

FARM BANK PLANNED

Application Made for Charter to Organize Rural Aid.

Arthur V. Brown, Union Trust Company president, announced application has been made for a charter to organize a joint stock land bank.

Definite organization will be formed on approval of the Treasury Department's Federal banking commission, Brown said. All of the \$250,000 stock, which is the proposed capitalization, will be owned by the trust company and directors.

The new institution proposes to aid agriculture. Brown said there is a need for additional farming capital.

REMY TALKS TO BOYS

Prosecutor, at Dinner, Tells of Pool-room Dangers.

"Every boy who is sentenced to jail or the reformatory admits he was an idler, hanging around pool-rooms," declared Prosecutor William H. Remy at a dinner Tuesday night for 300 messengers and newsboys at the Y. M. C. A.

"No boy who works will find himself in Criminal Court," Remy said. J. J. Appel entertained the underprivileged boys for the fifth consecutive year. Mayor Shank also spoke.

BELIEVE MAN DROWNED

LOGANSPOUT, Ind., Dec. 23.—County authorities today were preparing to drag Eel River in the hope of finding the body of Capt. Oliver Crooks, who disappeared from the county poor farm six days ago.

Visitors from out of the city can easily find the way to White Cafeteria. It's "On the Circle."

Puzzle a Day

Under the guidance of Mussolini, Rome has been made as clean as a pin. Even in its poorer quarters it is hard to find any rubbish. The stray animals and insects are hard put to find food. So when a fly crawling up the middle line of the building surrounding this square courtyard, saw a partially eaten piece of bread in the center of the 80-foot yard, he flew 50 feet, straight down to the bread.

How far up the wall had the fly crawled when he saw the crust of bread?

Last puzzle answer: The champion Holstein cow "Mol."

He produced 12,904 pounds of milk in 322 days. The sum of this five-figure number equals 16. The sum of the thousand units (1 plus 2) 3 is 1-3 of the hundred unit 9. This sum 3 is also 1 less than sum of the other 3 units (0 plus 4) or 4. The tens unit 0 is the smallest number.
