

## DRESSER PLANT WILL ENLARGE ITS CAPACITY

Engineering Society Told of  
Plans for Developing  
Power System.

Reducing to understandable terms the 60,000 kilowatt measurement of electricity generated daily at the Indiana Service Corporation's Dresser plant in the coal fields, near Terre Haute, Stanley Green told the Indiana Engineering Society at the Scrivener today that this energy was equal to that which 600,000 men could exert.

Green, of the operating department of the Central Indiana Power Company subsidiaries, addressing the forty-sixth meeting of the society, told of plans to generate, 100,000 kilowatts a day and distribute it over the State.

He said this would be 125,000 horsepower a day, or equal to the power of 1,000,000 men.

Describing the transmission of this power to the Merchants Heat and Light Company here, the Wabash Valley Electric Company the Northern Indiana Power Company and the Attica Electric Company, Green exploded the false theory that this transmission across the hills and valleys produces "static."

Properly operated and insulated high tension lines do not interfere with radio reception, he said.

Selection of officers and adoption of resolutions, were on the program. The nominating committee, appointed by Secretary Charles Grossman, Indianapolis, was composed of O. E. McLean and M. K. Foxworthy of Indianapolis, and Dean A. A. Potter of Purdue University engineering school. Dean Potter, was called home Wednesday by the death of his mother-in-law.

About 100 Indiana engineers, draftsmen, scientists and salesmen of engineers' products, attended.

Sam T. Hadden, William C. Mcbee, and H. O. Garman were on the resolutions committee.

### CHICAGO POLICE GRAFT CHARGED

Toll Levied From Boot-  
leggers, Court Told.

By United Press  
CHICAGO, Feb. 26.—A far-reaching police collection agency that levied toll from bootleggers all over South Chicago was described to Federal Judge Adam C. Cliffe today.

Joseph Rzegocki, called to testify in an injunction hearing, stated that he had paid Frank Rzewelski, son of a Chicago politician, \$3,100 and bought him an automobile for protection from police raids.

Rzegocki said Rzewelski was the general collection agent and that any time a place was raided that was "paying off" Rzewelski immediately went to John Prendergast, secretary of Police Chief Collins, and the policeman was removed from that territory.

The judge ordered a copy of Rzegocki's testimony be sent to Chief Collins and the United States district attorney.

Official Says Increased Rates Are  
Imperative.

By United Press  
CHICAGO, Feb. 26.—The net earnings of railroads in 1926 reached only what would have been a fair return five years ago, C. D. Morris of the Western Railways committee on public relations, said here today.

Morris said it is a certainty that the railroads must have an increase in rates or they must materially reduce the services they are now furnishing.

Sergeant O'Connor and squad were raiding Jack Smith's restaurant Sunday at 445 Kentucky Ave., when Bastain, unaware of police presence, climbed from an auto with wild west swagger fired a bullet in the ground.

Police found the gun on the auto seat.

But Mr. Aley didn't mind the storm, for he braved the waves more than the sailors did. He was one of fifteen out of the three hundred passengers who went to the dining room for their meals, but the boat rolled so much that the dishes were thrown off the table and Dr. Aley found himself upside down in the corner with a chair on top of him," she said.

"There is one thing in Honolulu which I admire, and that is the harmonious way in which the many different races work together. A man is chosen for his worth and no race distinction ruins the perfect unity of that country. It is a beautiful place and we are glad we made the trip there."

Students at Texas State College for Women, Denton, Tex., could not decide which of these four girls is prettiest. So they sent the pictures to Charles Dana Gibson and are waiting for him to decide. ### LEMCKE URGED AS G. O. P. HEAD

Hogue Also Mentioned for  
County Chairman.

Anti-Watson faction leaders today urged Ralph A. Lemcke to enter the race for county chairman in opposition to the George Coffin element of the G. O. P.

Lemcke has afforded little encouragement, it is said.

There is a possibility leaders who seek to wrest control from Coffin may line up behind Joseph L. Hogue, former city controller, considered among the Shank administration chieftains, least objectionable to the Klan.

Whether the Klan and the old Jewett-Lemcke-city hall crowd will unite in the anti-Coffin struggle is problematical, but there is considerable activity.

Coffin has been ill for several weeks and is said to be busy keeping opponents of Senator Arthur R. Robinson out of the senatorial primary contest.
