

## HOOVER WILL NOT STANDARDIZE HIS VACATION TOURS

Trips Practically Unmapped  
—Plans for Lots of Fishing.

*Times Washington Bureau,  
1322 New York Avenue*  
WASHINGTON, Aug. 13.—There will be no standardization in Secretary of Commerce Hoover's trip west.

World's champion standardizer, he started out today for a month's fling at the open spaces, apparently not knowing fully where he was headed for nor just how he would get there.

His trip is considered in Washington as politically important, Hoover having been mentioned frequently late as a Republican presidential policy.

Main purpose of the trip, according to Hoover, is Seattle, where he will speak Aug. 21. He will also speak at Hammond, Ind., Aug. 14 and in Caldwell, Idaho, Aug. 17. He will be in California late in September, after the primaries. The rest of the trip is unannounced, his office announced.

### How Many Suits

How many suits, shirts, shoes and socks the great standardizer will take with him is also undecided, his office declared. "He's leaving that to his valet," was the explanation.

Other questions and answers interesting from a standardization standpoint were:

"What will he eat for breakfast Sept. 17?"

"Oh, the secretary never knows what he will eat until he looks at the menu."

"Does he know the railroads he will travel on?"

"The full details of the trip aren't arranged at this time."

### Nothing Ready

"Are his speeches already prepared?"

"Nothing is ready to be given out now."

"Does he know what hotels he will stop at in each city and what his room number will be in each hotel."

"Oh, no. He merely wires for accommodations like anyone else."

"Will he carry simplified and standardized luggage?"

"Say, you've got the secretary all wrong. He believes in standardizing business practices, but....well, he's even planning to do a lot of fishing on this trip."

"What size fish? Pike or pickerel?"

No answer.

## MR. FIXIT

Autos Striking Holes  
Wrack Taxpayers'  
Nerves.

Let Mr. Fixit present your case to city officials. He is The Times' representative at the city hall. Write him at The Times.

Nerves of taxpayers in the 1300 block on Bellefontaine St. are torn to pieces by the sound of automobiles striking the holes there, Mr. Fixit was advised today.

DEAR MR. FIXIT: There are some terrible holes in the street in the 1300 block on Bellefontaine St. that have been here all summer. Nearly every car that passes drops into them and it sounds like an automobile wreck. Can't you do something for us poor taxpayers whose nerves are torn to pieces from the noise.

MRS. WALTER ELMORE,  
1322 Bellefontaine St.  
The city engineer's department promised Mr. Fixit early repairs.

DEAR MR. FIXIT: In the 1200 block on E. Ohio St. are some people who have four dogs that are very annoying. They wake the neighbors at 3 or 4 a. m. When anyone goes by, they rush out at them barking and snapping. Can't something be done about this?

EAST SIDE RESIDENT.  
Report the location promptly to Sergeant Bledsoe at police headquarters, Lincoln 4555.

DEAR MR. FIXIT: Will appreciate anything you can do to get Shreve Ave., between Thirty-First St. and Thirty-Second St., smoothed down so my old car will last a while longer.

TIMES BOOSTER.  
The streets department will give you relief as soon as possible.

### EARLY CALL FOR 'PROS'

Must Be on Job at Municipal Go. Courses by 5 A. M.

The alarm clock trade boomed today when an order issued by park board members requiring municipal golf course professionals to be on the job at 5 a. m. went into effect. Pros also received an edict that they must not leave their courses without permission from board members.

The board named Harold McClure assistant golf professional at the Coffin course and raised the salary of John Paynton, starter at the Riverside course, from \$25 a week to \$30 a week.

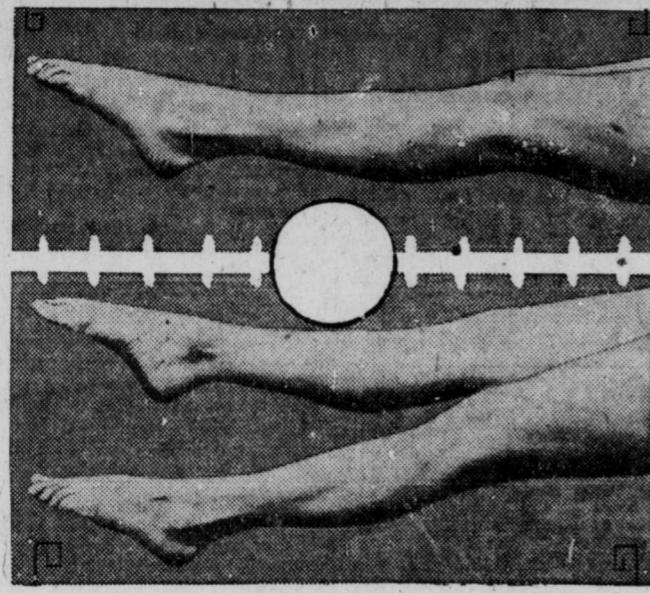

### NIGHT SCHOOL TO OPEN

Second Year of Y. M. C. A. Project Starts Sept. 10.

Second year of the Y. M. C. A. night school will open Sept. 10. James E. Maxwell, director of the Y. evening schools, announced today. Everett J. Black will be principal and the faculty will be composed of teachers from local public school.

Classes will be held three nights a week for forty weeks. Each class will be an hour in length. Recitation rooms are on the second floor of the Y. M. C. A. Bldg., New York and Illinois Sts.

## How to Swim—No. 23

Back Stroke Kick

By Lillian Cannon

The kick to be used for back stroke, when developed for speed, is the crawl, but because of the

position there will be only one kick for both arm strokes.

The kick is the four or six-beat flutter—from hip down with the downward stroke of either arm. The swimmer himself will decide

when to choose the one which comes most naturally to him.

The personal equation should always be favored in matters of swimming, unless form is the real drawback, and each swimmer in using the back overarm will discover that the kick is more natural with one or the other arm.

He should choose the arm that is the more natural and which gives better results.

### EMPLOYES HOLD PICNIC

County picnic given by Luther Tex, road superintendent, for county and city officials and their families was attended by more than 2,000 persons today at Broad Ripple Park.

City and County employees engaged in a tug of war, one of many athletic contests following a picnic dinner.

Practically all courthouse offices were closed. Charles O. Sutton and Cassius Hogle, county commissioners, and Tex judged contests.

### COURT BY PHONE

KANSAS CITY—Judge Leahy of Wichita, Kan., walks into his courtroom in the morning, picks up the receiver of his telephone and keeps the line busy trying his cases over the phone. Several criminals have decided to do away with telephone service, to save \$4 a month and their own necks.

## FIVE CANDIDATES EXPECTED IF CAL DECLINES TO RUN

### Longworth, Borah, Wadsworth, Dawes and Lowden All Ambitious.

*Times Washington Bureau,  
1322 New York Avenue*

WASHINGTON, Aug. 13.—Presidential booms are blossoming profusely this summer. Some are expected to come into full growth next winter after the country has had opportunity to analyze the results of the November elections.

There are at least five booms afoot among Republicans and four among the Democrats, with the prospect of two additional.

Campaigns for the Republican presidential nomination, however, won't be really launched until poli-

cians get an idea of what President Coolidge intends to do.

### No Third Term

That he is seriously contemplating a third term was recently indicated at his summer camp by Richard Washburn Child, former ambassador to Italy. Child, after a conference with the President, told the newspaper correspondents how strong Coolidge is with the people. His observations were regarded as a political feaver.

If the President should not attempt to upset the no-third-term custom, it is believed five presidential campaigns will be launched without delay. They would be for Speaker of the House Nicholas Longworth, Senator William E. Borah of Idaho, Senator James Wadsworth of New York, Vice President Charles G. Dawes and former Governor Frank O. Lowden of Illinois. Among the Democrats the boom for Governor Al Smith of New York is persistent, and the increasing political popularity of exponents of the Volstead modification proves helpful to his prestige.

### HONORABLE MENTION

Friends of William Gibbs McAdoo are persisting their efforts in his behalf. Governor Albert C. Ritchie of Maryland and Senator James E. Reed of Missouri are finding them-

selves beneficiaries of much honorable mention.

If former Senator Atlee B. Pomerene, just nominated by Ohio Democrats to oppose Senator Frank B. Willis, succeeds in ousting Willis, he will find himself among the Democratic possibilities. Governor Victor Donahey of Ohio, if he is elected for his third term, also will be among the Democratic hopefuls. There is no discussion of John W. Davis, the Democratic candidate of 1924.

### LICENSE HEAD QUILTS

*Devericks Leaves Office of School Superintendent.*

Resignation of Robert K. Devericks as head of the license division in the office of Dr. Henry Noble Sherwood, State superintendent of public instruction, has been accepted, effective Oct. 1. Devericks will take charge of the credits department at the Indiana State Normal School at Terre Haute. He has been connected with the State superintendent's office nine years. A successor likely will be selected at the regular meeting of the State board of education, Sept. 17.

There are 322 parks and squares in Paris.

## CLUB GETS NEW SERVICE AUTOS

### Painted Red and Decorated With Emblem.

In order to give better emergency aid to autoists, the Hoosier Motor Club has purchased a fleet of new service cars, it was announced today.

The new road cars, at the service of members of the club and other clubs affiliated with the American Automobile Association, are painted red and decorated with the Hoosier Motor Club emblem. They were purchased from the Frank Hatfield Company.

Emergency road calls come in to the club at the rate of about twenty a day, more than 7,000 calls a year, according to Todd Stoops, secretary-manager. The service, anywhere in Marion County at any hour, is free to members of the club.

Australia's net gain in population through immigration in 1925 amounted to 30,892.

## Save With Safety at The GUARANTEE

Good, dependable, standard merchandise sold to you without misrepresentation or absurd claims at the lowest possible prices and backed by an unconditional guarantee of satisfaction or refund of your money—that's the way the Guarantee does business.
