

TEMPLE WILL BE DEDICATED

Hebrew Custom to Be Observed for Eight Days.

The Feast of Lights, a colorful story of the Hebrews, will be observed for eight days beginning Saturday night. The dedication of Beth El Temple, Thirty-Fourth and Erie Sts., will be held at this time.

The custom originated approximately 2,000 years ago. It is a memorial for the victory of the Maccabees over their Syrian enemies. It consists of lighting a single candle in each of the windows of the temple on the first night and adding one candle each day for eight successive days.

Dedication of Beth El Temple will start Friday evening and will continue until Sunday night. The Rev. Frank S. C. Wicks and Rabbi Isaac Goodman will speak Friday at 7:30 p. m. The usual Saturday morning service is at 10:30 a. m. Sunday will be the principal feature of the dedication. Speakers include Governor Jackson, Rabbi Herbert S. Goldstein of New York, Rabbi Morris M. Feuerlicht and Rabbi A. S. Katz.

PARTY AT TABERNACLE

Shank Accepts Offer for Christmas Eve Celebration.

Following the offer of D. L. Speicher, head of the Cadle Tabernacle syndicate, to turn the hall to the city free of cost for the annual Christmas party, Mayor Shank today announced the celebration will be held Christmas eve.

Firemen now are collecting money and gifts for the poor children and Fire Chief John J. O'Brien said he will receive other contributions, or they may be sent to Joseph L. Hogue, city controller.

CHILDREN'S TEETH BAD, NURSES REPORT

Defective Molars Greatest Physical Handicap Among Pupils in Township Schools, County Told.

The greatest physical handicap among children in township schools is defective teeth, according to the monthly report submitted by two school nurses to the board of county commissioners. Of the 1,099 children inspected during November, it was revealed 532 pupils had bad teeth. It was further learned that ninety-eight children referred to the dentist at previous inspections had their teeth corrected.

Miss Hazel Holder, county nurse, who visited twenty schools last month and inspected 633 children, reported that eighty-three children needed tonsils and adenoids removed. Thirty-five youngsters had reported their tonsils removed.

It was also said seventy-two children were underweight, twenty-eight needed glasses and nine needed ar treatments. Miss Holder reported only five contagious diseases. Miss Alma Lancaster, county tuberculosis nurse, made forty-three home calls and thirty-four school calls. She reported two contagious diseases and 168 persons who took diphtheria cultures. Of the 339 school children weighed and measured, ninety-two were found underweight.

Miss Lancaster recommended that fourteen children have their tonsils and adenoids removed; seventy-five dental corrections and thirteen vision corrections.

Trustees elected were: Mrs. R. T. Cordrey, Mrs. F. L. Fiers and Mrs. Louis Doerchel.

HANG PICTURES LOWER

Pictures are being hung on a level with the eye. No longer need one crane his neck to see if a butterfly is a bird, or a rosy splootch in a painting is a blossom or a sofa pillow.

"Another one of those 5 cent tips!"

HE was a good-looking fellow and one of the best barbers in the shop. He did his best to be agreeable to customers yet he noticed that patrons often avoided his chair and many, many times his tip was so small that it seemed almost beggarly.

He was at a loss to understand why.

You, yourself, rarely know when you have halitosis (unpleasant breath). That's the insidious thing about it. And even your closest friends won't tell you. Sometimes, of course, halitosis comes from some deep-seated organic disorder

that requires professional advice. But usually—and fortunately—halitosis is only a local condition that yields to the regular use of Listerine as a mouth wash and gargle. It puts you on the safe and polite side. Moreover, in using Listerine to combat halitosis, you are quite sure to avoid sore throat and those more serious illnesses that start with throat infections.

Listerine halts food fermentation in the mouth and leaves the breath sweet, fresh and clean. Not by substituting some other odor but by really removing the old one. The Listerine odor itself quickly disappears.

This safe and long-trusted antiseptic has dozens of different uses; note the little circular that comes with every bottle. Your druggist sells Listerine in the original brown package only—never in bulk. There are four sizes: 14 ounce, 7 ounce, 3 ounce and 1 1/4 ounce. Buy the large size for economy.—Lambert
