

NO TRACE OF MEN WHO FORCED WAY IN BOWMAN HOME

Abused Baby While They Made Mother Prepare Their Meal.

Police had no trace today of two men who Tuesday morning forced their way into the home of Mrs. Hezlie Bowman, 22, of 3701 W. Twelfth St., and, with clubs, compelled her to cook a meal for them. Police believe the men to be escaped convicts.

The men entered shortly after Mr. Bowman left for work. They grabbed Mrs. Bowman, telling her they would kill her and her 14-month-old baby, Betty Lou, if she made any outcry. When they threatened to kill her, she gave them a dollar. The men then hit the baby on the legs with their clubs. One was for killing the baby, but the other one said: "We don't want to add murder to

what we already have against us." They contented themselves by sticking the baby in the legs with pins while they waited for Mrs. Bowman to prepare the meal. After eating, the men remarked it tasted "better than prison grub."

After ransacking the Bowman home one man went next door, to the home of Mrs. Claude Moss, 3703 W. Twelfth St., the other half of the same house, and searched for valuables. No one was at home and nothing was taken.

Leaving the house, the men told Mrs. Bowman if she made any attempt to call to a man, who was working in a field a block away they would come back and kill her baby.

She remained in the house until Mrs. Moss and her husband came home. Mrs. Moss then walked a mile to a phone and called police.

Lieutenant Winkler and squad scoured the entire neighborhood. At one time they saw the men at a distance, but they escaped in a woods.

Mrs. Bowman said it was the second time she had been compelled by men to cook meals for them. Two years ago two negroes forced their way into her kitchen. After an attempted attack they took charge of the kitchen, helping themselves to food and taking some of her husband's clothes.

WEATHER CAUSES DELAY IN FLIGHT

Postponement in New York-to-Paris Attempt.

By United Press
ROOSEVELT FIELD, WEST-BURY, L. I., Sept. 15.—Four airmen were ready today for an epic-making flight; three powerful motors were delicately tuned, and the weather was perfect—yet the New York-to-Paris flight of the Giant Sikorsky airplane, S-35, was postponed.

The cause of the delay came in messages from ocean liners, far out in the Atlantic, and from land stations on the Newfoundland coast. The messages reported rainy weather 300 miles east of the Grank Bank, low visibility and freshening wind.

The S-35, in which Capt. Rene Fonck and his three associates planned to span the Atlantic without a stop, was forced to remain in its shed.

LIBERAL PARTY WINS IN CANADA

Balance of Power Situation Remains.

By United Press
OTTAWA, Ont., Sept. 15.—Conservative Premier Arthur Meighen and five of his ministers were defeated in Canada's general election Tuesday and returns today assured the return to power of the Liberal party, led by Mackenzie King.

The balance of power in the new parliament apparently again will be held by the Progressive-Liberals. It has been the hope of Canadians that Tuesday's general election would end the balance-of-power situation in the house, but while the conservative defeat was decisive, the Liberal victory was not.

Good Elimination Is Essential to Good Health

ONE cannot be well without good elimination. If the kidneys fail to function properly, there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and often toxic backache, headache and dizziness are symptoms. Further evidence of improper kidney function is sometimes found in irregularity and pain. More and more people are learning the value of drinking plenty of pure water and occasional use of a diuretic. Doan's Pills have been winning friends for more than 40 years. They are used and recommended the country over. Ask your neighbor!

Indiana's Greatest Stove Department

Introducing Indiana's Greatest Value in a Parlor Furnace

Dome Combustion Chamber
rolls the flame so that carbon and heavy gasses are burned. Consumes its own smoke. Practically no heat goes up flue.

Extra Large Feed Door
permits the use of large pieces of coal and removes danger of spilling coal on floor. Mica windows illuminate room.

Leak-Proof Joints
prevent gasses and smoke from leaking into room. An especially valuable feature of this Charter Oak Parlor Furnace.

Oval Fire Pot
holds enough fuel to keep fire going over night, longer if desired. Distributes heat over greater area than usual.

Extra Large Ash Pan
simplifies the removal of ashes. Has extra stout handle. It's easily removed and replaced.

Pierced Furnace Casing
protects furniture from direct heat and distributes heat more evenly. Gives forced air circulation through the room.

Feed Door Fastened to Body
causes door to fit much more snugly than is usual with other stoves that have the door fastened to the casing.

Duplex Grates
exceptionally easy to shake. Give you a clear, bright fire without wasting any of the fuel. A most important feature.

No Ashes in Room
because the grate can be shaken without opening the door to the ashpit. Keeps your home clean without effort.

Ground Ash Door Joints
makes a tight fit so you can control the fire and have as much or as little heat as you desire. Also ground damper joints.

In principle, this great heater operates exactly like a furnace. It takes the cold air off of the floor, warms it between the fire-dome and the outer casing, and distributes it evenly over the room through the pierced ventilation holes in the casing. The large oval fire-dome is a practical smoke consumer. This and the ability to burn large lumps without chopping them helps materially to lower your coal bill. Absolutely the most scientifically constructed heater we have ever offered.
