

LEVIATHAN TO BE LEGION FLAGSHIP

Heads Fleet for 1927 Paris
Convention Jaunt.

The Leviathan, largest steamship in the world, will be the official flagship of the fleet of trans-Atlantic vessels that will carry 30,000 veterans to the American Legion national convention in Paris in 1927. Bowmen Elder, chairman of the Legion's French travel committee, announced today.

On this ship will travel many Indianapolis residents, as it has been assigned to national officials of the Legion and its auxiliary and the Forty and Eight, all with headquarters here.

Embarkation for the journey of the Legion will be by State contingents, a definite quota being assigned to each State based on membership in the Legion during 1926. The seven official ports of embarkation will be Montreal, Boston, New York, Hampton Roads, Charleston, Jacksonville and Houston or Galveston with New Orleans as a port of call. The estimated time required for the trip to France, convention trips to battlefields and cemeteries and return is four weeks. Return trip tickets will be good for a period of about two months after the convention.

RADIO DEALERS MEET

Central Indiana Representatives
Hear Talks at Session.

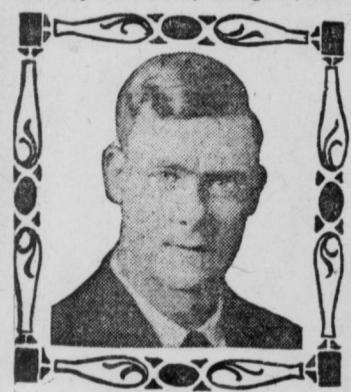

Atwater-Kent radio dealers of central Indiana met Monday at the Lincoln.

Talks were made by L. A. Pratt of the Atwater-Kent Manufacturing Company; H. P. Humphries, Pooley Company; Alvin Zinkan, National Carbon Company; Paul Niehoff, Electron Battery Charger Company; H. Bish, National Cash Register Company, and L. T. Schaefer, sales manager, H. T. Electric Company. This was the second meeting under the auspices of the H. T. Electric Company, local jobbers of Atwater-Kent radio and Pooley cabinets. The meeting closed with a banquet. About 150 dealers attended.

MISERABLE ALL OVER BODY DUE TO RHEUMATISM

Local Man Suffered In-
tense Pains, but Says
Konjola Completely
Relieved Him.

"I was a victim of rheumatism for a long time, and Konjola was the only medicine that completely relieved me, so I cannot help but praise such a wonderful remedy," said Mr. Harry Harvey, well known Indianapolis citizen, living at 1616

MR. HARRY HARVEY

Williams St., this city, during a recent conversation with the Konjola Man at Hook's drug store, Pennsylvania and Market Sts., Indianapolis, where crowds are calling daily to find out about this celebrated new medical compound.

"I was miserable all over my body," continued Mr. Harvey, "for this rheumatism centered in my limbs, arms, shoulders and back. My legs would draw up and cramp and pain. Many nights I would walk the floor three hours at a time, trying to get relief. The leaders and muscles of my hips and legs would seem to jerk and twist with the suffering I went through. The joints and my knees and ankles were swollen, and besides this rheumatism, I was always sore across my back, because my kidneys were in poor condition, and my general health failed so bad that I couldn't eat or digest food right. Finally I had to give up my work. I am a railroad repairman, and I was so down-cast and worried, for nothing would help me."

"I heard about Konjola and the wonderful results other Indianapolis people were getting from this medicine. I started taking it as directed and I showed signs of improvement the second day. Every time I took a dose of Konjola it seemed that I could feel this medicine working through my whole system. When I had taken 3 bottles I made up my mind to endorse Konjola to the public, for it is the only medicine that relieved me. I don't have a single ache or pain now, and the muscles and joints of my limbs are free and active. It is wonderful to be out of misery, after suffering so long, and besides ending my rheumatism, Konjola has also cleared up the kidney trouble, so that my back is not sore and achy like it was, and my digestion is good and my appetite increased. I get the benefit of good, sound sleep every night, and each morning I go to work feeling like any man should."

"I give Konjola credit for all of the great relief I obtained, and I gladly endorse this medicine."

The Konjola Man is at Hook's drug store, Pennsylvania and Market Streets, Indianapolis, where he is daily meeting the public and introducing and explaining the merits of this remedy.

Konjola is also for sale by every Hook drug store, in this city, and by all druggists in outside towns.

THE INDIANAPOLIS TIMES

HAS LIVE COCKROACH DESTROYER

Tarantula as a domestic cockroach tabby, is his hankering for human blood. His single fang will inject enough of the venom into a human to cause frightful swelling, together with almost unendurable pains and fevers.

Therefore, it is doubtful if the tarantula will be generally adopted in the home. Wallace intends to keep this tarantula as long as the food holds out, which will be a long time.

State Entomologist Keeps
Novel Trap for Pests at
Statehouse.

Want to get rid of your cock-
roaches?

Do you do, if you have
them.

State Entomologist Frank N. Wallace is the owner of one of the most novel and efficient cockroach destroyers ever seen about the Statehouse, where the big bluffers abound.

The cockroach trap, for that it verily is, is a tarantula, the large tropical spider.

This fellow, although hampered in his movements by a quart fruit jar, ate four of the biggest Statehouse cockroaches today in less time than it takes to tell it. With three of his ten legs pinioning an equal number of roaches, the big spider ate the fourth with dispatch. To quiet his squirming victims, he inoculated each with a shot of his powerful venom, the big insects dying almost instantly.
