

DEMOCRATS FACE SHOWDOWN TODAY ON SHOALS ISSUE

Senator Copeland Calls
Party Caucus on Stand
to Be Taken.

Times Washington Bureau.
1322 New York Avenue.
WASHINGTON, May 13.—The Democratic party faced today an absolute showdown on the Muscle Shoals problem.

Senator Copeland of New York took the lead in forcing party action. He announced he would seek a Democratic caucus in the Senate, thereby to demand what action the party intends to take toward the Coolidge Administration's plan of leasing the \$150,000,000 Government power plant to private capital for private profit.

Copeland's move is important, due to declarations made by the Democratic national committee in the last national campaign. In that campaign the committee induced the whole Coolidge Administration in favoring the national power trust.

Hoover Attacked

In a pamphlet sent throughout the nation the committee attacked Herbert Hoover, Secretary of Commerce, as a power trust member of the Cabinet, alleging "he has recently delivered speeches opposing public developments and advocated

Obtained Wonderful
Results From Todd's
Tonic.

"I have been subject for many months to dizzy spells, nervousness and that tired feeling. I was advised by friends to try Todd's Tonic and I find that my friend was right. Todd's Tonic improved my whole system wonderfully. It has stimulated the action of my stomach so that everything I eat digests well, has quieted my nerves, relieved me of my aches and pains. Now, after putting in a day's hard work, I feel just like putting in another one as I don't feel tired. I am glad to thank the Todd's Tonic manufacturer for this wonderful tonic."

PIMPLES LASTED OVER A YEAR

Hard and Red. Face Dis-
figured. Cuticura Heals.

"My trouble began from using cheap soap. My face broke out with pimples that at first were large and soft, but later became small, hard and red. They scaled over and itched and burned causing me to scratch. Scratching caused eruptions and my face was so disfigured that I was ashamed to go out. The trouble lasted over a year.

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. It helped me so I purchased more and in five weeks I was healed." (Signed) Miss Anna Dennis, 3510 Lowell Ave., Lorain, Ohio, Sept. 28, 1925.

Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses.

Husband Nearly Too Considerate

Consideration for his wife nearly led Marshall King, 2414 N. La Salle St., to be arrested as a burglar late Wednesday, after he crawled in a window at his home, instead of arousing her to open the door.

King told police, who answered a burglar call, that he had forgotten his front door key and crawled through the window rather than wake his wife.

turning over the water power rights now belonging to the people to private corporations.

In the same pamphlet the Democratic National Committee proclaimed: "Another proof that President Coolidge can be depended upon to turn over the water power sites of the Nation for private exploitation is shown by his sudden friendship with Henry Ford, leaving himself legitimately open to the charge that if Ford would retire from the presidential race Coolidge would help him secure Muscle Shoals."

The Democratic committee cited figures to show that private power companies are overcharging the people for electricity and declared "the power interests dread any demonstration of any kind which will reveal to the people the amazingly low cost of producing and distributing electric energy."

Democrats Help

Despite these declarations, fifteen Democratic Senators voted March 8 for the resolution by which a congressional committee negotiated with private capital for a fifty-year lease of Muscle Shoals. The committee finally recommended the bid of thirteen associated power companies.

When a move was made to have this bid further investigated by a Senate committee, thirteen Democrats joined with the Republican machine to smother it. In both of these votes putting the Democratic party on record, such leaders as Robinson, Arkansas, floor leader; Harrison of Mississippi and Swanson and Glass of Virginia voted with the Administration.

Copeland said today: "I am unalterably opposed to leasing Muscle Shoals to the power combine. I believe the Government should hold on to the people's project until we know just what the project is worth to the Nation. I think it is time to call a party caucus."

'REGENERATION' SUBJECT

New York Pastor Assails Modernism
—Urges Faith.

"Modernism cannot steal the ethics of the Cross of Christ while it rejects the substitutionary power of the cross," said Dr. John Roach Straton, pastor of Calvary Baptist Church, New York, in a sermon Wednesday night at Calvary tabernacle on "Ye Must Be Born Again."

"We need the old-fashioned truth of regeneration as the basis of all other thinking," he said. "Man's faith can find the key to the mystery of regeneration and can pray his way into regeneration, he declared.

Dr. Straton insisted the modernists are trying to change Christianity from a supernatural, divine religion into a religion of bald materialism, and are indulging in an idle dream through lost faith and wrong teachings.

SEA LION VS. SEA BASS
OAKLAND, Cal.—Beginning in an argument over floating food, a 12-foot sea lion and a huge sea bass fought for ten minutes in full view of trans-hay commuters. The lion finally severed the smaller fish's backbone.

Desert Sands Give Up Secrets of Sphinx

The full grandeur of the Sphinx of the Plain of Giza has just emerged from Egypt's desert sands. For long ages these sands buried the base of the great stone form, and not until hundreds of Egyptians had toiled for six months, carrying the accumulation away, was the 6,000-year old monument revealed as it appears in the above photograph. Inset is a picture showing the Sphinx, encased by sand almost to the shoulders, as it appeared before the excavation work began. The figure now is identified as that of a wingless, crouching lion, with the head of one of the Pharaohs. Extending 56 feet to the front are huge paws built of small stone blocks. Between these paws are a Roman altar and a tablet with hieroglyphic inscriptions. The whole figure, 12 feet long and 66 feet in height, rests in a great trough cut into the plain. Restoration of portions of the Sphinx, damaged by the elements and by vandals is planned.

BLAZE AT ELEVATOR

Origin Investigated—Small Amount
of Grain Damaged.

Fire officials today were investigating origin of a fire late Wednesday that damaged a grain elevator owned by the Mid-West Elevator Company, Twenty-Third St. and the Belt Railroad. Small amount of grain was damaged, officials said. Several days ago the elevator was damaged by fire, thought to have started from spontaneous combustion.

Fire starting from sparks caused a \$250 damage to a garage occupied by James Perry, 515 E. Morris St.

LAUGH ON LANDLORDS

CHICAGO—In the basement of an apartment house, health authorities discovered millions of mosquitoes apparently thriving on the damp steam heat. Tenants had complained all winter that they were being eaten up by the stingers, but the landlord only laughed at them.

Eighty per cent of the homes in the United States are made of wood. The presence of a great ice cap lowers the temperature of a region about 50 degrees.

Better Than Soda

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solu-

tion of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentation in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

New Agent Is Busy Meeting Farmers

C. (Pat) Henry

Assuming his duties as Marion County agricultural agent, C. (Pat) Henry is busy getting acquainted with farmers and Farm Bureau leaders in the county.

Henry, who took over his work May 1, has his office temporarily in the Indiana Farm Bureau Federation headquarters, 16 N. Senate Ave. County commissioners are arranging to give him an office in the courthouse.

For the past few years Henry has been farming in Ohio. He formerly was county agricultural agent at Ft. Wayne and first assistant county agent, leader at Purdue University. He plans a campaign to increase the number of boys' and girls' clubs, and to put better and more modern methods into use on the farms in the county.

ORGANIZATIONS TO AID

Twenty-One Groups to Participate
in Memorial Exercises.

Twenty-one local patriotic organizations will participate in the observance of Memorial day, May 30, and Memorial Sunday, May 23, it was announced today by D. H. McAbee, president of the General Memorial Association. General arrangements were completed at a meeting of the association Wednesday night at the Board of Trade.

Senator Arthur R. Robinson will speak at Memorial day services at Crown Hill Cemetery. Boy Scouts will place a flag at the grave of each Civil War veteran. Preceding the cemetery ceremonies a parade will be held downtown. On Memorial Sunday special services will be held at local churches.

COOLIDGE TO GO TO MOUNTAINS TO ESCAPE CAMPAIGN

Summer White House to Be
Maintained in Remote
Mountainous Section.

By Times Special.
WASHINGTON, May 13.—President Coolidge intends to get as far away as possible from politics during the congressional campaign by establishing his summer "White House" in one of the most remote sections of New York State, fifty miles from the Canadian border.

He has chosen the isolated summer camp of Irwin R. Kirkwood, publisher of the Kansas City Star, located in the pine-covered Adirondacks, near Paul Smiths, N. Y., a point farther north than Plymouth, Vt., and removed from the beaten highways.

Although this camp is far from the haunts of civilization there will be ample comfort for the President and Mrs. Coolidge in this primitive pine forest. The camp consists of a group of modernly equipped cabins one serving as a lounge and another as a dining cabin. There is a large master's cabin and four guest cabins, each with two bedrooms, bath and electric lights. The President hardly will use the bowling alley, the billiard table and the tennis courts, but there is a boat-house with launches and canoes, for the camp puts out into Lake Osgood so that there is water on three sides. Here are servants' cabins and lodges for the gardeners, caretakers and other employees of the camp.

JARDINE TO GIVE ADDRESS HERE

Farm Leader Will Dedicate
New Elevator.

William M. Jardine, Secretary of Agriculture, is expected to speak at the dedication the last of July of the new Beech Grove grain elevator to be used by Indiana Wheat Growers' Association, Herman Steen, association secretary, announced today.

Steen, who returned Wednesday from Washington, said Jardine has promised to come. The million bushel capacity elevator is about half completed. It will cost about \$300,000.

COL. BEACH ACQUITTED

Former Narcotic Chief Freed on
Conspiracy Charge.

By Times Special.
CHICAGO, May 13.—Col. Will Gray Beach, former head of the Federal narcotic squad here and prominent as a lecturer before women's clubs on the "dope evil," was acquitted by a jury in Federal court Wednesday of conspiring to violate the Harrison anti-narcotic act.

Beach was indicted, along with several aids and underworld characters, when Federal authorities found a rich cache of narcotics and stolen jewels in his apartment. They said he had employed dozens of sneak thieves to work for him, paying them with narcotics.
