

## SKETCHES WILL BE BROADCAST

Little Theatre Society to  
Entertain.

The players of the Little Theatre Society of Indiana will broadcast two short sketches Friday night on the weekly program over WFBM.

Merchants Heat and Light Company, from the studio at the Indianapolis Athletic Club, John B. Reynolds, president has announced.

"Pie and Pepper Bill," and "Grandma's Mistake," are the two sketches which will be given Friday. Mrs. Edith Duncan Pile will have charge of the program. The regular December performance of the Little Theatre also will be held Friday night at the Masonic Temple.

## RADIO BUREAU MAY GET MORE

Inspection Force Would Be  
Increased.

WASHINGTON, Dec. 17.—If the recommendation of the Bureau of the Budget is adopted by Congress, sufficient funds will be supplied for the Radio Bureau to increase its inspection field force. Such a step would result in improved service to the public through the elimination of interference.

Officials of the Budget Bureau refuse to disclose the amount they have

## Warm Fingers Fireman

George Jaeger

A fireman does not always have "hot" fingers, but George Jaeger of the Indianapolis Salvage Corps has them when he gets busy with a piano. Jaeger will be the piano soloist as well as the regular player for the Indianapolis Larks on the Times Jazz Night program over WFBM from the Severin Friday night.

recommended for the service. The opinion prevails, however, that the demands of the Radio Bureau received more consideration this year than at any previous time.

## NEW STATIONS MAY BE FEW

Radio Congress Says There  
Are Enough.

In view of the recently expressed opinion of the national radio conference that there are now enough stations on the active list, it is not believed that new applicants have much chance of getting licenses for some time to come, unless they are located in places not served by present broadcasters, and it is doubtful if any community in the country would admit that it couldn't get broadcasts from somewhere satisfactorily.

## RADIOGRAMS

There are more than 2,000 radio manufacturers in the United States.

Radio listeners in Sweden increased from 6,000 to 75,000 in the past year.

Joan of Arc has been adopted by radio fans in France as their patron saint.

It is estimated that Greater Berlin, Germany, has a radio audience of 1,125,500.

At the Vatican, in Rome, the Pope devotes a portion of his study periods to the reception of radio. He "listens in" to concerts broadcast from Rome and Milan, from Paris, London, Berlin and other European capitals.

The town council of Toulouse, France, has adopted the radio as a weapon in the war against the high cost of living. The city has decided

to establish a public market, open three hours each morning, and loud speakers placed in all the markets in the city will keep the public acquainted with the public market quotations, so that any overcharges may become evident.

## Come Here Tomorrow

Times have changed. Formerly Santa Claus brought toys which in the course of a few months were broken or worn out. Nowadays he brings a radio set which is a source of joy for many years.

Be up to the times. Treat your family to the greatest maker of harmony in the home—a radio set. It will meet the needs of all the family. Dancing, concerts, speeches—all are available.

## Select an Efficient Loud Speaker at Kruse-Connell's

### The Jewett Console Super-Speaker

As the result of two years' effort, you are today offered the Jewett Super-Speaker Console—the world-famous Super-speaker in cabinet form. Buy no drawing room speaker equipment until you have seen and heard the Super-Speaker Console. Just try it. Alone or in competition . . .

\$40.00

### The Super-Speaker

Made by Jewett

Handsome, substantial ebony base, with felt covered bottom. High compression throat prevents "empty barrel" noises, and confines product to purely reception sounds. Full 14-inch horn bell proportioned to yield volume without internal echoes. Entire instrument finished in black satin gloss . . .

\$30.00

### The Thorola Jr.

The Thorola Junior is a high grade loud speaker delivering results in tone and volume efficiency of superior quality. The Thorola Junior gives wonderful reproduction, with great efficiency. It is essentially a home instrument. The simplified unit in the Thorola Junior permits its being marketed at the remarkably low price of . . .

\$15.00

### The All-Wood Orchestron De Luxe

The Orchestron is different from any Loud Speaker you have ever heard. It is the invention of a violin maker, who himself became disatisfied with the musical sounds produced by other horns. The reasons for Orchestron performance are inherent in the unique construction. The Orchestron is made of laminated bent wood, not only for the graceful bell-like horn, but also the throat itself . . .
