

SCHOOL BUYING OUT OF WRONG FUND ASSAILED

No More Supply Purchases
With Buildings Money,
Is Order.

Because the city school educational department is taking money legally appropriated for the buildings and grounds department, School Board President Theodore F. Vonnegut Tuesday night at the board meeting ordered letters be written to school principals and educational department members ordering them not to purchase materials on the fund outlay of the buildings and grounds department.

He pointed out that the educational department has a fund for the purchase of supplies but in many instances requisitions for supplies are sent to the buildings and grounds department.

Net Valuation
The net valuation of property on which the school board will be able to levy taxes in Marion County is \$652,000,000, according to a report submitted to the board by Frank L. Reissner, secretary. This is one of the bases for arriving at the school levy for 1926-27.

Reissner also reported that on Aug. 1 there was a balance of \$2,267,766.46 in the school treasury. Special board meeting will be held Thursday morning, when working plans for School 42 will be submitted, along with bids on septic tanks for Broad Ripple High School and remodeling of the power plant at School 47.

Request Made
A delegation appeared before the board and asked that Miss Mary McGee, principal at School 2, be again retained as principal of School 54. She was principal there several years and at the end of the school year was transferred to No. 2. Board

members declared nothing could be done. Advisability of procuring compensation insurance for all employees was discussed, but action was deferred.
