

TAX SLASHES BY 1930 AT LATEST, OFFICIALS THINK

Nation Is Reducing Public Debt—\$13,924,000 Surplus Cited.

By United Press
WASHINGTON, Aug. 4.—New tax reductions, possibly before the presidential election of 1928 and at the latest by 1930, were forecast today by treasury experts as statistics were made public showing the national debt has been reduced to \$19,612,527,572.28.

The Government will be financially clear of all obligations to its citizens by 1944 if the Administration policy of reducing the public debt as rapidly as possible and applying money received from foreign nations for war debts to the fund is continued.

Billions Due
The debt is being reduced \$650,000,000 annually. Europe owes the United States \$11,000,000,000 which, with interest, will bring in more than \$21,000,000,000 during the next sixty-two years.

A move is to be started in Congress this fall to extend the debt reduction period over sixty-two years instead of retiring the obligations in eighteen years. The Administration, however, believes now that America is exceedingly prosperous, the time is ripe to liquidate debts so the nation can be ready for the next emergency.

Surplus Cited
The Government so far this fiscal year has a surplus of \$13,924,000 in the treasury, whereas last year at the same time the nation faced a deficit of \$50,647,000.

Meantime, the treasury is preparing to carry on the national business between the tax periods of September and December. Treasury notes of about \$415,000,000 mature on Sept. 15 and tax collections are expected to fall below this amount. A gold bond issue of between \$350,000,000 and \$400,000,000, probably bearing 3½ per cent interest, will be floated.

Does Not Suffer From Asthma Now

Every Sign of Trouble Gone, Works All the Time Now.

People who suffer from asthma or chronic bronchitis coughs will be much interested in a letter written by William F. McKinley, 649 Arbor Avenue, Indianapolis. He says:

"I had been a sufferer from asthma for fifteen years. Was unable to do any work for four or five months in a year, had to sit in a chair for weeks, unable to lie down, tried different medicines, but they did me very little good. I commenced taking Nacor in September, 1923, and I hadn't taken a half bottle until I could lie down and rest at night. I have no signs of asthma now, and I praise Nacor for what it has done for me. I recommend it to all sufferers from asthma and bronchitis."

If you suffer from asthma, bronchitis, or have a chronic cough, you should read the valuable booklet which will be sent free by Nacor Medicine Co., 415 State Life Bldg., Indianapolis, Ind. This booklet also contains letters from people whose trouble disappeared years ago, and never returned. No matter how serious your case seems, call or write for this free information. It may put you on the road to good health again.

STUMP POINTS TO COAL RATES

Says Watson Has Simply Helped to Close Mines.

By Times Special
PRINCETON, Ind., Aug. 4.—Senator James E. Watson's chairmanship of the committee on interstate commerce has produced little for Indiana other than the closing of Hoosier mines, because of freight rates that favor West Virginia, Albert Stump, his Democratic opponent, charged at a First District rally here today.

"Was not the rate increased on the coal from Indiana 130 per cent, while the increase on the rates from West Virginia was only about 60 per cent per ton mile?" Stump asked.

Evans Woolen, Democratic short-term senatorial nominee, assailed the gradual centralization of Government in Federal hands.

"I shall cast no vote until, by question to myself and answer, I have challenged the proposed legislation as to whether it involves magnifying central government at the expense of local government," Woolen pledged.

Two Men Also Put Under Surveillance.

By United Press
NEW BRUNSWICK, N. J., Aug. 4.—Two men have been put under surveillance, subject to arrest, on suspicion, and six secret subpoenas have been issued against persons in Jersey City in connection with Prosecutor Simpson's investigation of the Hall-Mills murder.

Meanwhile, Prosecutor Simpson continued today gathering the evidence for submission case to the grand jury.

He has indicated that he will make a point of the failure of the previous investigation. In addition, Dr. E. I. Cronk, Jersey City physician, was brought to New Brunswick to make a record of his reported conclusions that the murdered bodies of the Rev. Edward W. Hall and Mrs. Eleanor Mills were placed on the ground after they had been taken from a car where the two had been killed.

Two detectives were said to be on their way to Gloucester, Mass., to question Henry Carpenter, cousin of Mrs. Hall.

ACTION UNLIKELY ON ELECTION LAW

Leading Democrats Attending Rally at Princeton.

Democratic action on the questioned validity of the State election law was in doubt today with leading Democrats at Princeton attending a First District rally.

Republicans decided to ignore the questioned validity of the supplemental provisions of the law; Attorney General Gilliom ruled their constitutional challenge was inconsequential as the rest of the law is sound, and the State board of election commissioners concurred in Gilliom's opinion.

The questioned sections are those enacted by the last Legislature providing that the 1924 election books shall serve as the registration lists for the coming election. The Legislature failed to amend the title to include reference to the subject matter of the provisions as required by the State constitution.
