

URGE MANY FOR JOBS ON FORCE

Politicians Make Recommendations to Mayor.

With four vacancies in the police force, caused chiefly by bouts of patrolmen with John Barleycorn, many politicians were recommending friends to Mayor Duval today.

Pressure is being exerted to induce the mayor to favor a number of the famous legion of dismissed police men appointed by Lew Shank at the end of his administration, but others contend more zealous primary workers should have the jobs.

Decision may be postponed until after the primary election to avoid antagonizing persons pulling rather heavy political oars, it was understood.

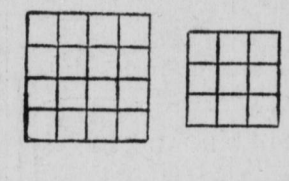

CHAPMAN NOT IRISHMAN

Bandit Was of French Canadian Descent Says Local Editor.

Gerald Chapman, bandit, hanged Monday night at Hartford, Conn., for murdering a Connecticut policeman, was a French Canadian and not of Irish descent as stated in dispatches, J. P. O'Mahony, Indiana Catholic and Record editor, said today.

O'Mahony said he obtained information from records in the East. "Chapman comes from a well-known French Canadian family which is concealing its identity," said O'Mahony.

Puzzle a Day

Two white tiled tables in his small experimental laboratory were too small, so bacteriologist, John Mazur, decided to have one large table built to take their place. On a large table he figured he could watch several experiments in synthetic plant life at once. The carpenter called in told Mr. Mazur that because the table tops were constructed of small glazed tiles, they could each be cut along the cemented lines into two pieces. These parts could then be recombined to form a larger square table top and the legs of one table could be used as support. In this way a new table would cost very little. The carpenter then proceeded to draw plans showing his exact method.

Can you duplicate these plans?

Last puzzle answer:

There are according to Mr. Ritchie's figures, 230 electric railway lines using motor coaches. This number may be divided into five parts. The first and smallest part is 4. The second part is 5 times the first part, or 20. The third part is 15 times the first part, or 60. The fourth part is 24 times the first part, or 96. While the fifth part is 25 times the first part, or 100. The total number is 4 plus 20 plus 60 plus 96 plus 100, or 280. The sum of the digits in 280 is (2 plus 8 plus 0) 10 or 2 1/2 times the first part.

DR. WILEY TO SPEAK

Battle of Lexington to be Celebrated at Dinner.

The anniversary of the Battle of Lexington will be celebrated by the Indiana Society, Sons of the Revolution, at a patriotic dinner at the Woodstock Club on the evening of April 19.

Dr. Harvey W. Wiley of Washington, D. C., will speak. Dr. Wiley was to have spoken at an earlier meeting of the society, but his address was postponed to the later date. Judge Charles F. Remy of the Indiana Appellate Court, president, will preside.
