

MAY MOVE MEN FROM INFIRMARY INTO JULIETTA

Commissioners Consider
Plan to Believe Crowded
Conditions.

Possibility of removing a large number of the inmates from the county infirmary to the newly constructed wing at Julietta, county hospital for the insane, in order to relieve crowded conditions at the former institution, loomed today. Auditor Harry Dunn said the county commissioners had considered the proposal informally and would discuss the matter again Friday.

The infirmary is much over-crowded and is admitting an average of one person a day, said Commissioner Charles O. Sutton. It will be impossible to care adequately for the men and women there this winter unless improvements are made immediately or some of the inmates are transferred, Sutton said. The transfer, it is said, has been recommended by some social agencies and would be carried out before October. Paupers would be kept separated from patients in the insane hospital.

Improvements Costly
To make any improvements on the original four-story infirmary would require an expense of not less than \$10,000, said Sutton. The old structure has been condemned as dangerous and as a fire trap. The influx of persons has prevented dismantling of the building, as had been planned.

Dr. Benjamin F. Morgan of Julietta would have supervision of the paupers transferred, Sutton said. Dr. J. Y. Carter of the infirmary recently warned the commissioners of crowded conditions at his institution.

May Become Infirmity
The transfer of men to Julietta may mean the eventual conversion of that place into a new infirmary, Sutton said. No more insane patients have been received and it is hoped to gradually put all of the insane patients into State asylums. The county contends it is the State's business to provide for the insane.

Discharge in about two weeks of a number of patients from Sunnyside Tuberculosis Sanatorium because of extensive repairs at that institution also was brought to the attention of Dunn.

Upon the recommendation of Dr. H. S. Hatcher, the board of managers has agreed to send a number home. No more patients will be admitted until improvements have been completed, in about two months.

AUTO GROUP WARS ON RURAL OFFICERS

State Association Will Seek Law Controlling Traffic
Signals in Villages—Case Appealed.

Passage by the next Legislature of a law controlling the erection of "stop and go" signs in villages and towns will be urged by the Hoosier State Automobile Association.

The situation at Ingalls, Ind., twenty-four miles northeast of Indianapolis, on State Rd. 37, and at other villages is termed "obnoxious" by motor body officials.

John J. Brown, State tax board chairman, who demanded refund of a \$6.50 fine from Justice Milton P. Huser at Ingalls, announced he will file an appeal in Madison Circuit Court within a week. Brown gave the justice a few days to refund the money.

To Attack Jurisdiction
Brown's appeal will attack jurisdiction, on the ground that there was no affidavit or indictment, and that no plea was entered or witnesses sworn. The tax board accepted legal aid of the auto association to make the test case.

Brown said he did not see the overhead signal, but had slowed up for the intersection and was driving less than ten miles an hour.

Two Signals
At Ingalls two overhead signals are only half a block apart on Rd. 37 at the intersection of two roads, and change rapidly, motor body officials said. There is no "change interval" on the signs.

The Hoosier Motor Club and the State association are conducting a campaign against "unfair" enforcement of laws and unnecessary signs.

HONOR EXPLORER
HONOLULU—The spot on the island of Hawaii where Capt. James Cook, British navigator and discoverer of Hawaii, landed 150 years ago, will be marked with a monument or tablet, if a drive for funds started by the Pan-Pacific Club is a success.

Captain Cook landed in 1778, the first white man to set foot on Hawaiian soil. He designated his landing by carving an arrow in the face of a large rock. The sign is still to be seen.

Cook was later killed by the natives.

Radio Riles Trenton, but Not Indianapolis

The tones of the radio on the evening air have not been found objectionable by Indianapolis residents, Dr. Herman G. Morgan, city health officer, today wrote to health authorities in Trenton, N. J.

Good citizens of Trenton are annoyed by the radio "that plays very loud, or whose loud speaker is pointed out a window," the health authorities wrote to Dr. Morgan. They asked whether Indianapolis has an ordinance preventing use of radios after 11 p. m., indicating that one of that nature was likely to be introduced there.

"We have received no complaints," Dr. Morgan said.

FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

Better Than Soda
For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Try a 25c Bottle
Insist upon "Phillips' Milk of Magnesia." Twenty-five cents and fifty-cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875. —Advertisement.
