LOCAL MAN WHO SUFFERED YEARS NOW WELL AGAIN

Says the New Konjola Has Ended Stomach, Kidney and Bladder Disorders.

"I've lived in Indianapolis since 1883, but never have I found a medicine that can compare with the Konjola for this wonderful compound has made me well again after years of suffering, and I feel it is my public duty to endorse Konjola to every

one," said Mr. Harry Norton, well-known Indianapolis citizen, living at 447 East Tenth Street. This city, while talking a few days ago with the Konjola Man, who is at Hook's drug store, corner Pennsylvania and Market Streets, Indianapolis, where he meets crowds of people every day who call to find out about this celebrated new medicine.

"Yes, Konjola has certainly made me feel better than I have felt for many a day," Mr. Norton said. "For a great many years I had suffered from a bad stomach. It seem to get worse, and I couldn't find any medicine or treatment that helped me. My food would turn sour in my stomach, form a hard lump or knot, and ferment in large quantities of gas which caused by heart to beat fast and gave me a feeling as tho I would almost choke at times. Nothing would agree with me—even the lightest kind of food caused suffering, and with all the great care I took in eating, I would still be in misery. My kidneys were in poor order, and each morning I felt aching and stiff all thru my back. Then, during the day, big black spots would appear before my eyes. My rest was broken up at nights, due to frequent rising, and in fact, I believe I had almost the very worst form of kidney and bladder disorders. I was also subject to bowel trouble, which added to my ill-health.

"I was really at the very worst stage of my suffering when I got Konjola, but this medicine certainly brought wonderful results. I was improved the very first day, because Konjola cleansed my whole system and made my kidneys function properly, and now I have steadily gotten better until I feel just as well as any man of my age. The black spots which used to appear before my eyes have not come back on me, and my nerves are steadier, and I do not have the dizzy feeling like I did before. Each night I rest so good that I awake in the mornings feeling fine, without the aches and stiffness thru my back. I eat solid foods now, and have a wonderful appetite, and everything agrees with me, so that the food I eat is building weight and strength all over my body. I never have the hard, lumpy feeling in my stomach, my food doesn't sour or ferment, and the spells of heartburn never both me any more.

"I never thought there was a medicine made which would end all my suffering in such a short time like Konjola has. I am now feeling well again in every respect, and so I gladly praise Konjola and wish to recommend it to those who are suffering and want quick relief."

The Konjola Man is at Hook's drug store, corner Pennsylvania and Market Streets, Indianapolis, where he is daily meeting the public and introducing and explaining the merits of this remedy. Free samples given. Konjola also is for sale at every Hook drug store in Indianapolis and by all druggists in the nearby towns.—Advertisement.

Leonhardt was first to find the remedy and called his prescription HEM-ROID.
