Quaker Oats

THE price you pay for substitutes is the same as for the genuine Quaker Oats. The difference is in the flavor. And flavor, above all things, is important in oats.

That rich and tasty Quaker flavor is the result of some 50 years' milling experience. Once you taste it, you are spoiled for ordinary oats.

That is why millions demand the Quaker brand—why you should accept no other.

Quaker milling, too, retains much of the "bulk" of oats. And that makes laxatives less often needed. Protein, carbohydrates, and vitamins and "bulk" are thus combined to make Quaker Oats an excellently "balanced" food.

Get Quaker Oats today. Grocers have two kinds: Quick Quaker, which cooks in 3 to 5 minutes, and Quaker Oats.

Prosperity is "a bogus and concocted issue—an issue that is never put forward except when the party in power is bankrupt in policies and has a record that cannot be defended," Hull said.
