

# PRINCE OF WALES CONFRONTED WITH DIFFICULT SEASON

Young Idol Is Expected to  
Ride in Many Steeple-  
chases.

**By United Press**  
LONDON, Oct. 29.—The Prince of Wales is "all set" for the hunting season and all England is worried. It is not too much to say that all England will sigh with relief when the season is ended—If the Prince is still hale and sound.

His propensity for falling off horses is world-famous. He has usually escaped unscathed, but at other times he has broken his bones and sustained slight concussions of the brain, all serious when they happen to an heir of a throne.

His intimate friends say that he undertakes too much. His prominent social position makes him feel that he ought to excel at everything he undertakes, and that he cannot hold back when others have a go at a fence or a hedge. He pits himself against most expert jockeys and steeplechase riders, men who have concentrated at this one sport. What they jump, the Prince of Wales tries to jump, too.

Horsemen say the Prince rides a horse too big for him. It is well known that he prefers large mounts. But experts point out that the Prince only tips the scale at a little over 125 pounds and that, with his slight weight thrown against a hunting snaffle bit, he cannot control the powerful horses he chooses.

The question of the Prince's seat in the saddle is one of the most hotly discussed problems now before the public. Some say he rides by balance more than by grip of the knees and that his seat is precarious over jumps, though safe enough for riding on the flat. Others insist that his jumping seat is excellent and that the trouble is that the horses fall down under him. That is the Prince's own contention.

"Do you expect me to stay in the dirt if the horse falls down?" he asked a friend who was discussing the matter with him not long ago.

Englishmen, in whose hearts the Prince has won a very warm place, know that for whatever reason, the Prince keeps falling off his horses. That fact interests them more than the cause of it. They admire his courage and high spirit but they wish he would be a little more careful.

The Prince is sure to ride in many difficult point-to-point races this season, and the British nation is watching anxiously, in dread of a serious accident.

## NEW ORGAN

HONOLULU—A new organ costing in the neighborhood of \$20,000 and said to be one of the thirteen greatest in the United States, was recently presented to Kawaiahae Church here by C. Brewer and Company, a sugar firm. The Kawaiahae Church, built of coral rock, and one of the oldest religious institutions in Hawaii, has a congregation strictly Hawaiian.

**WAKE up your sleeping youth!** Look younger! Be younger! Age has little to do with your looks or your feelings. It's the condition of your blood that counts! And blood will tell! It tells in a hundred ways. If your system is starving for rich, red blood, you may look and feel old at thirty. But if you build up the red-blood-cells with S. S. S. you'll quickly see the wrinkles fade away—the sagging pouches give way to firm, solid flesh—and the fresh, glowing beauty of youth take the place of a skin sallow and disfigured by blemishes. Rich, red blood means youth, life and energy! S. S. S. helps Nature build red-blood-cells by the millions. For generations S. S. S. has been keeping people looking and feeling young. Fresh, cleansing, purifying, rich, red blood that S. S. S. helps Nature build, nourishes every muscle, organ and tissue of the body. Pimples, blotches and black heads disappear. Boils, eczema and rashes dry up. Your face—your body—your whole being takes on the look and power of youth. Wake up your system with S. S. S. Build red blood and you rebuild youth! Get S. S. S. from any druggist. The larger bottle is more economical.
