm Prolongs Life of  
of Fabrics.

The first thought of the man or woman going away is what from his or her wardrobe can be made to do without buying entirely new. The second thought is what a great difference cleaning and pressing would make. And then comes the fear, fast becoming discredited, however, that cleaning might spoil the garments that are most depended upon and the result be a deplorable pickle.

Gregg and Sons have succeeded in putting the cleaning process on such a basis that it is rapidly becoming part of the lives of Indianapolis people just as washing their faces and hands has. They have shown us that cleaning is an essential phase in the prolonging of the life of the fabric and they have removed practically all risk from the process.

This old and established firm has made rapid strides in the last few years of its existence and has become what they term "the cleaners of Oriental rugs," with reliable branch houses in other cities of notable size. Their reputation of reliability with delicate fabrics has made this possible.
