

EX-TARIFF MAN, DEFENDING CAL, FORGETS LETTER

Coolidge Accused of Packing Commission With High Rate Members.

By Roscoe B. Fleming

WASHINGTON, May 20.—President Coolidge was accused of packing the United States Tariff Commission with high tariff advocates out of the mouth of his attempted defender, William S. Culbertson in the latter's testimony before the Senate Investigating Committee late Wednesday. He resumed today.

Culbertson, present minister to Roumania, was formerly a fair tariff member of the commission. Coolidge was accused of "kicking him upstairs" to remove his influence and make room for a high tariff man, during Senate debate which resulted in the investigation resolution.

The voluntary indictment of Coolidge came after a long prepared statement by Culbertson in which he attempted to exonerate Coolidge from exercising any undue influence on the commission. It was contained in a letter written by Culbertson to E. P. Costigan, still a commission member when Culbertson, in Roumania, heard of the appointment of Edgar Brossard, Utah sugar man and high tariff advocate, to fill his place.

The letter was introduced by Senator La Follette as a surprise to Culbertson. It read, in part:

"I can hardly believe it (the appointment of Brossard). That is evidence that our suspicions are correct, and if it is regarded as a reversion of the President's policy, I feel fully justified in leaving. It

HAD STOMACH ATTACKS THAT LASTED HOURS

Indianapolis Citizen Given Relief by the Konjola; Able to Go Back to Work, He Says.

Reports continue to pour in from all parts of Indianapolis regarding the amazing accomplishments of this celebrated medical compound, Konjola, in instances of stomach, liver, kidney and bowel disorders, and rheumatic and neuritis troubles.

MR. ELMER E. GAUBLE

Just a few days ago Mr. Elmer E. Gauble, well known Indianapolis citizen, living at 1240 English Ave., this city, made the following remarkable statement while talking with The Konjola Man, who is at Hook's drug store, corner Pennsylvania and Market Sts., Indianapolis, where crowds call daily to hear his personal explanation of this Konjola medicine.

"I had been suffering for a long time with my stomach," said Mr. Gauble. "Nine weeks ago I had to quit work, as my condition had gotten very bad. I couldn't keep any kind of food on my stomach, as my food would sour and ferment—then raise up into my throat. Following this, I would have an awful burning and raw feeling in my mouth and throat, and these terrible attacks from my stomach would last for hours, so that I would become terribly weak and cold sweat would stand out all over me. I certainly suffered about as bad as anyone ever did with their stomach, and even at nights I was subject to the same misery. In fact, I very seldom slept over two or three hours a night. I had also been troubled with constipation and was told that this had my whole system poisoned and affected, so it is no wonder my general health went down, and as I said, I finally gave up work."

"I heard about Konjola, and how other sufferers in Indianapolis were getting benefit from this new medicine, so I tried it, and the very first bottle showed me that it was just what I had been needing. Konjola seemed to cleanse my system at once, and it removed the congestion and poisons so that I felt better within a few days. Now, my digestive system is fine, and I am again able to go back to work. It is wonderful how the food which I now eat is building me up. I do not have those awful attacks with my stomach, and I am able to retain what I eat. My appetite is like that of a hungry child, and since I can digest everything I eat, that heavy, bloated feeling is gone, the cold sweats have disappeared and I sleep good at nights instead of suffering as I did before. The pains in my stomach, and burning feeling in my throat, all are gone now, and so, after the blessed relief I have gotten from the use of Konjola, I'm glad to endorse such a fine medicine to the public, for it has put me on my feet after hundreds of dollars worth of other medicines and treatments failed to help me."

The Konjola Man is at Hook's drug store, corner Pennsylvania and Market St., Indianapolis, where he is daily meeting the public and introducing and explaining the merits of this remedy. Free samples given. Konjola is also for sale at every Hook drug store in Indianapolis and by druggists in each nearby town.

"Fairies" molested at Rehearsal

Students preparing for the Butler University May-day festival had visions of a postponement and an ultimate failure during rehearsals, because of the tiny pest called a mosquito.

The students called the winged pests other things, but the mosquitoes did not stop their deadly work while the loyal eds and co-eds labored through rehearsals for the pageant to be given Friday in the new site of the school at Fairview.

Fairies flitted hither and yon attired in stickers and heavy coats, while other members of the cast slumped listlessly.

One student was to ride a horse, but after viewing his wounds decided to lead the animal.

would have put us (fair tariff advocates) in the minority.

"I didn't suppose Coolidge would do the thing so rawly. It is evident that Brossard has been playing with the sugar lobby, and now he has received his reward. I wonder as to its effect on the commission staff, with the inevitable implication that honesty is not, after all, the best policy."

The letter was written July 27, 1925, less than ten months ago.

Culbertson also told of the unremitting pressure put on him by high tariff lobbyists as a commission member, resulting in charges that he was subject to dismissal for lecturing at Georgetown University and at the Institute of Politics at Williams-town, Mass.

JUDGE TURNS PREACHER

Only surviving Jap Barrister becomes Minister.

By United Press

TOKIO, May 21.—Gekichi Inamizu, the only member of the Yokohama judiciary to survive the great earthquake, all other judges being killed when the courthouse collapsed, has just resigned from the bench. He has long been an ardent Christian and has come to the conclusion that the command "Judge not" should be applied literally. He will be a preacher in Tokio from now on.

SUMMER SQUASH FROM SOUTHLAND

Tomatoes Higher at City Market Stands.

Summer squash, shipped in from the South and retailing at 15 cents a pound, reappeared today on the stands of the city market. Hot house tomatoes were slightly higher at 55 and 60 cents a pound. The California variety was 35 cents a pound.

Prices recessions were: Green beans, 15 to 25 cents a pound; cantaloupes, 20 to 35 cents each; strawberries, 25 to 25 cents a quart; cucumbers, 10 cents each; and home grown radishes, two for 15 cents.

Other prices included: Cherries, 55 to 60 cents a pound; egg plant, 20 cents each; limes, 50 cents a dozen; lemons, 20 to 30 cents a dozen; oranges, 40 to 60 cents a dozen; grapefruit, 10 to 20 cents each; mushrooms, 90 cents to \$1 a pound; corn, 2 ears for 25 cents; home grown cauliflower, 25 to 40 cents each; white asparagus, 10 cents a bunch; and long green asparagus, 20 cents a bunch.

Frog legs sold at 60 cents a dozen; eggs were 30 to 35 cents a dozen; hens, 45 cents a pound; squabs, 75 cents each; springers, 70 cents a pound; peus, 15 to 25 cents a pound, and pineapples, 20 to 30 cents each.

TRUSTEES' PAY BOOSTED

Salaries Increased as Result of Reclassification by Board.

Salaries of the trustees of ten Indiana townships, including Warren Township in Marion County, will be increased as a result of reclassification by the State board of accounts. Warren Township has been raised from fifth class to fourth, boosting that trustee's salary from \$1,200 a year to \$1,500.

She's Dressed to Be Buried

A. T. AND T. NOW AT BILLION MARK

Telephone Company Passes Steel Corporation.

By Times Special
NEW YORK, May 20.—The American Telephone and Telegraph Company is to be the first American corporation with a billion dollars of capital stock outstanding.

Additional stock totaling \$154,000,000 to pay the costs of new construction will be issued, the directors have announced. This will be offered to stockholders of record June 9 on the basis of one share for each six shares now owned. Some 370,000 stockholders will be entitled to the new issue. When it has been sold, the American Telephone and Telegraph Company will have \$1,077,000,000 of capital stock publicly owned, the greatest investment ownership of history. The United States Steel Corporation must take second place with a stock total of \$888,500.

The new issue is part of an authorized capital increase from \$1,066,000,000 to \$1,500,000,000 voted a year ago last March.

PROGRESS MADE IN JEWISH DRIVE

More Than Half of \$500,000 Must Be Raised Here.

Substantial progress is being made over Indiana among Jewish citizens who are endeavoring to raise \$500,000 for the relief of starving Jews of eastern Europe. Louis J. Borinstein, chairman of the State committee, announced to day. Borinstein said

that more than half of the \$500,000 must be raised in Indianapolis.

Local subcommittees are being chosen this week. Active local solicitation is going forward, he said.

Among the early contributors was

Meredith Nicholson, Indiana author. Many non-Jewish citizens have said they will support the movement. Borinstein said. With his contribution, Nicholson said:

"The toll in this instance, where the suffering is so poignant and women and children are dying for lack of the simplest necessities of life, is not to the Jewish world, but to that broad civilization which the great teachers and prophets of Israel have enriched through so many centuries."

The proposed Colorado River development will be one of the greatest undertakings ever attempted by the Government.

The railroads usually have granted round trips for the price of a fare and a half. Fair officials have asked that a single fare be charged for the round trip, in order to boost attendance.

FAIR TRIPS DISCUSSED

Railroad Representatives Meet With Board of Agriculture.

Representatives of the various railroads entering Indianapolis met today with State board of agriculture officials to arrange for a special excursions to the Indiana State Fair in September.

The railroads usually have granted round trips for the price of a fare and a half. Fair officials have asked that a single fare be charged for the round trip, in order to boost attendance.
