

Sour Stomach

"Phillips Milk of Magnesia"
Better than Soda

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians, because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Inset upon "Phillips" Twenty-five cent bottles, any drugstore.—Advertisement.

The World Rides in
Indiana Automobiles

THE first automobile in the world—known
as the "horseless carriage"—was made in
Indiana.

Since that first triumph—twenty-eight factories
have sprung up to make the mighty industry,
which ranks this state third in automobile production.

The annual output is valued at \$200,000,000
and nearly 100,000 people are employed in the
various factories.

Some of America's finest cars are manufactured
in this state and sold the world over. In addition
to the automobile factories there are many manufacturers of automobile accessories,
parts makers, body builders, etc.

Indiana, motor manufacturing ranks high in
the state's industries.

In possibly no other business is the telephone
called upon to play so important a part. We, who are responsible for the
service in this state, are deeply interested in
the development of Indiana's business
life and our ambition is to provide a telephone
service which will keep pace with the
progress of the state.
