Puzzle a Day

A frightened kitten in order to escape a pursuing dog, climbed twenty-five feet to a branch of a tree. It took the little thing two minutes to climb four feet. But she was so exhausted she stopped climbing for a minute. During that period she slipped back one foot. She repeated this process until she reached the branch and from this resting place watched her tormentor.

How long did it take the kitten to climb the tree?

Last puzzle answer:

Follow the dotted line and you will

discover the explorers' path to the hidden treasure room. Every other door leading to this underground maze led to a blind alley. But in spite of many false steps, the men were rewarded since the hidden treasure was far more valuable than they imagined.

PIONEER, 99, DIES
HAMMOND, Ind., Dec. 17.—Funeral services were being arranged for the greatest industrial districts in the world today for Mrs. Harriett Haines, 99, pioneer resident. She came here when the Calumet district was a swamp and saw it develop into one
