

## CITY BACK TO ROUTINE AFTER EASTER SUNDAY

Resurrection Story Told in Churches—Weather Man Favors Sacred Day.

Merchants, today following Sunday's celebration of Easter, the birthday of hope, restocked with spring finery and the city, after its holiday, went back to routine.

The weather smiled on the sacred day's festive observance. Streets were fashion parade grounds.

Churches were fragrant with lilies and echoed with music. The Resurrection story was retold. Those in jail heard Dr. E. S. Shumaker, Anti-Saloon League superintendent, carried it there. He resented a report that in his talk, he mentioned the new beer as a menace to the moral miracle of prohibition.

Little boys and girls sang hymns of joy on the monument steps at sunrise. Chimes in Christ Church tower across the street issued forth in accompaniment. Then groups of the chorus carried the joyous music to the sick in the hospitals and to special meetings of men and women of every plane of life who hadn't gone to church.

Estimated church attendance was 47,000. Christian Church Statistician E. S. Cummings reported the number of worshippers in the city's various churches of that denomination reached 19,887 persons.

A gentle wind swept the city. The mercury fluctuated around 60 degrees. April showers stayed away. Crowds went to parks for the first time this year.

The story of the stone rolled away from the tomb was the universal sermon theme.

The children who sang were of the Ogden Junior Chorus recruited from four downtown churches and directed by Mrs. James M. Ogden.

## BLESSED RELIEF IS GIVEN THIS YOUNG GIRL

Awful Stomach Attacks All Her Life; Konjola Soon Ends Misery

"Probably no single ailment leads to so many different forms of suffering as stomach trouble," said The Konjola Man yesterday at Hook's drug store, corner Pennsylvania and Market Sts., Indianapolis, where

THE ABRAMS GIRL

crowds of men and women are now calling daily to find out about this celebrated Konjola medicine.

"Indigestion, pain and agony in stomach and chest, heart palpitation, feeling like a rock inside the stomach, feeling as though a lump of food has stuck in the throat, cramps that nearly double the poor victim over, general going down in weight and strength, burning feeling from the throat to the pit of the stomach, fermentation, dyspepsia, headaches—these are only a few of the many different forms of awful misery that may result from a disordered stomach," The Konjola Man continued.

This Konjola, which The Konjola Man is introducing in Indianapolis, has brought blessed relief in so many instances of stomach trouble, that it is declared that no suffering person can afford not to try it. In larger cities where The Konjola Man has been statements continue to come from grateful men and women praising this Konjola. For instance, Mr. Jacob Abrams, 717 W. Seventh St., Cincinnati, Ohio, recently made the following amazing statement: "About every 5 weeks, nearly all her life, our daughter had suffered terrible attacks from her stomach. She couldn't keep food down, but would get so terribly weak and nervous she'd have to be in bed for two weeks or so. She would cry and moan with her suffering. We tried many different remedies without result. We tried your Konjola, and after she started taking it, the usual 5 weeks passed by but the stomach trouble did not come. She began to eat and sleep fine. She went 2 whole weeks over the usual 5, and when the attack did come it was very light and she was only in bed a little over a day. She kept taking Konjola a little longer, and now it has been over two months, and she has not had another single attack."

Konjola is not only for stomach trouble, but it is a liquid mixture containing juices from 22 different natural plants, and these are blended with still other proven medical ingredients, making one single preparation that has an equally beneficial effect upon the stomach, liver, kidneys and bowels. The very first thing Konjola does is cleanse the system of old poison and waste matter which may have been lodged in our bodies for a long time without our knowledge. Then the other nature juices begin their work on the system, and the results are indeed surprising.

The Konjola Man is at Hook's drug store, Pennsylvania and Market Sts., the busiest downtown section of Indianapolis and the easiest to get to, where he is daily meeting the public and introducing and explaining the merits of this remedy. Free samples given.

Konjola is for sale also at the other Hook drug stores located throughout the downtown section. Advertisement.
