

SAILANT OF MAN SOUGHT

Hunt Prowlers Who
Annoy Residents.

Today found no trace of the prowler, one of whom was a white woman and the other who was seen peering in windows. One man thought to be a thief was arrested.

Mrs. Mabel Sears, 3726 N. Illinois St., said a young Negro dragged her into a vacant lot near N. Illinois and Thirty-Seventh Sts. He ran when she hit his hand. Police said she suffered scratches and minor body injuries.

Avon Liske, 832 N. Capitol Ave., saw a man peering into a window at his home shortly after he and C. M. Dougherty, 839 N. Capitol Ave., chased him from the Dougherty home. Aided by neighbors they surrounded Liske's yard and called police, but the man escaped.

A man who gave his name as Fred Griffen, 18, of Louisville, Ky., and 1512 Madison Ave., was held at 1416 N. Meridian St., the home of the Brothers of the Holy Cross. Brother Vincent, who discovered the man in the house, told officers articles had been stolen recently. Griffen was held under \$2,000 vagrancy bond.

DESCRIPTION BROADCAST

But Police Get No Word of Missing Shoe Repair Man.

A description of John Kurtz, 66, of 1903 Bellefontaine St., who disappeared from his home March 23, was broadcast over the radio Tuesday night, but police received no reply today.

Kurtz for years operated a shoe repair shop at 51 Kentucky Ave. He has been in ill health for some time and was worried because a business firm had made overtures to lease the building where his shop is located.

His daughter, Mrs. Alice Orr, and a son, William Kurtz, Tuesday asked Judge Mahlon Bash of Probate Court to appoint the Fletcher Savings and Trust Company administrator, in order to conserve the estate.

Club at School No. 66 Has Paper Sale

Left to Right: Mrs. Nellie Chapman, Principal. Jean Elizabeth Bowling and Ruth Noblett.

The Parent-Teacher Club of the Henry P. Coburn School, 604 E. Maple Rd., held a two-day paper sale last week, clearing about \$150, which will be turned into the special fund from which pictures, books of reference, musical equipment and other articles are purchased for the school.

There was tremendous interest in the sale. The pupils brought pa-

pers and magazines by armloads and in wagons and automobiles. Each room worked to get the largest collection.

After Room No. 4 won the contest two pupils, Jean Elizabeth Bowling, 543 E. Thirty-Sixth St., and Ruth Noblett, 3707 N. Delaware St., presented the principal, Mrs. Nellie Chapman, with "more papers for our room."

The Parent-Teacher Club holds

paper sales twice a year. Aside from making money for special equipment for the school, the sales have enabled the club to subscribe liberally to the High School Emergency Fund, and to give \$1,000 to the Riley Hospital Fund. Mrs. Charles Welliver, 4130 Guilford Ave., is president of the Parent-Teacher Club and Mrs. Fred Kurtz, 609 Highland Dr., is chairman of the finance committee.

Kellogg advising him that all signatories to the world court protocol had been invited to confer in Geneva Sept. 1 with the United States to draft an annex to the protocol which would embody the American reservations.

The letter requests Kellogg to notify the league whether the United States will participate in the conference as the project probably would be abandoned unless the United States accepts the invitation.

CHECK ON LURID READING ASKED

Hoosier Congressman Submits Resolution.

WASHINGTON, March 31.—At the request of the Parent-Teacher Association of Indiana, Representative R. N. Elliott of Connorsville Tuesday introduced a resolution providing congressional investigation of obscene matter sent through the mails or otherwise in interstate commerce.

The resolution provides a commission of six, three from the House and three from the Senate, which would sit during the recess, and would report back at next session whether remedial legislation is needed. It would be empowered to subpoena witnesses.

Elliott said the resolution is aimed particularly at lurid magazines. According to E. M. Campfield, Richmond, Ind., the association has found many of these get into the hands of children.

The resolution went to the Interstate and Foreign Commerce Committee.

BANK ACCOUNT IS GREAT INFLUENCE

We Appreciate Small Accounts

"The savings account has been the medium of accumulating the first payment on homes, and the emergency fund in sickness, unemployment and other personal misfortunes. It has been used for premium payments on life insurance which has brought comfort and cheer to widows and children. It has been the means of bringing happiness and contentment to countless thousands."

Leads to Growth

"There is nothing that gives men greater confidence in themselves, achieve big things than a little money in the bank that can be drawn upon when needed. In a great country like ours with unlimited resources and facilities to earn and produce, our ambition should be that every man, woman and child should have a bank account, but those who do not have bank accounts may not be altogether to blame. Banks have not always been the most friendly and inviting places, particularly for people of small means. They have not always given the impression that they were interested in the person who had only a small account to deposit."

Humanity In Big Business

The Management of the Standard Oil Company (Indiana) believes in humanity for man to man, and practices it.

An example of the practical application of this principle is found in the report of the Employees Stock-Purchasing Plan just made public.

Five years ago the Management offered all employees an opportunity to purchase shares of the Company's stock on a deferred-payment plan.

The individual employee was privileged to subscribe for stock up to 20 per cent of his annual wage. For every dollar subscribed the Company agreed to add 50c. Subscriptions were voluntary.

The significant result is that 15,000 employees purchased stock in the Company by this method, and their holdings under this plan aggregate 390,000 shares.

This number of shares represents an accumulation in five years of approximately \$25,000,000, or 4.2 per cent of all the Standard Oil Company (Indiana) shares outstanding.

By their voluntary action, the employees, collectively, have made themselves the second largest influence among the 50,000 stockholders, not one of whom owns as much as 5% percent of the total stock issued.

Such an encouraging response justifies the faith of the Management in the loyalty of the 28,059 men and women making up this splendid organization.

It is tangible evidence of the unusual spirit of harmony and friendliness which prevails throughout this great group of men and women, who are bound together by an ambition bigger than themselves—the ambition to serve mankind—and who work with a united effort.

The Standard Oil Company (Indiana) has proved by the actual working out of its principles that humanity in big business is practical. It is gratifying, indeed, to the Management to have more than one half of the employees realize that only by helping and serving one another can man attain happiness and success.

No doubt, there are some people who think of the huge organization of the Standard Oil Company (Indiana) as a machine. It is truer to think of it as a group of human beings acting together in splendid cooperation. The thousands of shareholders, the Management, the employees—all are people like yourself, with a joy in their work and an eager love of life.

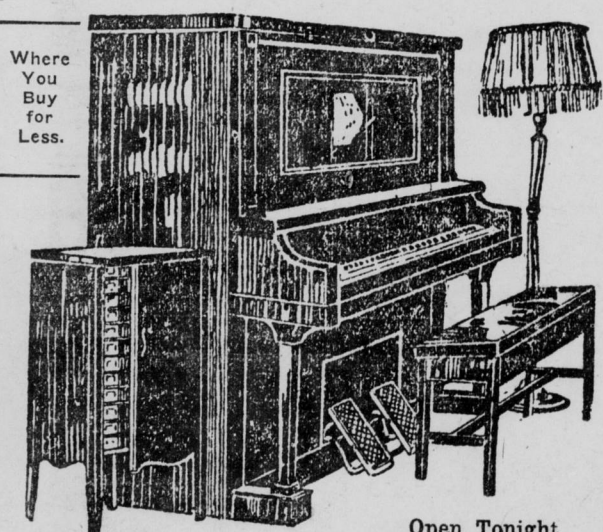

The Standard Oil Company (Indiana) believes that the eternal foundation of all greatness is human sympathy, based on understanding and high integrity.

The Standard Oil Company (Indiana) practices the humanity it preaches, believing that in such principles lies better service to the thirty million people of the Middle West, whom it earnestly tries to serve in such a manner as to gain their confidence, respect, and esteem.
