

The most refreshing cold drink in the world is INDIA TEA iced

THE unique properties of India Tea cannot be obtained in any other drink. During hot weather, iced India Tea should be drunk regularly. It soothes the nerves, and cools the body. It thoroughly stimulates the system without any harmful after effects. It aids digestion and tones up the stomach.

This is the correct way to make Iced India Tea:

Use an earthen-ware teapot.

Put in one tea-spoonful for each glass of tea.

Be sure the water is poured into the teapot the moment it boils. Allow to stand for 4 or 5 minutes to infuse.

Fill the glass with cracked ice, add a slice of lemon, and pour in the tea.

Add sugar to taste.

Try Iced India Tea at your favourite Soda Fountain. The attendant will make it for you. Most good dealers sell India Tea, or will gladly get it at your request.

Be sure you use **INDIA TEA** or a blend containing India Tea

PROPOSES TO USE SCHOOLYARDS FOR CHILDREN'S PLAY

Albertson Will Present Recreation Ordinance to City Council.

Use of schoolyards as playgrounds through the summer months is urged by Councilman O. Ray Albertson, chairman of the committee assigned to investigate the park board. Albertson said he would introduce a resolution establishing the plan at next city council meeting.

Waste Cited
A statement prepared by Albertson draws attention to the economic waste of allowing school grounds to remain idle during the summer and the inadvisability of forcing many children to travel long distances to reach a municipal playground.

"Let's have for our slogan, not 'give us new playgrounds,' but 'let's use our own playgrounds,'" he said.

Playground Necessary
"On school grounds that have no trees the buildings would afford protection from the heat," the statement declared. "A few sand boxes added to the equipment of swings and slides already there, a matron or governess, with the school janitor as caretaker, would not cost more than the procuring, equipping and maintenance of new grounds. The municipal playground is no longer an experiment; it is an accepted part of our civic equipment."

Albertson said nearly all of the school board members had agreed to cooperate in his proposal. He said he would next submit it to city council.

HANOVER HEARS EVANS WOOLLEN

Banker Is Speaker at Commencement Exercises.

By Times Special
HANOVER, Ind., June 9.—Evans Woollen, president of the Fletcher Savings and Trust Company, delivered the commencement address to the graduating class of Hanover College here today. After pointing

out that colleges are offering "business courses" increasing and that every university must have its school of business, Woollen asked weather it is all in the right direction. He expressed the view that the so-called practical education is not the education that business most needs. The address was a plea for cultural and disciplinary education

as distinguished from vocational education. Degree of bachelor of arts was conferred on thirty-eight graduates. Three ministers received honorary degrees of doctor of divinity.
