

## EUROPEAN DEBT QUESTION TO BE OPENED IN FALL

Senator Glass Will Take Up  
Fight in Next Con-  
gress.

Times Washington Bureau.  
WASHINGTON, Sept. 3.—The whole question of the interrelated debt settlements, officially announced to be closed, will be thrown into the senatorial arena again as soon as Congress reconvenes.

That was made certain today when Senator Carter Glass said he would open up the question on the floor of the Senate at the earliest possible moment after the opening of the next session.

Senator Glass declined to comment on the proposal of former Secretary of War Baker to cancel the debts and revise the reparations payments to be made by Germany—a proposal which is causing much comment here.

Although it is regarded as doubtful that Glass will advocate complete cancellation, it is understood that his views, regarded as carrying added weight because of his service as Secretary of the Treasury from 1918 to 1920, will differ sharply from the present debt policy.

**Is Bad Policy**  
The Baker proposal for outright cancellation of the debts was warmly received in many quarters. Many "not for publication" opinions coincide with the former war secretary's views that we have slight chance of collecting anything like the amount of the war debts, at present funded, and even if we could it would be a bad economic and political policy.

The view was quite generally expressed by those following the debt negotiations from positions that tie their tongues, that we are pursuing a phantom in the hope of collecting the war advances. They were careful to point out, however, that opinion in this country has been so led that only one free from political entanglements is safe in discussing the situation freely, and advocating a right about face of the present debt policy.

**U. S. Unpopular**

While generally sympathetic with the Baker view that the debt payment arrangements are making the United States very unpopular in Europe, his argument that debt cancellation would permit European rehabilitation worth more to American industry than possible debt payments is being challenged by some notably representatives of farm organizations.

There is no indication, for example, of a shift of the position of the National Grange that "the hard-earned money of American citizens which was loaned by our Govern-

ment during and after the war should be collected in full." It is the position of the Grange that what the farmers might gain from an improved European market as a result of debt cancellation would be more than lost by heavier taxes. Consequently they are in favor of going after the money, and are not yet asking questions about the possibility of getting it.

Although it is not yet clear whether or not the Baker cancellation program will result in an organized move in that direction, the view is general here that the debt settlement question is anything but finished business.

**VOTERS GET SHAVE**

Cut Spot of Hair to Guard Against "Repeaters."

SANTO DOMINGO, Sept. 3.—"Repeaters" at elections here are going to have a hard time after this. Authorities have decided to shave a spot on the head of each voter as he casts his ballot. He also will be marked with indelible ink. The ink method has been tried before, but crooked politicians and their lieutenants supplied chemicals to remove the stain. It is said that they are frantically seeking an effective hair tonic to meet the present emergency.

**SEEK ATLANTIS**

PARIS—A society has been formed here to rediscover a land lost for 11,000 years. The group believes that a continent in the Atlantic Ocean once connected Europe with the New World. Traces of it are being sought, and a library of books treating of the subject is being collected.

**Clears away itching rash in two days**

Uses Resinol now for all kinds of skin ills

"On July 20, 1917, just before I was called to service in France, I was advised by my druggist to use Resinol Ointment for a rash which I had on my arm. It relieved the itching and the rash was gone in two days. Later I cured two friends of mine who were suffering from some kind of skin trouble. We all agreed that it was 100% stuff for anything like a breaking out."

While in France I had a bunch of boils that nothing seemed to cure until I had the doctor fix the little place up (after a treatment with a knife) with Resinol. Needless to say, I soon lost all my boils and from that time on I became the outfit's boy and pimple doctor. Since coming home I have used a great many jars of Resinol and I swear by it. Every little cut or scratch gets its immediate application of Resinol. It is a wonderful, non-equalled ointment." (Signed) Chas. T.
