Fundamentalists Foes to  
Continue Fight, Win or  
Lose.

By Times Special  
WASHINGTON, Jan. 6. — The  
Supreme court heard the front page  
again. The Tennessee Supreme  
Court is expected to pass on con-  
stitutionality of the State's anti-  
evolution teaching law in a few  
days. Then the fight will begin all  
over, according to John R. Neal,  
native Tennessee lawyer, who was  
John Thomas Scopes' personal at-

## SOME WOMEN ALWAYS ATTRACT

You want to be beautiful. You want  
the tireless energy, fresh complexion  
and perfect youth. Then let Dr. Ed-  
wards' Olive Tablets keep your system  
free from the poisons caused by  
clogged bowels and torpid liver.  
For 20 years, men and women suffer-  
ing from stomach troubles, pimples,  
listlessness and headaches have taken  
Dr. Edwards' Olive Tablets, a success-  
ful substitute for calomel, a compound  
of vegetable ingredients, mixed with  
olive oil, known by their olive color.  
They act easily upon the bowels with-  
out gripping. They cleanse the system  
and tone up the liver.  
Keep youth and its many gifts.  
Take Dr. Edwards' Olive Tablets night-  
ly. How much better you will feel—  
and look. 10c, 25c, 50c. All druggists.

## "MY DIGESTION IS GOOD FOR FIRST TIME IN 5 YEARS"

Another Local Lady Says  
Konjola Completely  
Ended Her Stomach  
Trouble.

"A few months ago I never  
thought I would be making a state-  
ment of this kind, for I never be-  
lieved anything would really end my  
stomach trouble, but Konjola has  
been so wonderful that I have made  
up my mind to give this endorse-  
ment."

MARY E. BRITTENHAM

This grateful statement was made  
in a report received just recently  
from Mrs. Mary E. Brittenham, well-  
known Indianapolis lady, living at  
214 E. Morris St., this city. It was  
given in person to the Konjola man  
who is explaining this surprising  
new medicine to large crowds every  
day at Hook's Drug Store, Pennsylv-  
ania and Market Sts., Indianapolis.

"My digestion is good for the first  
time in five years," continued Mrs.  
Brittenham, "and I will say that  
Konjola has completely ended all the  
stomach miseries I ever suffered and  
for several weeks now I have en-  
joyed good health."

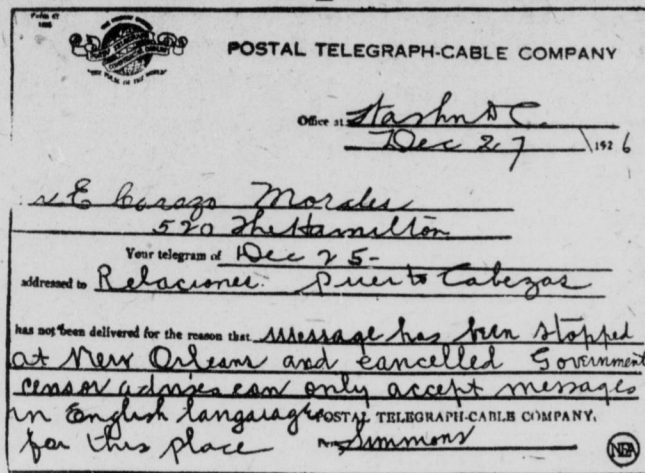

"My first touch of stomach trouble  
came when I was about 16 years old.  
In a few years I had come to the  
place where nothing would relieve  
me, and since 1921 I have taken  
medicine upon medicine. I could  
never say any of these things  
ended my trouble, so you know I  
have spent hundreds of dollars  
without benefit. For three years I  
have always had a heavy, hard  
lump in the left side of my stomach.  
This caused the most agonizing  
pains anyone could suffer. I ate  
the very lightest foods, such as  
broth and crackers, but still I was  
in misery. Such things as pickles,  
cake or heavy food I never touched  
for over five years. Even a drink of  
water often put me in untold agony.  
Nearly every day I was subject to  
dizzy, blind feelings and after my  
evening meal I would invariably  
suffer vomit. My nerves were in such  
dreadful condition that I would be  
come shaky, and several times I  
would get melancholy without cause  
and cry like a child for hours at a  
time."

"I was certainly in a poor state of  
health and had suffered so long this  
way I never expected to get well. I  
waited several weeks before I would  
finally decide to try Konjola, but  
when I did begin taking this medi-  
cine, I could feel a difference the  
first week. I took four bottles and  
by that time I was able to sleep  
well at night and for the first time  
in years I could eat anything I  
wanted. It was about six weeks  
ago that I ate cold slices and some  
cake, and never had a minute of  
suffering afterward. I have perfect  
digestion now, and the dizzy spells  
do not come. Also, that lump has  
gone from my side, and the pains  
and vomiting are all things of the  
past now. I am not nervous or  
shaky and melancholy like I used  
to be but have new energy and feel  
better than I can ever remember in  
my life before."

"After the wonderful blessing Kon-  
jola has been to my health, I want  
to endorse it, and will never stop  
praising this medicine."

The Konjola Man is at Hook's  
Drug Store, Pennsylvania and Mar-  
ket Sts., Indianapolis, where he is  
daily meeting the local public and  
introducing and explaining the mer-  
its of this remedy. Konjola is sold  
by every Hook store in Indianapolis  
and by all druggists in the nearby  
towns throughout this section.—Ad-  
vertisement.

## Censorship at Work

Washington representatives of the Sacasa faction in Nicaraguan poli-  
tics, which is opposed by the United States State Department, got this  
notice when they tried to send a Christmas day message, written in  
Spanish, to associates in Puerto Cabezas, Nicaragua. The telegraph  
company says the censorship was established by President Diaz of Ni-  
caragua, not by Washington.

torney in the school teacher's his-  
toric trial.

"Win or lose, the fight for liberal-  
ism in teaching is just beginning,"  
Neal said here today.

"If the Tennessee Supreme Court  
says the State law is constitutional,  
then we will come immediately to  
the Supreme Court of the United  
States to seek a reversal.

### Fight in Every State

"If the court decides that the law  
is unconstitutional, then we will  
launch a fight in every State where  
such laws exist in an effort to have  
them removed from the statute  
books."

Neal hopes the court will make a  
clean-cut decision and not on a tech-  
nicality.

Neal is partly responsible for the  
anti-evolution law. As a professor  
at the University of Tennessee he  
protested against the dismissal of  
a biology instructor who recom-  
mended to his students Robinson's  
"Mind in the Making," as collateral  
reading. He was dismissed as a  
result. The dismissal attracted  
state-wide discussion and the law  
which Scopes violated, resulted.

Although the Scopes trial at-  
tracted international attention and  
resulted in a sweeping victory for  
liberal teaching insofar as public  
sentiment is concerned, it has caused  
a literal reign of terror among  
science teachers in Tennessee, Neal  
declared.

"Five Tennessee county school  
superintendents have announced  
that hereafter in the employment  
of science teachers they will ask  
them, if they believe in evolution.  
If they do, they won't be employed.  
At the University of Tennessee the  
situation is even worse."

"The enforcement of this law will  
drive science from our schools and  
if its constitutionality is sustained  
it will whet appetites for additional  
restrictive legislation by funda-  
mentalists who will seek to force,  
through law, the acceptance of their  
views."

### Children as Spies

"Our fight is just commencing.  
Our law is not, as a great many peo-  
ple think, a dead letter. Teaching  
of science can't be bootlegged like  
whisky. Teaching of evolution  
means misdemeanor. The funda-  
mentalists will have their children  
acting as spies, reporting each fan-  
cied violation, thereby creating an  
even worse reign of terror among  
teachers than exist now. The law-  
enforcers will be turned loose and the  
terror of science teachers will be  
such that they will have to give up  
their jobs."

Scopes, the youthful defendant, is  
now studying science at Chicago  
University as a result of a \$5,000  
fund raised by science teachers  
throughout the nation.

## Don't Let a Cough or Cold "Go Down"

If you let a cough get down into your bronchial tubes  
or lungs, it stops being merely a nuisance and becomes a  
real danger. A "head cold" is only a bother while it stays  
in your head. But once it gets down into the danger zone,  
serious trouble threatens.

Act promptly to check the cough;  
to keep the head cold from "going  
down." Sure and lasting relief is  
as near as the nearest drug store.  
Quickly and unfailingly Ayer's  
Cherry Pectoral goes straight to

the seat of danger. Real medicine,  
reaching deep with its soothing,  
healing power, penetrating through  
and through the irritated mem-  
branes of your throat and bron-  
chial tubes.

If you are catching cold; if you  
have a "head cold"; if your chest  
is tight; if you have a cough—  
even if bronchitis has developed—  
Ayer's Cherry Pectoral at once!  
Keep your cold from going down  
into the danger zone.

Cherry Pectoral is pleasant, safe  
and dependable—for children and  
grown people. At all druggists—
