

RUM RING MEN TO LEARN FATE ON WEDNESDAY

Baltzell to Pass Sentence on
Twenty-Five Recently
Convicted Here.

Twenty-five men, found guilty of conspiracy to substitute water for whisky in 800 barrels in the Jack Daniel distillery at St. Louis, will be sentenced by Federal Judge Robert C. Baltzell Wednesday.

The maximum penalty is two years sentence and \$10,000 fine, or both. Among the men who will face this penalty are Arnold J. Hellmich, former collector of internal revenue; Nathan Goldstein, business man and politician; and Michael J. Kinney, State Senator, all of St. Louis.

Two Women Freed

The two women in the case, Mrs. Imogene Remus and Mrs. Ada Gehrum, were released. Mrs. Remus, wife of George Remus, millionaire bootleg king, was dismissed during the trial in order that her husband could testify for the Government. Judge Baltzell held a husband may not testify against his wife.

Mrs. Gehrum, her husband, John, and August Walters, all of Cincinnati, were acquitted.

One Sentenced

John Marcus already has been sentenced to fifteen months in jail by Judge Baltzell. He is being held in the Marion County jail, and Toledo (Ohio) authorities have asked that the sentence against him here be dismissed in order that he can be brought to trial here on murder charges at Toledo.

Fred Esen, St. Louis politician, who was ill at the time of the trial, probably will have a separate trial in Federal Court in February. He was indicted on similar charges.

Lem Motlow, Tennessee distiller; Thomas Heffernan and H. L. Dahlman, associates of Motlow, who successfully resisted removal to the Indiana court for trial, will be brought to trial later, United States District Attorney Albert Ward predicted.

Four men indicted in case have not been apprehended.

"Hospital methods of treating liquor poisoning have improved remarkably during the last year," said one physician. "That accounts for the fact that many who are brought to hospitals are able to leave after a few hours. Physicians have had so much more experience recently that methods are becoming perfect."

Puzzle a Day

Important people and events make certain numbers memorable. We always think of Christopher Columbus, together with the discovery of America, and the year 1492. During the last few months the country at large has been associating football with "Red" Grange, and the number 77. Those two numerals are inscribed on his famous football sweater.

Let us now form another association with the number 77. Can you add a pair of sevens to these two sevens in such a way as to make a single unit?

Las puzzle answer:

11	25	20	18
22	16	13	23
17	19	26	12
24	14	15	21

In this magic square the numerals 11 to 26 are so placed that any row of 4 numbers or any square of 4 numbers will total 74. This makes 19 different ways to secure this total: 4 ways, across; 4 ways, down; 2 ways, diagonally; 1 way, four center squares; 4 ways, four corner groups of squares; 4 ways, four middle groups of squares (25, 20, 16, 19, 26, 14, 15; 22, 17, 16, 19; 13, 26, 12).

FARM INVENTORY URGED

Indiana Bankers Commend Plan, Purdue Expert Says.

Many Indiana bankers have commended the plan of Hoosier farmers to make inventories of their farm business as a foundation for increasing efficiency of their operations, according to Lynn Robertson, State leader of farm management demonstrations at Purdue University.

Robertson said the movement is an excellent one and should receive support of all banks interested in agriculture. Dec. 28 to Jan. 2 was designated as farm inventory week. The support of all agricultural forces in the State is being enlisted to get at least 50,000 farmers to make inventories during that week.
