

EINSTEIN IDEA IS SMASHED BY U. S. SCIENTIST

Speed of Solar System Revealed Ten Times as Fast as Previously Thought.

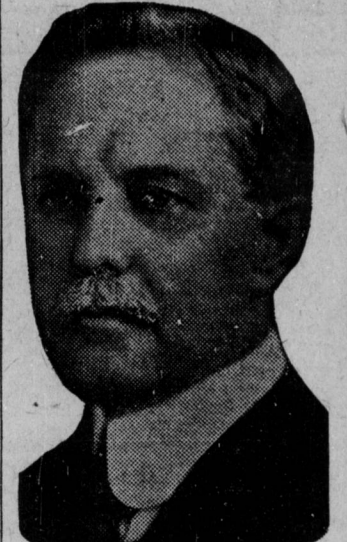

By David Dietz
Written for the United Press

KANSAS CITY, Mo., Dec. 29.—A blow that may prove fatal to the Einstein theory of relativity will be struck late today when Dr. Dayton C. Miller of Cleveland, president of the American Physical Society, reads a paper before the convention of the American Association for the advancement of science, detailing an experiment he has been carrying on atop Mt. Wilson, Cal., for the last six years.

In an exclusive interview Miller related the subjects of which he is going to announce, results which, in the opinion of scientists who have been following Miller's work closely, knock one of the chief foundations out from under the Einstein theory. Miller has been working to detect the motion of the earth and solar system through the ether of space. According to Einstein, it was impossible to detect any such motion. The whole theory of relativity rests largely upon this fact.

Not only has Miller succeeded in detecting this motion, which is technically known as the "ether

drift," but he has succeeded in measuring its direction and size, he says. Therefore, for the first time in the history of the world, it is possible to state how fast our solar system is moving through space and exactly in what direction. Previously it was only possible to measure

Dr. Dayton C. Miller

the speed and direction of our solar system with respect to the universe of stars. Furthermore, since Miller knows the absolute motion of the solar system, it will now be possible to locate shortly the motions of our entire universe in space. Miller finds that the speed of our solar system is ten times as great as it previously was thought. The sun, he finds, is moving through space with a speed of 130 miles a second. Our earth, of course, and all the other planets, are carried along at this same speed. Miller had originally fixed the speed at sixty-five miles per second, but last-minute calculations led him to increase the figure.

FOR SUNNYSIDE FUNDS

Ad Club Directors Favor More Money for Buildings.

The board of directors of the Indianapolis Advertising Club were on record today as favoring the appropriation of funds by the Marion County commissioners for additional buildings and equipment at Sunnyside Sanatorium near Oakland, Ind. The directors urged that the commissioners "take such steps as necessary to relieve distress among persons afflicted with tuberculosis in this community."

GROTTO SEEKS BRIDE, GROOM

Will Be Honor Guests at Cupid Party.

Wanted: A man and woman to be married New Year's Eve at the annual cupid party of the Sahara Grotto at the Claypool.

No, this is no joke, but the serious call sounded by Albert H. Losche, county clerk and Grotto member,

who will provide the marriage license and minister. The only request is that the prospective bridegroom be a Mason. The newlyweds will be the honor guests at the party, which will also be in honor of the thirty-two members who became married during 1925. Losche said all applicants should submit their names to him. The couple selected will receive a free membership in the Grotto and a \$100 toilet set. The program will be in charge of Edward Moore, chairman; Forest Davis, Dave Byrkit, Paul Erath, Bert Williams and Walter Dalle.

Hiding a rash won't heal it. Attempts to conceal complexion blemishes usually fail, and only serve to draw attention to the defects. Underneath most unattractive skins is a clear, pleasing complexion—all that is needed is the proper treatment. It is surprising how often a brief use of Resinol Ointment and Resinol Soap will clear away blotches, redness and roughness and give the skin its natural freshness and charm.
