

PLAN SURVEYS TO STOP LOSS IN INDUSTRIES

U. S. Chamber of Commerce
to Hold Parley in
Washington.

By United Press
WASHINGTON, Nov. 17.—Six surveys seeking to reveal the pitfalls and obstacles in commercial distribution resulting in the loss of hundreds of million dollars yearly to American industry will be discussed at a conference of 200 economists, editors and business men in Washington next month, under the auspices of the United States Chamber of Commerce.

These surveys will plot the labyrinth heretofore unmapped, between the manufacturer and the ultimate consumer. Sources of waste due to misunderstandings, variety of standards and lack of contact will be traced and their damage estimated. As an example of a single item, the United States Chamber of Commerce points out that unethical credit practices alone costs the American people between \$150,000,000 and \$400,000,000 annually. In 1914, the Chamber said, 20,500 commercial failures were reported, of which more than 40 per cent were tainted with fraud.

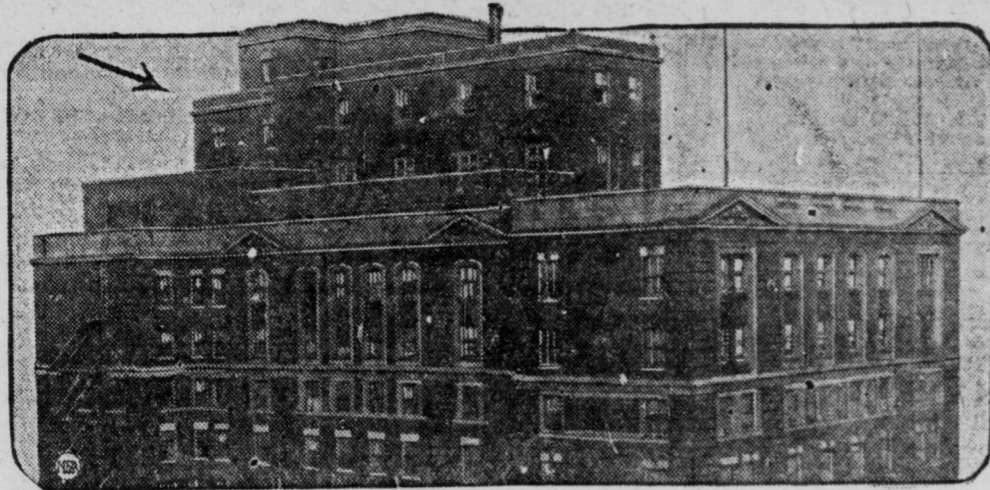

DETECTIVES ON ART MYSTERY

Da Vinci's Finger Prints Are
Scrutinized.

By Times Special
BERLIN, Nov. 17.—Modern detective methods have been resorted to in an effort to solve one of the world's greatest artistic mysteries. With the same finger print technique that is used to identify criminals, a group of Europe's foremost detectives will endeavor to establish the origin of one of the finest mural paintings of the Italian Renaissance.

Just as if he were a criminal and the Chapel of Ponte Capralesco, the scene of his crime, Leonard De Vinci's finger prints will be compared with the prints on the Mural of the "Lord's Supper" in the chapel there. Despite the centuries which have elapsed since his death, Leonardo's finger prints still are preserved on the famous mural of the "Lord's

White House That's 300 Feet High

CHAMPAGNE IS SERVED FREE

Dry Oasis in Chinese Cafe,
However.

By United Press
SHANGHAI, China, Nov. 17.—The thirsty in arid America should take note of Shanghai as a pleasant port of call, for they're giving away champagne in Shanghai now and it's guaranteed to be pre-war vintage. Rivalry among the various cafes here has recently become so strenuous that one cafe proprietor, as a means of attracting patronage, is advertising extensively "A Niagara of Free Champagne." Patrons of the cafe, on entering, are given numbered tickets, and drawings are conducted throughout the evening and night with a quart of champagne as the prize each time.

GERMANY GAINS IN POPULATION AND TERRITORY

Loss Suffered by War and
Versailles Treaty Is
Made Good.

By United Press
BERLIN, Nov. 17.—Germany appears to be well advanced on the road to making good the loss of population, if not of territory, suffered by the Versailles treaty.

Complete returns of the June census put Germany's total population at 63.3 millions. This represents a gain of 3.3 millions over the 1919 census when the population had dropped from 67.8, in 1914, to 60 millions.

War and blockade were responsible for 20 per cent of this shrinkage. The remainder was lost with the provinces ceded to France, Denmark, Poland and Czechoslovakia.

Despite these contributions to the toll of war and peace, Germany's present territory has already reached and surpassed its pre-war population. The birth rate, far below the death rate at the time of the armistice, has been rising steadily.

EDUCATION IS WORTH \$70,000

Cash Value of College
Course Estimated.

By United Press
BOSTON, Nov. 16.—The cash value of a college education is approximately \$70,000 according to a statistical survey conducted by Dean Everett W. Lord of the College of Business Administration at Boston University.

This was made in connection with an investigation into the earning capacity of undergraduates at the college.

Of forty-three graduates in 1924, who, as freshmen, were earning \$24 a week or less, thirteen had increased their salaries on the average of 68 per cent when they received their degree, according to Dean Lord's report.

Fifteen had doubled their earnings; seven had tripled them; five had quadrupled them; two had increased them five-fold, and one was earning six times his weekly salary as a freshman when 1924 brought him his degree.

UNEMPLOYMENT COSTS
LONDON—The government has just issued a report which gives some insight into the unemployment conditions in Britain since the war. The report shows that for unemployment benefits the government has spent 173,530,000 pounds, and 50,520,000 pounds on out-of-work donations.

HE REASONS THUSLY
LINCOLN, Neb.—If a dollar is worth but half as much today as it was seven years ago, why shouldn't a debtor be forced to pay more than 50 per cent of a debt contracted seven years ago? This is the question now before the Nebraska Supreme Court. The case grew out of a suit for the payment of a \$7,000 debt. The debtor says money is worth but half as much as it was when he borrowed, and that he should pay but half the debt.

BEAUTY

Gleamy, Thick, Wavy
Hair in a Moment

Girls! Try this! When combing and brushing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can dress your hair immediately and it will appear twice as thick and heavy, an abundance of gleamy, wavy hair, sparkling with life, incomparably soft, fresh, youthful.

Besides beautifying the hair, a 35-cent bottle of refreshing, fragrant "Danderine" from any drug or toilet counter will do wonders, particularly if the hair is dry, thin, brittle, faded or streaked with gray from constant curling and waving which burn the color, luster and very life from any woman's hair.

"Danderine" acts on the hair like fresh showers of rain and sunshine act on vegetation. It goes right to the roots, invigorates, nourishes and strengthens them, stopping falling hair and helping the hair to grow thick, healthy and luxuriant—advertising.

When it's Thanksgiving—and
the teams are drawn up for battle on the
gridiron—when the first touchdown goes
over and the grandstands rock with frenzy
—have a Camel!

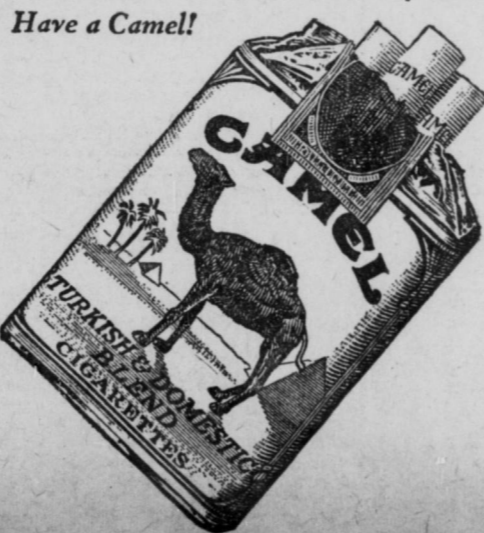

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and domestic tobaccos. The most skillful blenders. The most scientific package. No other cigarette made is like Camels. No finer cigarette can be made. Camels are the overwhelming choice of experienced smokers.

WHEN the college bands are playing to make your blood tingle. And the cheers and answering songs sweep back and forth between the opposing thousands of rooters. When, following that tense hush, a swift player darts out from the flashing formations on the gridiron and races across the goal for the first touchdown—oh, man, or superman, when the taste of joy is too keen to endure—have a Camel!

For Camel is the boon companion of your joys. Roam as far as you will from the prosaic things of every day, Camel will be the truest smoke friend you ever had. Not a tired taste, not a cigarette after-taste, not a regret in a million Camels! Just full and fragrant smoke contentment, just added zest in living.

So when your own college's team tears through for its first smashing goal this Thanksgiving Day—when life seems fullest of the frenzy of happiness—joyfully apply the fire and taste the smoke that's loved by millions.

Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.
