

# PROSPERITY OF INDIANA SHOWN BY I. U. REPORT

Reveals State Is Short on Millionaires, but Long on Income.

**By Times Special**  
BLOOMINGTON, Ind., March 24.—Indiana is short on millionaires but long on average income, according to a report completed here today for the new Indiana Development Council, by Prof. L. D. Edle of the Indiana University bureau of business research, school of commerce.

The report shows Indiana's income in 1925 was approximately \$1,725,000,000 and that the State ranks eleventh.

The investigation reveals that only about four-tenths of 1 per cent of the population receive an income above \$10,000.

Four counties, Marion, Lake, St. Joseph and Allen, together have a greater number of persons income tax returns than the other eighty-eight counties of the State combined. There are only 181 millionaires in Indiana, compared with 16,634 for the United States.

**Farm Income Gains**  
Average farm income is estimated at \$1,494, as compared with \$429 in 1921. That year only eleven States had a smaller farm income than Indiana.

In normal years Indiana ranks about mid-way between the high and low farm income States.

The report points out that 55.5 per cent of the population in Indiana own their homes, as compared with 36.9 per cent for the United States as a whole.

Nearly two-thirds of all income in this State goes for wages, salaries and services. In the United States the percentage is about 10 per cent smaller.

**More Autos**  
Indiana has one-third again as many automobiles as the United States and in degree of saturation ranks eighth.

There is one car for every 4.2 persons in the State.

The average annual full time earnings for wage earners in factories is estimated at about \$1,300 per year. More than 45 per cent of all wages and salaries in Indiana go to manufacturing employees, 3.8 per cent to mining employees, 4 per cent each to agricultural and construction industry employees, 42 per cent to trade, transportation and miscellaneous industrial workers combined.

The table compiled showing average annual full time earnings for employees in leading occupations is as follows:

Official superintendents and managers, \$3,415; building trades, \$1,765; clerks, \$1,638; steam railroads, \$1,604; manufacturing, \$1,300; mines and quarries, \$1,185; electric light and power plants, \$1,144; clergymen, \$1,072; teachers (men and women), \$1,012; power laundries, \$917; agriculture, \$672.

**SNIPER TO DIE JULY 9**  
**By United Press**  
OMAHA, Neb., March 24.—Frank Carter, phantom sniper who killed two men in a reign of terror here, was sentenced to die in the electric chair July 9 by Judge Charles Goss today.

Judge Goss in overruling a new trial plea, allowed Carter to appeal to the Supreme Court and ordered the county to pay the expenses.

# INDIANA DUNES TO RIVAL GERMAN RUHR

Insull Announces World's Largest Power Plant to Be Built at Ultimate Cost of \$100,000,000.

**By Times Special**  
CHICAGO, March 24.—A district that may soon embrace the greatest concentration of industry in the world is springing up along the shore of Lake Michigan south of Chicago.

The dream of Samuel Insull, a modern genius of public utilities, already has converted what was once nothing but barren sand dunes, into a vast center of energy that surpasses the great valley of the Ruhr, in Germany.

And now with one stroke of his pen the utilities magnate has inked plans for the construction on the lake shore just across the Indiana line of the largest steam-operated power station ever built. It will have a capacity of 1,000,000 kilowatts or approximately 1,335,000 horsepower. The initial cost will be \$25,000,000 and the final one, \$100,000,000.

The Middle West has almost ceased to wonder at the accomplishments of Insull, the little giant of electric utilities. Almost daily his company, the Mid-West Utilities Corporation, announces the acquisition of properties in figures too large for any save the barons of finance to comprehend.

Insull, a white-haired little man with pink cheeks, a patron of the arts, and "angel" of the Chicago Civic Opera Company, holds the bulk of the electric utilities interests of New England, Indiana and Illinois and a large block of similar utilities in northern Oklahoma. He controls the Chicago elevated and surface lines and the Commonwealth Edison Company, Chicago's largest distributor of electricity.

For a long time he has dreamed of making the sand dunes of Indiana and Illinois the center of the world's largest power system, and now it seems that his dream is coming true.

The district from Gary, Ind., to Chicago is already an intricate pattern of steel mills, power plants and allied factories. With the establishment of Insull's big station, which is to be known as the State Line Generating Company, the district will supply all of the electric power for northern Indiana and Illinois and interrelating companies of the Insull group.

**HAD TERRIBLE COUGH AND LOSING WEIGHT**  
Cough about gone; eats well; gains 12 pounds on MILKS EMULSION.

"In December, 1913, I had a fearful cough, and was advised to change climate immediately. I went to San Antonio, Texas. Left there and came to Oklahoma City in October, 1915. Had no appetite, could not sleep and was losing from one to three pounds a week. I also had catarrh of the bowels, which I had been unable to relieve.

"Relatives urged me to try MILKS EMULSION. I did so and began to improve, slowly at first, but steadily. My weight has increased 12 pounds. I have no temperature, and my cough is about gone. I can eat heartily, sleep well, and am working at my trade again."—V. W. Neff, 610 N. Dewey St., Oklahoma City, Okla.

MILKS EMULSION restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food, thus building flesh and strength, which are Nature's only aids in conquering germs and repairing effects of wasting diseases.

This is the only solid Emulsion made, and so palatable that it is eaten with a spoon like ice cream. Wonderful for weak, sickly children. No matter how severe your case, you are urged to try MILKS EMULSION. If not satisfied with results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. Sold by druggists everywhere.

Among the countries represented are Dominican Republic, Acara, Nigeria, Ecuador, Turkey, Iceland, India, Australia, Sweden, Egypt, Syria, Curacao, Korea, South Africa, Porto Rico, Java, Argentine Republic and Romania.

# Can You Sleep on Your Left Side?

Many people can't sleep on the left side because stomach gas presses on the heart. Mr. S. Payne reports that after taking Adlerika he can sleep on either side all night long.

Adlerika gives the system a REAL cleansing, and brings out old metabolic poisons which may have caused trouble for a long time. Just ONE spoonful relieves GAS and takes away that full, bloated feeling so that you can sleep at night without rolling from side to side. Even if your bowels move every day, Adlerika removes much additional poisonous matter which you never thought was in your system, and which caused sour stomach, nervousness, sleeplessness, headache, etc. Don't wait any longer but let Adlerika give your stomach and bowels QUICK relief. At leading druggists. Sold in Indianapolis by the Book Drug Co. and other leading druggists.—Advertisement.
