

## SHELBY COUNTY MAN ON TRIAL

Jury Will Hear Habitual Criminal Charge.

Walter Shepp of Shelbyville, charged with being habitual criminal, went on trial in Criminal Court today before a jury which will determine whether he will be imprisoned for life. Shepp was granted a change of venue from Shelby County Circuit Court after he was arrested March 13 on an affidavit sworn by Joseph N. Kirk of Shelbyville charging Shepp with unlawful possession and use of a still and being a habitual criminal.

If Prosecutor William H. Remy succeeds in convicting Shepp of having unlawful possession of a still, under the Indiana statutes Shepp can be imprisoned for life, since that will make the third felony for which he has been convicted, it is said.

Remy said he would prosecute the case as vigorously as if it originated in Marion County.

### LIGHT ASKED ON INDIANA OIL BUY

Walsh Names Standard in  
Trust Inquiry.

By Times Special  
WASHINGTON, April 22.—Investigation of the acquisition by Standard Oil Company of Indiana of the Pan American Petroleum and Transport Company is asked in resolution introduced by Senator Walsh of Montana, along with investigation of mergers in other big industries.

The resolution was referred to the Senate Interstate Commerce Committee of which Senator Wat-

son of Indiana is chairman. Walsh pointed out that business newspapers said the merger will make the Standard of Indiana one of the largest producers and marketers of fuel oil in the world.

The resolution cites a dozen recent like mergers in various basic industries, and ask the Federal Trade Commission to report if they are in violation of law, if they create monopolies in the respective fields, and what new legislation is needed to control them.

## JOHNSTON'S UNUSUALLY GOOD 100% PURE PAINT

Contains only pure carbonate of Lead, pure Zinc Oxide and Johnston's pure REFINED Linseed Oil. Japan Dryer in paint is necessary ONLY to dry the impurities contained in Linseed Oil.

UNUSUALLY GOOD, contains no impurities. See formula on container.

Today, as never before, the buyer of paint demands and deserves something more and something better than the paints which have been offered in the past.

He also demands that the paint, which comes to him in a sealed container, is of high quality; that the mixing of the materials used be done scientifically and intelligently, so as to insure a paint which will beautify, be waterproof, protect and preserve the surface to which it is applied—and leave the surface after its many years of service in a suitable condition for repainting.

The R. F. Johnston Paint Company, knowing the present day paint requirements, produced the brand now known as Unusually Good; it is all the name implies and more; it will not only meet the present day paint requirements, but will exceed your expectation in durability and wear.

If absolute purity and correct proportioning, perfect grinding and mixing will make good paint, then JOHNSTON'S UNUSUALLY GOOD PAINT is, to the best of our knowledge, the first really pure paint which has been offered for general sale in this or any other country.

Our assurance—JOHNSTON'S UNUSUALLY GOOD PAINT, when applied to a surface in fit condition will produce results which will satisfy in every respect. Failing to do so, we hereby agree to furnish, without cost, a sample of Johnston's JOHNSTON'S UNUSUALLY GOOD PAINT to repaint any surface to which JOHNSTON'S UNUSUALLY GOOD PAINT has been applied.
