

MURAT SINGERS TO FEATURE ON TIMES PROGRAM

Pacific Coast Even to Tune in on Chanters This Week.

OTHER HITS ARRANGED

Victor Herbert Ensemble to Be Heard Again.

Murat Temple Chanters will give Indianapolis Times radio listeners one of their greatest treats Friday night.

The program will be broadcast by the Times Friday night over WFBM, Merchants Heat and Light Company, from the studio at the Severin.

The Chanters number forty men. Under the direction of Bertrand A. Orr, the Chanters will sing two groups of songs. Palmer Laycock will be at the piano.

The Victor Herbert Ensemble, with E. E. Kerner directing, will give the finest arranged program that these players have ever put over the air.

Ensemble to Play

The Victor Herbert Ensemble will play the following program:

March—"The Air Line".....Low Smith
Overture—"Pett and Pettant".....Suppe
Waltz—"The Merry Widow".....Strauss
March—"The Merry Widow".....Strauss
March—"The Merry Widow".....Strauss

National Reputation

The Murat Chanters have a national reputation, so much so that several Pacific coast cities have wired asking the time that the Chanters will begin broadcasting.

Joel B. Byde is president of the Chanters.

Personnel of the Chanters:

First Tenors

Ralph W. Abbott, William Baker, William Balser, Irwin Esterline, George Henke, E. S. Larrison, A. J. Natho, Jack Rhoades, W. A. Robertson, Ray Thomas, Elmer Yocum.

Second Tenors

Edward Kappeller, Harry Peckman, E. W. Rasmus, Gaylord Rust, Edward Soltan, Charles R. Stuart, Frank Terwilliger, Clyde Wands, Arthur Wilson, Chester Zechel.

First Bass

John K. Bryan, Frank Cramer, Dal Galbraith, Avery Good, Roy Graham, John Hinesley, Glen Howe, Cliff Richter, Joel B. Ryde, Harry Wisland.

Second Bass

Charles Bohnstadt, Homer L. Cook, Dr. C. E. Cox, Louis Heinrich, Fred McNeely, Dr. Thomas Owen, Harry Richardson, Joseph Riebeling, Harry Smith, Otis D. Wooley, George Small.

Bertrand Orr and Dal Galbraith of the Chanters will each sing two solo groups with Palmer Laycock at the Baldwin Grand.

SEVEN PLANTS ON PROBATION

The following broadcasting stations have been granted temporary authority by Secretary Hoover, to broadcast, pending the consideration of their regular licenses. In the meantime, these stations are inspected, and logged for interference if any, which will be a vital factor in determining whether or not they will be regularly licensed.

None of these stations is actually new; all of them were built and ready to operate and had filed applications prior to the recent radio conference.

WJAX, Jacksonville, Fla., city of Jacksonville.

WBAL, Baltimore, Md., Consolidated Gas & E. Co.

KVOO, Bristow, Okla., Voice of Oklahoma, formerly KFOL.

KFOE, Ft. Worth, Tex., Searchlight Pub. Co.

KMMJ, Clay Center, Neb., M. M. Johnson Co.

WDAH, El Paso, Tex., Trinity Methodist Church.

KFXR, City Okla., Classen Film Finishing Co.

If Ruptured Try This Free

Apply It to Any Rupture, Old or Recent, Large or Small and You are on the Road That Has Convinced Thousands.

Sent Free to Prove This

Anyone ruptured, man or woman, should write at once to W. S. Rice, 94 E. Main St., Adams, N. Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then gone away with. Don't put it on for this free trial. Even if your rupture does bother you what is the use of wearing supports all your life? Why suffer this nuisance? Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the relief of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

Free for Rupture

SHORTAGE SEEN IN RADIO SETS FOR CHRISTMAS

Local Firms Report Business Threatens to Clean Out Supply.

Local radio dealers are predicting one of the largest Christmas businesses in the history of radio. Present indications point to a shortage of sets and equipment according to Walter Baker of the Brunswick Shop.

"We are unable to get enough sets to supply the present demand and when the rush comes as it generally does about two weeks before Christmas, we will be unable to supply them. During the month of November we have sold twice as many sets as we did during the same period last year," said Baker.

J. F. Connell of the Kruse-Connel Company said they have bought about three times as much radio merchandise for Christmas this year as they have in past years and if their present rate of business continues it will be almost impossible to supply the demand.

Tom Hatfield of the Hatfield Electric Company reports his firm sold a carload of one type of sets during November and have enough orders on file for this set to almost consume another car.

Needs Merchandise

Guy May, manager of the radio department of the Vonnegut Hardware Company said: "We don't need customers half as bad as we need merchandise. This is the first Christmas for us in the radio game and the demand for the sets that we distribute has far exceeded our

One of the greatest radio programs ever broadcast from Indianapolis will be given by the Murat Chanters, Friday night under auspices of The Indianapolis Times over WFBM, Merchants Heat and Light Company station, from the Severin, beginning at 9 p. m.

fondest expectations. It looks to me like a real radio Christmas."

Frank W. Wood, the W. New York St. radio dealer, said: "People are just beginning to realize that radio is stable and that there is not going to be any radical changes in sets for some time to come. I have predicted this for some time and feel reasonably sure that the sets purchased today will still be giving satisfactory service several years to come. We have no complaints to offer on business. It looks like every family in Indianapolis will soon have a radio set and I hope they do, regardless of where they buy it."

Walter Wilson of the Wilson-Stewart Music Company said: "We have centered our radio efforts on two lines this year, Radiolas and Atwater-Kent. But our greatest trouble has been in getting enough sets. During the past week we were fortunate in securing several shipments. People who wait until the last minute this year for radio are going to be disappointed."

Record Business

Gage Hoag of the Indianapolis Music House reported his firm has sold more sets during the past month than they did during the entire season last year, and if the present rate continues radio sets will be at a premium before Christmas.

The Sanborn Electric Company, local distributors for Kennedy Receivers, reports one of the greatest years they have ever experienced in radio sales, and at the present rate will more than double last year's business. This firm also reports a difficulty in securing enough merchandise.

Leonard Carlin of the Carlin Music Company states that his firm will more than triple their radio business this Christmas.

AIR STILL IS 'FULL' DESPITE 26 DELETIONS

Small Stations Quit Operating, but Bring Little or No Relief.

Twenty-six of the smaller broadcasters known as Class A stations, quit operating in November. Considering that no new stations were licensed recently some might think there was a now considerable opening in the ether, but, as all of these broadcasters were operating on low power and sharing wave lengths between 202 and 278 meters with other stations, the loss does not go far toward relieving the congestion in the broadcast band.

Had they been the higher-powered stations using the longer wave channels, considerable relief might have been noted. But there are about 180 potential broadcasters awaiting licenses, so this space would soon have been occupied by newcomers. provided, of course, there appeared good and sufficient reason for licensing them.

Some of the deleted stations listed below may be old friends to some fans, particularly the Detroit Police Station, which carried the significant call letters, KOP. However, most of them are known to only local and district listeners in the sixteen States represented in these broadcast vital statistics.

KOP—Detroit Police Dept., Detroit, Mich.
KPNV—L. A. Drake Battery and Radio Supply Shop, Santa Rosa, Cal.
KPRZ—The Electric Shop, Hartington, Neb.
WVRA—The Electric Shop, Highgate, Pa.
WVAR—First Christian Church, Butler, Mo.

Radio Accessories for Christmas

The Best for Less at the GUARANTEE

Hair Beauty

Thick, Gleamy Hair—Full of Life

The constant curling and waving demanded by modern style in hair dress, slowly burns the color, lustre and very life from the hair, leaving it dry, faded, brittle, streaked with gray; then the hair roots shrink and the hair falls out fast.

A 35-cent bottle of refreshing, fragrant "Danderine" will do wonders for any girl's hair. This vitalizing beauty- tonic acts on the hair like fresh showers of rain and sunshine act on vegetation. It goes right to the roots, invigorates, nourishes and strengthens them, helping the hair to grow thick, healthy and luxuriant.

Try this for one week! While combing and dressing your hair, moisten your brush with a little "Danderine" and brush it through your hair—the effect is startling! Your hair immediately takes on new life and that healthy, youthful lustre becomes incomparably soft, wavy and appears twice as thick and abundant.—Advertisement.

TRY A WANT AD IN THE TIMES

FADA Radio

Ask a Hearing on These Logical Grounds

You, of course, want to get all the enjoyment you possibly can from radio. We believe that in "FADA RADIO"—the "Standard of Reception," you will find just what you are looking for. And we want you to prove for yourself whether or not this is true.

How to Prove

We ask you to give "FADA RADIO" a thorough working trial in your own home—with no obligation to purchase. Then decide for yourself. And we offer FADA service that guarantees satisfaction during the entire period of ownership.

There is a FADA Radio model for every purse—all 5-tube Neutrodyne sets for dry cell or storage battery tubes, from \$85 to Art Cabinet models up to \$300.
