

FIVE-DAY WEEK IN MAKING NOW, SAYS UNION MEN

Woll Points Out Half Holidays Show Trend in Industry.

By Times Special
DETROIT, Mich., Oct. 7.—"Not only is the five-day working week bound to come to industry, but it already is in the making," is the statement today of Mathew Woll, vice president of the American Federation of Labor.

Woll's declaration follows a similar opinion expressed a few days ago by William Green, president of the federation, now in convention here. "I do not pretend to say when the system will be universally adopted or when a movement in its behalf will be a principle of the American federation," said Woll, "but the whole tendency of the times is in that direction."

The First Step
"First, it was found that many members of the Jewish unions did not work on Saturday, for religious reasons. The five-day week was the result in some of those unions. "As the automobile came into common use, there was a growing desire on the part of thousands who hitherto had been cooped up in the cities, to seek the country on Saturday afternoons. Half-holidays on Saturdays followed. In some industries it was found that it was not satisfactory to operate plants only half a day on Saturdays and many concerns closed down entirely on that day."

"This caused falling off in trade of department stores on Saturdays and many of these big establishments adopted the five-day week. There is not enough work to go around in the mines, so the five-day week is being employed as a means of distributing the chance to earn a living among a number of individuals there."

"Now if this mass production continues in industry, as it is likely to do, the time will come when there will not be enough employment for workers in many lines. And thus the five-day week becomes an industrial necessity."

"There is a humanitarian side of it, but it looks up with good business. There is no doubt that the worker who has a sufficient amount of rest and a sufficient amount of recreation does a better job than does the man who is physically worn out."

"With a five-day week men would go to their places of employment on Monday morning all peppered up for the task before them. This is what we are coming to, beyond doubt."

From School Teacher to Great Eminence

A young man who was brought up on a farm in Western Pennsylvania studied diligently and qualified for district school teacher. Further pursuing his studies and teaching, he managed to save up enough money to put him through medical college. He began the practice of medicine in the new oil section of Pa.

He was a student of nature, knew and could easily recognize most of the medicinal plants growing in the woods.

Later, he moved to Buffalo, N. Y., where he launched his favorite remedies, and in a short time they were sold by every druggist in the land. Today, the name of this man, Dr. R. Y. Pierce, is known throughout the world. His Golden Medical Discovery is the best known blood medicine and tonic. More than fifty million bottles have been sold in the U. S. If your druggist does not sell the Golden Medical Discovery, in liquid or tablet form, you can obtain a trial pkg. of the tablets by sending 10c to the Dr. Pierce Clinic, in Buffalo, N. Y.—Advertisement.

NOMADIC BLOOD TURNS HOBOS TO TRIP SOUTHWARD

Start Down Long, Winding Road That Leads to 'Nowhere.'

By United Press
CHICAGO, Oct. 7.—Down the long winding trail of the "road to nowhere" that vast vanguard of men "that don't fit in" are moving again.

Once more the move is taking them nowhere in particular, except that it will eventually find them roaming about under sunny skies during the winter.

For almost six months, these men have been somewhere in the north. Some have been working—in the harvest fields and places of that kind. Others have been merely roving.

Play Most of Time
Quite a few have been content to stop-over in the big cities for the summer, working part of the time, but playing most of it.

Many of them have "summered" in Chicago, spending much of their time around the "Hobo College," so-called because it was organized strictly for those men the world calls hobos.

Here at this place on a summer evening one may sit for hours, listening to tales that had their origin in all parts of the world.

Contrary to public opinion most of these men are not what the public calls "bums" as far as intelligence is concerned. Sometimes they sit throughout an evening discussing various philosophies. The discussion occasionally shifts to literature and they are well read in a general way. After Emerson, Milton, sometimes Plato and Socrates, frequently crop up in their conversation.

They move about in the warm countries during the summer. Then they gather here and in other large cities for the summer discussions, working just enough to provide food and clothing.

The boys who roam in the west during the summer always stop over here for a while before leaving for the south. Now as winter rapidly

finds "FRIEND IN HOUR OF NEED"

Rev. A. R. Prentiss, Well Known Methodist Minister Of Indianapolis, Ind., Weak, Sick And Failing, Says He Was Made Strong Through Todd's Tonic, Which Has The Strength Building Qualities of Rare Old Wine.

"I suffered from stomach trouble and constipation and had frequent bad attacks of indigestion. A brother layman suggested I try Todd's Tonic as it had helped him greatly. After four bottles, I have gained four pounds in weight. Your tonic proved a friend in my hour of need. I was weak, sick and failing on the path of life and this medicine made me a strong, youthful looking old man. I take long walks, out, sleep and feel as spry as a much younger man. I can truthfully say that Todd's Tonic is a boon to men and women who falter on the path of life because of ill health. May it ever go on relieving others as it did me." REV. T. R. PRENTISS, 914 Edgemont St., Indianapolis, Ind., Methodist Minister, Member of K. of P. and Odd Fellows.

Todd's Tonic, with its wine like flavor, is most pleasant to take. Todd's Tonic is sold at Haag Drug Stores and other good drug stores in Indianapolis and throughout this section. TODD'S TONIC LAXATIVE TABLETS—"A Dose at Night—Makes Everything Right."—Advertisement.

Freight Loaded

A southbound freight the other day, passing Sixty-Third St. had eleven men riding in open sight on flat cars and "ollers." How many were gathered in the "empties" is conjecturable.

A few weeks from now most of them will be in the South. Some will ship from New Orleans, Mobile, Galveston and other seaport towns for warmer weather still.

Then during the winter they will roam around in tropics, perhaps the West Indies, perhaps South America. Some of them eventually will find the Orient.

But no place will they settle down—for their is the curse or the blessing of the gypsy blood.

JUDGE BANS GYPSIES

Get Out of Town by Friday, Thirteen Are Told in Court.

Gypsies will not be able to "gyp" in Indianapolis after Friday, according to an order handed down by Judge Paul H. Wetter in municipal court.

Eleven Gypsy men and two women were in court on vagrancy charges. Police declare that they rent "holes in the wall" and put up gaudy signs luring persons to have their palms read or horoscopes cast, evading an ordinance prohibiting fortune telling.

The judge told the thirteen to leave the city by Friday. Otherwise they will find themselves under bonds so high that they will be behind the bars, he said.

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have before. An eminent physician, expert in all matters of child-birth, has shown the way. It was the wife of a friend of mine who produced the greatest remedy. Mrs. C. J. Harman, Scranton, Pa., says: "With my first two children I had a doctor, but with my last three I used Mother's Friend. I had only a nurse, and I had no pain. I was able to get up and walk about in ten minutes. I was able to get up and walk about in ten minutes. I was able to get up and walk about in ten minutes."
