*There's Something
of Interest to Every
Builder or "Dreamer"
In the Vonnegut Exhibit*

WHETHER you are already formulating plans or are still building "castles in Spain," the ideas to be derived from a visit to our exhibit at the Home Complete Show will prove invaluable to you. Our exhibit covers upholstering materials, building materials, hardware and built-in specialties. We can show you how to build for permanence and more economically by utilizing your space to better advantage and at the same time enjoy a completeness, a convenience and comfort that would do credit to the most spacious quarters. Whether your plans call for a bungalow, a double, a duplex, an apartment house or a mansion, it will pay you to see our exhibit. To locate our booths, turn to the right as you enter and walk to the first aisle, a distance of about sixty feet.

The Modern Home —Electrically Equipped!

Electric Ranges

The comfort and satisfaction of owning a Westinghouse Automatic Range can't be told in this space. The clock starts the dinner when your in town, and shuts it off at the proper time.

Electric Irons

An Electric Iron should be found in every home that is wired for electricity. The convenience of an Iron from Merchants is two fold—convenience and trained service.

Electric Sweepers

The Eureka Vacuum Cleaner has proven its household usefulness. A low initial payment will deliver an Eureka to you—attachments included.

Electric Washers

The Federal Washer makes your work play! It relieves back-breaking work. Every woman should know the ease of operation of this wonderful washer. Also, it's the only washer with a "Table Top."

Electric Toasters

A variety of the newest designed and most modern Electric Toasters carried in our Appliance Department at all times. And by the way—a Toaster is a wonderful gift.

Electric Percolators

The Electric Percolator and the convenience it affords is well known to all. We carry varied stock of all sizes and shapes that will be bound to please the most discriminating buyer.

Electric Ironers

The Electric Ironer represents the acme of scientific development in a labor saving device for the housewife. Its features would take a volume of space—better come in and let us show you!

Electric Refrigerators

Forget your ice-box worries by installing Electric Refrigeration. The false impression of many is that cost is enormous. You'll find by investigation that an electric refrigerator will pay for itself.

Electric Lamps

Only the most modern, scientifically developed lamps are OK'd for our Appliance Department. They must be capable of giving the maximum amount of light or we reject them on this point—you are sure of service from Merchants.
