

## ACK TREND SEEN IN COLLAR STYLES

Shirts Reacting Against Loud Colors — Lightweight Felt Hats Popular—Cloth Gloves Novelty Item.

By Rader Winget

Styles in collars are slowly changing, say local designers of men's wearing apparel. Several years ago the style was short points and low bands but later the pendulum swung back and the long points and medium height bands of the present time resulted. Slowly the style trend is back-tracking to the low bands and short points, merchants say.

As a reaction against the color wave, men now are selecting plain shades of rocks and conservative horizontal striped foot wear. The new "blonde" shoes had a hand in the change since the loud patterns did not go with the soft shaded footwear. Men are now buying tan, blue and black to match their shoes. Shirts also are reacting against loud colors and most of the advance showings of shirts bring to light shirts with a lighter background. White with wide cross stripes is one popular combination.

Felt Hats Popular

Hot summer weather has popularized the light weight felt hats with bands of two horizontal stripes of two colors. The shades blend with each other. Straws have the two-color bands also.

Several new ideas in cravats have been received this week. The old-fashioned Paisley shawl design has been reincarnated in a tie of that shade made in foulard silk.

A light weight silk cravat, is shown with two designs, usually a polka dot at the top and checks or stripes at the ends. The solid blue and mauve pastel shades are gaining popularity among the "best dressers," merchants say.

### Trip to French Lick Is Club Suggestion

The Hoosier Motor Club's suggestion this week for those who desire to take a week-end motor trip includes a visit to West Baden and French Lick. The route from Indianapolis:

Leaving the city go south on Meridian St. to the 1900 block. Turn right on State Rd. 22 and follow same through Waverly to Martinsville. Take State Rd. 12 from Martinsville to Spencer, Rd. 32 from Spencer to Bloomington, Rd. 22 to Bedford and Paoli and Rd. 5 from Paoli to French Lick.

The distance is 133 miles. The road is paved to Martinsville, gravelled to Bloomington with pavement and gravel on to French Lick. The only construction under way on this route is a bridge two miles north of Gosport (good temporary bridge provided) and a place where it is necessary to follow the old road across a bridge immediately south of Bedford.
