Mollie is the name of the champion Holstein cow in America. She is 5 years old and was declared the best cow out of 9,903,504 other Holstein cows. In 323 days she produced a five-figure number of pounds of milk. In this number the sum of the thousand units is one-third as large as the hundred unit and is one smaller than the sum of the other two units. The tens unit is the smallest number. All the figures total 16.

How many pounds of milk did Mollie produce?
