William H. Block & Co. department store owners, have secured the lease held by the Power-Foster Furniture Company at 115-117 W. Market St., and eventually will expand their store at Market and Illinois Sts., though not at present, it was learned today. The building leased has a Market St. frontage of seventy-five feet. The closing Wednesday night of the Russett Cafeteria, to reopen Monday in larger quarters over the Woolworth five-and-ten-cent store, 11 E. Washington St., and the removal of the Kipp Brothers store to 117-119 S. Meridian St., in larger and more desirable quarters will make way for the occupancy of the building at 85-87 S. Meridian St., by March 15, by the Power-Foster firm. The Russett will have twice its present seating capacity. Elevator service will be provided from the street level. Kipp Brothers, wholesale druggists, stationers and novelty dealers, will have much more display room in their new quarters, Feb. 1.

The Power-Foster removal to S. Meridian St., between the Colonial Furniture Company and the Banner Furniture Company, will give the street an aspect of furniture row. In the new location Power-Foster will have forty-two feet frontage on Meridian St., 202 feet deep, with five floors and a basement.

IF KIDNEYS BOTHER TRY DOSE OF SALTS

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation thus often relieving bladder weakness. Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink, which every one should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Advertisement.

MORE LAWYERS THAN AVERAGE

Statistics Show City Has One for Each 500 Persons.

Indianapolis has more attorneys than the average for the country, a survey made by James M. Ogden, Indianapolis Bar Association president, revealed today. There are approximately 700 attorneys here. Statistics show there is one attorney for every 500 persons, while the national average is only one to 800. "The number of lawyers in the United States is decreasing," Ogden said. "From 1910 to 1920 the legal profession increased 8 1/2 per cent and the population about 15 per cent." "The tendency in law schools is toward fewer schools with higher requirements for admission. There are today 160 law schools in this country. The length in course of study is generally three years. The tendency also is to require a degree from a literary college for admission to law school leading to a law degree."
