

ANITATION IN ALASKA POOR, REPORT SHOWS

Governor Deplores Conditions Existing in Yukon Basin.

By United Press
WASHINGTON, Dec. 7.—Sanitary conditions in some of the native villages in the Yukon drainage basin of Alaska are deplorable, according to the annual report of the Governor of Alaska, made public by the Interior Department today.

"It is estimated that there are about 4,000 natives and 2,000 white people in the region, exclusive of the Fairbanks district," the report stated.

"In this vast region facilities for medical aid and hospital treatment are inadequate or entirely lacking. Many of these people, so far as sanitation and hygiene are concerned, are not much better off than before the advent of the white man."

The report recommended provision of funds for a house boat to be equipped as a traveling hospital to be used on the river.

A general resumption of gold mining, both placer and lode, was noted in all districts, but exploration of numerous oil areas has failed to produce oil in commercial quantities, the report stated.

Values of fisheries increased about 4 per cent over the previous year. The chief expansion was in the herring industry. The salmon catch in the central district was 161 per cent greater than in 1923, but the catches in the western and southwestern districts showed decreases of 32 and 18 per cent. A census of the seal herds showed a substantial gain during the year, the report noted.

Puzzle a Day

Place in the above squares any numeral from 21 to 45. Each numeral should be used once only. When the numbers are correctly placed each column of five squares will total 165. This answer should be secured in eight different rows, 3 horizontal rows, 3 vertical and 2 diagonal.

Last puzzle answer:
Secretary of Agriculture Jardine rode 265 miles on horseback last month. One of his companions rode 192 miles and the other 169 miles. The total equals 626 miles. Mr. Jardine rode 73 miles more than the other and 96 miles more than the other.

Acid Stomach
"Phillips Milk of Magnesia"
Better than Soda

Hereafter, instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent bottles, any drugstore.—Advertisement.
