## CHILD'S DEATH PUTS AUTO TOLL AT 66 FOR YEAR

Little Girl Is Thirteenth Juvenile Victim—Hit and Run Driver Sought.

Automobiles today had claimed their thirteenth child victim of the year.

Catherine Reed

Catherine Reed, 5, of 210 S. Oriental St., was fatally injured on Tuesday night when struck by an auto near her home, driven by Ethel McQuillen, 18, of 43 S. Oriental St.

Fifteen children were killed last year. In 1924 seventy-nine persons were killed. Unless December's toll exceeds the average, 1925's death list, now sixty-six, will be under that of last year, despite the fact that 20,000 more autos are using Indianapolis streets.

Police said Catherine ran from the curb behind a parked auto in front of McQuillen's auto. She died at St. Vincent's hospital. The driver was slain. The girl is survived by her parents, Mr. and Mrs. John L. Reed, and two sisters. Patrolman George L. Johnston is a grandfather.

Funeral services will be held from Holy Cross Catholic Church at 9 a. m. Friday. Burial in Holy Cross Cemetery.

Police also held one alleged "hit and run" driver and sought another. Tony Caruso, 27 S. East St., was hurt when a gravel truck struck his horse and wagon at Maryland and East Sts. The driver failed to stop. Caruso's horse ran away.

Thomas Black, 31, of Martinsville, Ind., was charged with being the driver of an auto that attacked Scott V. Smith, 1121 N. Capitol Ave., Nov. 15, following an auto crash at New York St. and Capitol Ave. Scott said the driver of the car that struck his machine, struck him, broke his leg and knocked out his teeth and then drove away without giving his name.

Helen King, 6, of 410 Empire St., received three broken fingers when she was struck by an auto driven by Earl Roberts, R. R. O. Box 246 B, at 634 S. West St. Roberts was slain.

## CITY'S CAPTURE NEAR

TOKIO, Dec. 9.—Telegraphic communication with Mukden has been shut off twenty-four hours and it is believed the capture of the city by Gen. Kuo Sung Ling, enemy of the Mukden leader, Chang Tso Lin, is imminent.

The Mukden war lord is reported to have fled to Kirin. Consuls at Mukden have officially requested the Japanese consul there to assume the task of protecting all foreigners.

## DEALER TELLS OF OIL-O-MATIC SUCCESS HERE

Now Possible to Have Heater Installed for \$50 Down.

"We have had phenomenal success with the Williams Oil-O-Matic heaters in the five years we have been selling them," said W. D. Long, dealer at 124 E. Ohio St. "Hundreds of these heaters now are in Indianapolis homes, and we have had no failures."

An interesting offer recently sent out by the Oil-O-Matic factory makes it possible to have this excellent heater installed for only \$50 down and the rest in convenient monthly payments.

"Why should any one wait another season, or even another day, to have this heater, with its unflinching warmth and cleanliness, in the home?" asked Long.

"Oil-O-Matic costs less than coal, and will give at least 20 per cent more heat," he continued, "which, as you see, is an actual saving of 30 per cent on the fuel bill."

Long was enthusiastic over an announcement from the New York brokers, Hornblower & Weeks, that within one day's time after the additional stock of the Williams Oil-O-Matic Heating Corporation was placed on the market, practically the whole issue—100,000 shares—was sold.

"Without borrowing, the company is now doing the largest business in its history, and has a working capital of over \$1,000,000," Long said.

## English-Type Home in Addition Attracts Favorable Attention

Home of J. M. Brooks

Nestled in among the trees of one of the beautiful lots of Forest Hill addition, the handsome, English-type home of J. M. Brooks, 5869 Guilford Ave., is attracting much favorable attention.

A brick chimney rises from the center, and the convenient garage,

part of the house, is at the left of the entrance. Stepping from the flag-stone terrace, through a door of bronze and leaded art glass, a cozy little hall is entered. Stairs and wrought iron railings are to the left, and an arched Gothic door, to the right.

The walls here, and throughout the house, are oil-painted Tiffany finish. The blended colors of the walls, with their predominant note of rose, are carried into the velvet hangings of an artistic living room, into the tapestry over the fire-place, and into the polychrome side lights.

## ENGINEERS GET BIG FOUR JOB

Mead-Balch Company Starts Work in Ohio.

While putting the finishing touches on the Kentucky Ave. bridge for the county, the Mead-Balch, construction engineers, have started work on a big job for the Big Four Railroad between Gretna and Morgan, Ohio. In this work, which involves the relocation of the Big Four tracks in a straight route instead of following the course of the river, several bridges will be erected over roadways in a distance of 12,000 yards. The largest of these bridges will be a seven-arch structure with five forty-foot arches fifty feet high for double tracks. The other bridges are small elevations over the roads.

They also are completing the work on the bridge for the State highway commission on the Bluff Rd., where it crosses the Illinois Central Railroad tracks. This will be completed next month.

On each side of the wide sink speak for household convenience. From the kitchen the heated garage is entered.

Above stairs, three bedrooms and a bath lead from a central hall. The master bedroom is especially attractive, being commodious and artistic, and with that entrancing view characteristic of every lot in this beautiful Forest Hill addition. Roofing on this home was furnished by Ralph R. Reeder & Sons and building hardware by Vonnegut Hardware Company.

Through an arched door the attractive dining room is entered. Here, the lighting fixtures of crystal are noticeable and the crystal glass of the fixture in the center is especially beautiful.

Breakfast Nook

An unusual little breakfast nook, with glass-front china cupboards flanked in-between leaded art glass windows, and with a French door to the outside, is striking with Chinese-red furniture, and red bordered draperies.

The kitchen is bright with its cream walls. Cupboards above and on each side of the wide sink speak for household convenience. From the kitchen the heated garage is entered.

Above stairs, three bedrooms and a bath lead from a central hall. The master bedroom is especially attractive, being commodious and artistic, and with that entrancing view characteristic of every lot in this beautiful Forest Hill addition. Roofing on this home was furnished by Ralph R. Reeder & Sons and building hardware by Vonnegut Hardware Company.

Ultimate Comfort Depends on Construction.

For a long time you have been planning that dream home for you and yours. You have considered the outside appearance—the style of architecture—the inside scheme of decoration. But have you given thought to the construction of the inner and outer walls? Upon this construction depends your ultimate happiness and living comfort.

Your home must have the qualities of strength and durability. It must have style—you are to live in it for a period of years; you will see it every day—and every day your neighbors and passersby will see it.

The outside appearance of your house indicates the manner of the man within. It indicates, as it were, his standing in the community. And surely an attractive and permanent exterior means an added asset in rent or sale value when occasion necessitates.

Living and dining-rooms can be more easily furnished without sacrificing any needed pieces of furniture, but thought should be given to the arrangement of doors and windows so that they do not cut up the wall spaces in such a manner that the rooms can not be attractively and comfortably furnished.

HOODED CHIMNEY PIECE

The hooded chimney piece is as droll as a gnome's cap and lends much to the interesting living room.

## LIGHT FIXTURES MANUFACTURED BY GOLDSTEINS

Large Shipments Now Are Being Sent to Florida.

Goldstein Brothers, as manufacturers of lighting fixtures, have acquired a national reputation. They are engaged at this time with large shipments for different parts of Florida. Many fixtures of beautiful and original design are to be used in Florida hotels and apartment houses.

Thoroughly equipped to carry out the most exacting designs, Goldstein Brothers are able to meet the demand of home builders who want "something different"—lighting fixtures that are original, and of specific beauty. They are manufacturers and practically every fixture which goes out under their name, has been wrought in their own shops.

There is a great demand nowadays that fixtures should correspond to the type of house in which they are placed. This lighting fixture department, the largest of any department store in the United States, especially proficient in meeting particular type designs. The wrought bronze and iron lamps of the Spanish home; the cut crystal chandeliers and mirror scones of the French; the soft-toned fixtures of the Italian design home or the early American lanterns of the dignified Colonial home—any and every detail, Goldstein Brothers reproduce with fidelity.
