

PROHIBITION ON ITS WAY OUT, TOURIST THINKS

Finds Nation-Wide Revolt on Cross-Country Scout-Trip.

By Times Special

SAN FRANCISCO, March 19.—"American prohibition, history's most expensive and disastrous experiment in blue-law reform and repression, is about to come to an end."

Charles S. Wood, national campaign manager for the Association Against the Prohibition Amendment, Inc., and former mining man of Philadelphia, says that "Wood has ended a cross-country scouting trip, and says what he's seen and heard has opened his eyes and ears to the existence of a 'Nation-wide revolt' against the Volstead act. If this revolt registers itself at the polls in November, at least a score of dry Congressmen will show up missing, with that many modifications taking their seats, Wood thinks. And in that event a stampede of 230 doubtful Congressmen will occur to repeal the Volstead act."

"The test will come in 1927," he says. "And it will come in the lower house. The Senate is wetter than the House and will follow the House's lead. There are about 100 out and out dries and that many declared wets. The other 230-odd will be the battle-ground in the fall elections. We figure we need between fifteen and twenty new seats to give a good index of the change in sentiment."

Wood says his association has a committee of fifty at work studying the best sort of substitute bill for the Volstead act. Whether it will follow the Canadian system of government control or the Swedish system, or whether the States will be given power to name the alcoholic content of beverages is yet undecided. All Wood knows, he says, is that the people want temperance in place of prohibition, and modification instead of Volsteadism.

"The change that has come over the country since six years ago is amazing," said Wood. "For instance in Michigan, in 1918 a referendum on the question was won by the dries by 250,000 votes. Today the modificationists are so certain it will go the other way that they are urging another referendum. The fact that two years ago we thought it was settled and today it is the liveliest issue in the country, shows the change."

STUDENTS SUPPORTED

Legion Backs League Favoring Retaining Military Training.

Support of the stand taken favoring military training by the Students' Defense League of Indiana University is voiced by the American Legion in a communication addressed to Paul E. Tombaugh, president of the Students' League, by C. A. Jackson, State Legion commander. The Legion has offered its services in support of those who would retain military training.

TOURISTS WELCOMED

Organized Cruise Being Made to Africa, South America.

Three hundred and fifty American tourists from the S. S. Orca, the first organized party of Americans ever to visit South Africa, were accorded an enthusiastic reception on their arrival at Cape Town last week, and

have just completed a most successful tour of the Cape Colony.

This news has just been received by R. S. Ferguson, local residence manager for the American Express Company, which, with the Royal Mail Steam Packet Company, owners of the Orca, is conducting the world's first tourist cruise to South Africa and the east coast of South America.

"Too Tired to Move"

HOW often we hear a woman use this expression! She is in a weakened and run-down condition, not fit to do her work. Bravely she struggles on. She becomes nervous and discouraged.

Whether she lives in a luxurious apartment, a cozy bungalow or a crowded city flat, every woman can understand the handicap of poor health. The woman in moderate circumstances suffers more, of course, than her well-to-do friend because she cannot afford to hire help.

In spite of her efforts, her house begins to look neglected. Her children say, "Mother is so cross."

Eagerly she listens when a neighbor tells her of other women who found the road to health and happiness.

Health! That's the answer to so many of our problems. Without health, a woman cannot make her home the happy haven she dreams of.

Mrs. GOLDIE SHOUR of May View, Illinois, is one of the many women who have improved their health by taking Lydia E. Pinkham's Vegetable Compound. She was in a run down condition which caused her much unhappiness.

Mrs. SHOUR says, "I have taken Lydia E. Pinkham's Vegetable Compound and I think it is the most wonderful medicine I ever tried." She declares that she is now in better health than ever before.

Lydia E. Pinkham's Vegetable Compound
