My Furnace is probably in better  
Shape than if I had burned  
It is really surprising how little cleaning and repair  
my furnace has required since I began to burn  
No tinkering to clog the grate, no soot to choke up  
little wonder COKE is such a harmless fuel.  
for-ton I get far more heat from COKE than  
from coal.

"COKE is the cheapest fuel to burn. It is  
farther, makes a hotter fire and leaves no  
clinkers. Aside from the fact that it is clean  
and more easily handled than coal, I prefer  
cause it really saves me money on my winter  
My coal is a business man who knows the  
a dollar and he reasons that when he buys  
getting full value for his money. He adds
