DEATH VERDICT IN 10 MINUTES

Negro, Guilty of Attack, Must Hang.

By United Press
MADISONVILLE, Ky., April 28.—Bunyan Fleming, first of three Negroes to be tried for attacking a white girl, must die on the gallows. This verdict was returned by a jury here Tuesday night after it had been out but ten minutes. Trial of Columbus Hollis and Nathan Bard, the other defendants, was scheduled for today. It is believed judgment on all three will be passed at the same time. National Guard troops continued to keep a close guard around the county jail and courthouse today.

32 CANDIDATES TALK

Democrats, Republicans Address Civic Association.

Those hardy souls who remained throughout the entire meeting of the Butler-Fairview Civic Association at Kenwood Ave. and Forty-Sixth St., Tuesday night, heard thirty-two candidates, both Republican and Democratic, make speeches.

Each candidate was allowed five minutes but a few compassionate office seekers spoke only a minute or two.

MILTON FORSAKES PUMP

Water Company Incorporated to Supply City.

Residents of Milton, a small town in Wayne County, are destined soon to forsake the time-honored pump-handle and turn to the modern faucet for their drinking water. Incorporation papers were filed today at the Statehouse for the Milton Water Company, capitalized at \$25,000, preparatory to construction of a new waterworks. Incorporators are Clarence V. Pitman, Benton E. Wagner and Robert P. Callaway.

PLANES DISTURB CONCERTS

By Times Special
MIAMI, Fla., April 28.—A complaint that daily band concerts here were being disturbed by the noise of airplanes flying over the ground, caused City Manager F. H. Wharton to order aviators either to move farther out in the bay or fly at higher altitudes.

20 Years of Stomach and Kidney Trouble

Trouble All Gone Now. Backache Quit. Eats Anything.

"I suffered with stomach trouble for twenty years. I was bloated and at times I felt as if there was a rock lying in the pit of my stomach. My kidneys were weak and disturbed me during the night. My back ached all the time. Nothing I ate did me any good, and I tried different medicines without improving. Then a friend told me to try Viuna. The first bottle made me feel better and so I kept right on. When I started in I only weighed 145 pounds; now I weigh 157 pounds, a gain of 12 pounds, and I feel fine. Don't have any trouble with my stomach any more and can sit down to the table and eat a good hearty meal without one bit of fear. I don't have any trouble with my kidneys and back, either. All the pains have gone. My constipation is entirely gone, and I want to say Viuna did it all."—Chas. L. Scott, 839 East Maryland St., Indianapolis, Ind.

Viuna acts promptly on sluggish bowels, lazy liver and weak kidneys. It purifies the blood, clears the skin, restores appetite and digestion, brings new strength and energy to the whole body. Take a bottle on trial. Then if you're not glad you tried Viuna, your money will be refunded, \$1 at drugists, or mailed postpaid by Iceland Medicine Co., Indianapolis, Ind.

Puzzle a Day

Willie, the young Canadian jockey, was exceedingly proud of the horse he rode. Whenever possible he boasted of his horse's speed and skill. Most of the jockeys in the stable grinned at his tirade, but his room-mate could not endure it. So he presented Willie with a small printing outfit in hopes of giving him a new interest. For a while all was well, but when the jockey arrived in Tia Juana, Willie was seen wearing the above circular pin. "What's that?" his room-mate asked. "Why, can't you see?" said Willie. "That's my horse's name and his motto." "Yes, it's there all right," was the answer, "but some of the letters are backwards and some are upside down. It takes a puzzle fan to read it."

What is the motto on the pin? Last Puzzle Answer: The square patchwork quilt, donated to the White House for use in the redecorations, contains 7,744 small squares. That is, it is an 88x88 square. If increased 1 row, it would be an 89x89 square and would contain 7,921 small squares. This square is 177 squares larger than the original square quilt. (7,744 plus 177 equals 7,921). To solve a puzzle of this type, divide the difference between the two squares by 2. The answer without the remainder (1/2) is the size of the smaller square.
